Chicken is the most widely-consumed meat on the planet. It is inexpensive, quick to cook and hugely versatile, and its mild flavour makes it a favourite with people of every age, making it a great choice for a family meal. Chicken is a great choice for dieters because it contains a lot of protein and very little fat - steamed or grilled chicken breast is one of the leanest and healthiest meats available. Not only that, but its mild flavour means it can be adapted to an infinite number of different ingredients, from the delicate tastes of Mediterranean foods, such as basil and olives, right through to the rich and heady spicy stews and curries of India. Think of chicken as a deliciously light and low-fat blank canvas to which you can add all your favourite flavours, and be inspired by the global influences of this recipe collection.

As parents, we all know that children can be notoriously difficult to cook for. Many of us fall into the habit of cooking the same dishes over and over again, simply because we cannot bear the idea of scraping wasted food into the bin at the end of a meal. However, a child's formative years are when they learn to accept and like new foods, and it is therefore of great importance to encourage them with new tastes and different textures as often as you can. Hamlyn All Colour Cookbook: 200 Recipes for Kids has been put together with this in mind, but also with the knowledge that children are generally fussy creatures and like their food to be simple and to look good. Each recipe has been photographed to show you exactly what you will be cooking (and what they will be eating), and has of course been tested for child-appeal. To prevent your children getting bored by the same meals, we have also added a creative variation at the end of each recipe.

As parents, we all know that children can be notoriously difficult to cook for. Many of us fall into the habit of cooking the same dishes over and over again, simply because we cannot bear the idea of scraping wasted food into the bin at the end of a meal. However, a child's formative years are when they learn to accept and like new foods, and it is therefore of great importance to encourage them with new tastes and different textures as often as you can. Hamlyn All Colour Cookbook: 200 Recipes for Kids has been put together with this in mind, but also with the knowledge that children are generally fussy creatures and like their food to be simple and to look good. Each recipe has been photographed to show you exactly what you will be cooking (and what they will be eating), and has of course been tested for child-appeal. To prevent your children getting bored by the same meals, we have also added a creative variation at the end of each recipe.
