

## 2018 Camaro Wall Calendar

A Feast for Camaro Fans &:Even five years after the last one rolled off the assembly line, the Camaro remains one of the most beloved cars ever built on U.S. soil. The Z/28, SS, Yenko, COPO, Berlietta, IROC-Z - American car buyers loved them all. From its arrival in 1967, the Camaro was always fast, fun, stylish and affordable, and continues to be one of the most commonly collected, resorted, modified and raced vehicles on the road. &:in The Story of Camaro, accomplished author John Funnell are ace photographer Jerry Heasley explore the colorful and fast-moving history of this legendary car. Together, Gunnell and Heasley provide all the facts, photos and insight that Camaro lovers need in one great package. &:More than 200 fabulous photos &:History, key technical specifications, production information &:Up-to-date collector pricing &:Complete year-by-year options lists &:An inside look at the new 2006 Concept Camaro

There is no consensus on how strongly the Tax Cuts and Jobs Act (TCJA) has stimulated U.S. private fixed investment. Some argue that the business tax provisions spurred investment by cutting the cost of capital. Others see the TCJA primarily as a windfall for shareholders. We find that U.S. business investment since 2017 has grown strongly compared to pre-TCJA forecasts and that the overriding factor driving it has been the strength of expected aggregate demand. Investment has, so far, fallen short of predictions based on the postwar relation with tax cuts. Model simulations and firm-level data suggest that much of this weaker response reflects a lower sensitivity of investment to tax policy changes in the current environment of greater corporate market power. Economic policy uncertainty in 2018 played a relatively small role in dampening investment growth.

Dan Lyons was Technology Editor at Newsweek Magazine for years, a magazine writer at the top of his profession. One Friday morning he received a phone call: his job no longer existed. Fifty years old and with a wife and two young kids, Dan was unemployed and facing financial oblivion. Then an idea hit. Dan had long reported on Silicon Valley and the tech explosion. Why not join it? HubSpot, a Boston start-up, was flush with \$100 million in venture capital. They offered Dan a pile of stock options for the nebulous role of "marketing fellow." What could possibly go wrong? What follows is a hilarious and exhorting account of Dan's time at the start-up and a revealing window onto the dysfunctional culture that prevails in a world flush with cash and devoid of experience. Filled with stories of meaningless jargon, teddy bears at meetings, push-up competitions and all-night parties, this uproarious tale is also a trenchant analysis of the dysfunctional start-up world, a de facto conspiracy between those who start companies and those who fund them. It is a world where bad ideas are rewarded with hefty investments, where companies blow money lavishing perks on their post-collegiate workforces, and where everybody is trying to hang on just long enough to cash out with a fortune.

Holmstrom tells these complete story of the classic muscle-car era, from the introduction of Pontiac's GTO in 1964. From the performance cars that preceded the muscle cars to the last Super Duty 455 Firebird rolled off Pontiac's assembly line in 1974, they're all here. And the Mustang, Camaro, and Challenger muscle cars are being manufactured today are part of the rebirth of the American muscle supercar history.

Chevy Chevelle Fifty Years

Crazy Hot

100 Inspired Recipes to Grill Anytime, Anywhere

A traditional favorite, the NIV Children's Bible is a full-text Bible for kids with color illustrations of key Bible stories.

Chevrolet never intended the Chevelle to be a ground-breaking car. In fact, they intended it to be anything but a ground-breaking car. It may have been conventional, and it may have used old-fashioned technology, but without a doubt the Chevelle was a very, very good car—one of the best of its era. Its body-on-frame design, though nothing radical, made it the perfect platform for harnessing the energy about to be unleashed in the coming horsepower wars. When the dust from the muscle-car era settled, the Chevelle, in LS6 form, reigned supreme as the fastest American car ever built. Its stout full-perimeter frame ensured that the car would handle all that energy and still last for the long haul. The buying public appreciated the Chevelle's simple virtues and responded by making the car an unequalled sales success. In its first year, Chevrolet sold nearly 400,000 Chevelles, outselling the Ford Falcon by nearly 30 percent. When Chevelles disappeared for good after the 1977 model year, Chevrolet had produced over 7.2 million of them. The Chevelle was built to hold up to anything their owners could throw at them, and hold up they did. The Chevelle had such a high survival rate that today it is one of the most common cars seen at car shows across the country—and one of the most beloved. Chevy Chevelle: Fifty Years celebrates America's half-century love affair with this iconic muscle car. Licensed with General Motors, this book showcases never-before-seen archival Chevelle photography to which Motorbooks was given unprecedented access.

Art of the Hot Rod is a feast for the eyes—a gallery of gorgeous hot rods, the best you'll see from the world's top hot rod builders! A hot rod is art on wheels, and this book contains a whole gallery of the best you'll ever see. In this exclusive collector's edition of Art of the Hot Rod you'll find a jaw-dropping array of beautiful hot rod photos, plus special gatefolds, updated text, and exclusive frameable photographic prints. Art of the Hot Rod: Collector's Edition celebrates the uniquely American marriage of mechanical know-how and an inspired sense of style and design. Built from the ground up, pieced together from salvaged or hand-built parts, rebuilt with classic looks and modern technology—these automotive works of art are as powerful on the page as they are on the street. The book profiles top builders such as Pete Chapouris, Roy Brizio, Vern Tardel, Troy Trepianer, and fifteen others and features studio portraits of their most outstanding custom creations. Through the stunning portraiture of master photographer Peter Harholdt, Art of the Hot Rod captures these magnificent vehicles as they've never been seen before. In addition to full-color photography and updated text, this special collector's edition features two gatefolds with new photography and four garage art photo prints.

**Touring Car Racing, a feast of nostalgia, celebrates the 60-year heritage of the British Touring Car Championship. From the era of Mini Coopers and Lotus Cortinas to the Vauxhall Astras and Honda Civics of recent years, all the highlights of Britain’s ever-spectacular touring car scene are captured in a year-by-year visual extravaganza with over 600 photos and expert commentary. Compiled by long-time touring car journalist Matt James, the book has a chapter for each year featuring a summary of the season, 10 photos showing all the top cars and drivers in action, key statistics and a profile of the champion driver. Anyone who has ever enjoyed touring car racing as a participant, spectator or television viewer will treasure this book. The 1950s. The British Saloon Car Championship was inaugurated in 1958 and from the start it was super-competitive, ending in a tie that was resolved by a shoot-out in favour of Jack Sears. The 1960s. There were three Mini champions but mainly this was a Ford era, epitomised by Lotus Cortinas (with Jim Clark ever spectacular) and big Falcons, Galaxies and Mustangs from America. The 1970s. Smaller classes came to the fore in this decade, with three drivers sharing seven titles – Bill McGovern took three in Sunbeam Imps while two apiece went to Bernard Unett (Chrysler Avenger GT) and Richard Longman (Mini 1275GT). The 1980s. Three drivers also bestrode this decade but in a wider range of cars, including Mazda RX-7, Alfa Romeo GTV, Rover Vitesse and Ford Sierra XR4i; Win Percy and Andy Rouse each took three titles, Chris Hodgetts two. The 1990s. Overseas drivers arrived in force to mix it with home-grown stars during the highly competitive Super Touring years, the decade’s champions including Joachim Winkelhock (BMW 318is), Frank Biela (Audi A4 quattro), Alain Menu (Renault Laguna), Rickard Rydell (Volvo S40) and Laurent Aiello (Nissan Primera). The 2000s. Vauxhalls were the star cars, taking six titles, while the decade brought three double champions in the form of James Thompson (Vauxhall Astra), Matt Neal (Honda Integra) and Fabrizio Giovanardi (Vauxhall Vectra VXR). The 2010s. Yet more variety and brilliant racing has characterised the current decade, with Gordon Shedden becoming the winningest driver with three titles in Honda Civics.**

Behold some of America's most brutish performance machines in this stunning 16-month wall calendar. American Muscle Cars 2022 features more than a year's worth of stunning photography depicting beautiful, brawny muscle cars spanning the 1960s to today. With a convenient page that shows the months of September, October, November, and December 2021, followed by individual pages for the months of 2022, this 12" x 12" wall calendar brings you incredible spreads showcasing some of the rarest and most outrageous high-performance cars ever to explode onto the scene. Inside you'll find powerful offerings from the Dodge, Plymouth, AMC, Chevrolet, Pontiac, and Buick brands. Keep yourself on track while enjoying America's fastest, rarest, and most glorious high-performance vehicles.

The Standard Catalog of Chevrolet 1912-2003 delivers everything a Chevy enthusiast or historian needs! You'll find 448 pages packed with more than 2,000 photos, history, production figures, and updated pricing information. The Standard Catalog of Chevrolet 1912-2003 includes:

• Complete year-by-year model listings with history and technical details
• Thousands of photos for easy model identification
• Option lists, engine information, original pricing, and production information This book is a MUST for everyone that loves Chevs!

From growing up in a wooden caravan to building his own state-of-the-art racetrack, this is the remarkable story of Targa champion, Hampton Downs and Highlands Motorsport Park owner Tony Quinn. On a clear and frosty morning in 2012, in the small, Central Otago town of Cromwell, Tony Quinn and his son Klark stood with an iPad at the edge of an expansive basin of scrub and grass sketching the curves, corners and chicanes of an imaginary racetrack. Less than 18 months later, Cromwell was abuzz at the inaugural Highlands 101, with visitors from all over Australasia flocking to Highlands Motorsport Park for the opening of the new 25-million-dollar racing circuit. To some people, building a racetrack in the back-country might have seemed like an impossible dream, but not to Tony Quinn. 'To be successful in life you have to think positive and in motorsport, you'll never win a race unless you're truly convinced that you can,' he says. 'I turn 60 soon and while I've achieved a lot in business and motorsport, I'd like to think there's a lot more to come.' Having grown up in a wooden caravan in Scotland, it's been a heck of a journey for a self-made millionaire and petrolhead who also owns Hampton Downs, Darrell Lea Confectionery and a mega-mansion on the Gold Coast. After selling a failed lawn mowing business called the 'Lawn Ranger' in Western Australia, Tony moved to New Zealand in 1994. As Tony says, 'where there's shite, there's money'. Starting out with a plan to get rid of dead cows in Dargaville, Tony founded a fat-rendering plant called Fatman, which sowed the seeds for a remarkable story of success in the pet food, culminating in selling his business, VIP Petfoods, for over 400 million dollars in 2015.

"The full illustrated history of Chevrolet, from the Series 490 to today's Silverado and Colorado!"-

A kaleidoscopic account of the financial carnage of the pandemic, revealing the fear, grit, and gambles that drove the economy's winners and losers—from a leading Wall Street Journal reporter. Crash Landing takes readers behind the scenes of an unprecedented period of global economic turmoil, letting readers into the inner lives of the men and women trying to survive. It saw it coming, especially after a decade of growth that saw them riding high. Then whispers of a new flu-like illness became a crescendo, and by the end of March 2020 ten million people were out of work, iconic firms were begging for bailouts, and countless small businesses were in freefall. How do you sustain a workforce that can no longer work? How do you recover in a new world? Liz Hoffman pulls back the curtain on the most violent few months in the modern global economy, taking readers inside boardrooms, onto factory floors and into trading pits. Featuring original interviews with the people responsible for the economy, and in charge of making sure it survives. A gripping story of big business and even bigger cut-throat survival. This is a book that inside scoop, and answers the most important question of today: Will this remarkable time give rise to newfound resilience, or become just another costly mistake to be forgotten?

This book tells the fascinating, and sometimes frustrating, story of the journey from the iconic Jaguar E-type to its successor, the F-type. With nearly 300 photographs, it documents the evolution of the F-type from the Pininfarina XJ Spider through Jaguar's own XJ41/42, XX and XK180. It reviews the whole range of F-type convertible and coupe models and discusses special vehicles produced for Team Sky and Bloodhound SSC are included along with a useful chapter on buying an F-type. Finally, the book considers the F-type's future in a changing automotive world.

16-Month Calendar - September 2021 Through December 2022

Harley-Davidson® 202216-Month Calendar September 2021 Through December 2022

Harley-Davidson® 2022 offers 16 months of freedom machines from the world's most legendary motorcycle manufacturer. Produced in cooperation with Harley-Davidson®, this new Motorbooks wall calendar features Harley-Davidson's latest machines. Harley-Davidson® 2022 showcases stunning portraits of line-up favorites like Fat Bob®, Softail®, Sportster®, bespoke CVO™ tourers, and the all-new Pan America™ adventure bike. Harley-Davidson® has reigned as America's top motorcycle manufacturer for more than a century, and each month, Harley-Davidson® 2022 reminds riders and fans why. Renowned engine builder and technical writer David Vizard turns his attention to extracting serious horsepower from small-block Chevy engines while doing it on a budget. Included are details of the desirable factory part numbers, easy do-it-yourself cylinder head modifications, inexpensive but effective aftermarket parts, the best blocks, rotating assembly (cranks, rods, and pistons), camshaft selection, lubrication, induction, ignition, exhaust systems, and more.

From the bijuu corners of Corpus Christi to the wide open laws of Trinity, Oxford's gardens are full of surprises and hidden corners - not least the fellows' or masters' gardens, which are usually kept resolutely private. Take a tour of the stunning gardens of this prestigious British institution without leaving your armchair with this elegant, authoritative analysis full of glorious photographs which reveal their full interest and charm. The garden's history is filled with style, age and size, ranging from the ancient mound in the middle of New College to the fine modernist design which is St Catherine's. The eighteenth-century landscape school is represented in the magnificent acreage of Worcester, while the twentieth-century vogue for rock gardening is reflected at St John's. Founded in 1621, the university's Botanic Garden is the oldest botanic garden in Britain, holds one of the most diverse plant collections in the world, and has been a source of inspiration for writers from Lewis Carroll to Philip Pullman.

100 Years of Building the Future

Featured on the Netflix documentary series Chef's Table "Elemental, fundamental, and delicious" is how Anthony Bourdain describes the trailblazing live-fire cooking of Francis Mallmann. The New York Times called Mallmann's first book, Seven Fires, "captivating" and "inspiring." And now, in Mallmann on Fire, the passionate master of the Argentine grill takes us grilling winter's snow, on mountaintops, on the beach, on the crowded streets of Manhattan, on a deserted island in Patagonia, in Paris, Brooklyn, Bolinas, Brazil—each locale inspiring new discoveries as revealed in 100 recipes for meals both intimate and outsized. We encounter legs of lamb and chicken hung from strings, coal-roasted delicata squash, roasted herbs, a pair of griddled and charred meats, vegetables, and fruits, plus rustic desserts cooked on the chapa and baked in wood-fired ovens. At every stop along the way there is something delicious to eat and a lesson to be learned about slowing down and enjoying the process, not just the result.

This handbook focuses on two sides of the lean production debate that rarely interact. On the one hand, management and industrial engineering scholars have presented a positive view of lean production as the epitome of efficiency and quality. On the other hand, sociology, industrial relations, and labor relations scholars focus on work speedups, management by stress, and Taylorism. This is a book that looks inside the scope, and answers the most important question of today: Will this remarkable time give rise to newfound resilience, or become just another costly mistake to be forgotten? cultural and political contexts of different nation-states. As the first multi-lens view of lean production from academic and consultant perspectives, this volume charts a way forward in the world of work and management in our global economy.

The Great American Icon - Special Launch Price American car companies are continually striving to innovate changes in how we see, operate, and make connections with cars. The classic car market taps into a simpler time and invokes a feeling of nostalgia. Mustangs are undoubtedly among the most popular classic cars—they were a hit right off the production line and rank among the top-selling cars and are recognized as a household name. Ford's first pony car remains one of the longest-running sports car nameplates in the United States, second only to the Chevy Corvette. The Mustang has set records time and again with its sales, building on its reputation as the classic car that made its way to American homes. These milestones and nostalgic standing that draws people to the pony car. The Mustang has left an imprint on the hearts and minds of many Americans, whether it was a memorable first car experience, the project car that brought people together, or memories created while cruising, parking, or doing burn-outs. It appeals to consumers for other reasons too. At its inception, the Mustang's performance and speed to the average American. While suburbia was enjoying upward mobility, car lovers were introduced to an affordable sports car that was also easy to work on. Those defining characteristics—accessible, fast, and affordable—continue to shape Ford's marketing strategy to this day. The Mustang's performance is wrapped up in the ideals of American appealing and performance-enhancing trim options from the factory, plus an endless supply of after-market parts, ensure that you can modify and customize to your heart's content. Whether it's the performance you are after, sentiment, or just an affordable sports car, the Ford Mustang surely fits the bill. The array of Mustangs produced in its lifetime via creative promotions, fan-club upgrades, and even Ford's own special projects are too numerous to detail in a single publication. Anyone, from the most fervent enthusiasts to Camaro owners can appreciate this fun collection of Mustang morsels. Or if your intent is to impress your next date or occupy time on the porcelain throne, we hope you enjoy this trivia book! Click "Buy Now" only the most dire emergency could send paleontologist Regan McKinney racing across the West in search of a man. But her grandfather has mysteriously vanished, and Quinn Younger could be the missing link. What the bad-boy-turned-American hero is doing in the deserted tumbleweed town of Cisco, Utah, is an even bigger mystery...until danger trails Regan right into the force pits and she's her sole hope of survival... Quinn figures things can't get worse than being stuck in tiny Cisco on an impossible special-ops mission. Then the dinosaur doc's granddaughter roars into town with bad guys on her tail. Once, Quinn was on the fast track to a life of crime...until Regan's grandfather rescued him. Now Quinn wants it to end both ways.

A deadly terrorist and some hot dinosaur bones, and a man could get himself killed. Because facing down danger with this revved-up lady is one endless adrenaline-rush of pleasure—especially when they're falling crazy in love... and hanging on for dear life.... From the Paperback edition.

Camaro

The Story of Camaro

Carolina Chaos

Touring Car Racing

In 1969, the Camaro with the SS package took Chevy Camaro performance and styling to another level. First, the Camaro carried updated sheet metal for an aggressive and eye-catching appearance, and the ultra-high-performance 427 big-block engines were available for the first time. As history proved, 1969 was the pinnacle of performance and styling for the first-generation Chevy Camaro. Author and muscle car expert Robert Kimbrough provides a comprehensive examination of the all-time classic 1969 Camaro SS in Volume No. 4 of CarTech's In Detail series. He delves into the design, manufacturing, and equipment of Chevrolet's premier pony car. For the first time in its history, the 1969 Camaro SS had a full slate of high-performance small-blocks as well as big-blocks to conquer the competition on the street and track. The engine line included the 350, 375-hp 396, and 425-hp COPO 427 Camaros. The Camaro SS made such an impression, that it became the Indy 500 Pace Car once again in 1969. All In Detail Series books include an introduction and historical overview, an explanation of the design and concepts involved in creating the car, a look at marketing and promotion, and an in-depth study of all hardware and available options, as well as an examination of where the car is on the market today. Also included is an appendix of paint and option codes, VIN and build-tag decoders, as well as production numbers.

A field manual to the technologies that are transforming our lives Everywhere we turn, a startling new device promises to transfigure our lives. But at what cost? In this urgent and revelatory excavation of our Information Age, leading technology thinker Adam Greenfield forces us to reconsider our relationship with the networked objects, services and spaces that define us. It is time to re-evaluate the Silicon Valley consensus determining the future. We already depend on the smartphone to navigate every aspect of our existence. We're told that innovations—from augmented-reality interfaces and virtual assistants to autonomous delivery drones and self-driving cars—will make life easier, more convenient and more productive. 3D printing promises unprecedented control over the form and distribution of matter, while the blockchain stands to revolutionize everything from the recording and exchange of value to the way we organize the mundane realities of the day to day. And, all the while, fiendishly complex algorithms are operating quietly in the background, reshaping the economy, transforming the fundamental terms of our politics and even redefining what it means to be human. Having successfully colonized everyday life, these radical technologies are now conditioning the choices available to us in the years to come. How do they work? What challenges do they present to us, as individuals and societies? Who benefits from their adoption? In answering these questions, Greenfield's timely guide clarifies the scale and nature of the crisis we now confront —and offers ways to reclaim our stake in the future.

An accessibly priced, revised edition of an extensively illustrated, officially licensed guide to the first six generations of Corvette models shares in-depth coverage of each prototype and experimental model as well as the anniversary and pace cars and specialty packages for street and competition driving. Original.

The OECD Programme for International Student Assessment (PISA) examines what students know in reading, mathematics and science, and what they can do with what they know. his is one of six volumes that present the results of the PISA 2018 survey, the seventh round of the triennial assessment. Volume V, Effective Policies, Successful Schools, analyses schools and school systems and their relationship with education outcomes more generally.

The calendar is curated by long-time fire buff and photographer Larry Shapiro, your guide to the hero-making world of firefighting.

Camaro: Fifty Years of Chevy Performance chronicles the first fifty years of Chevrolet's iconic Camaro through fascinating photography, history, and commentary about this legendary pony car. The early 1960s saw American auto manufacturers desperately trying to sell cars to the emerging baby-boom market. Chevrolet attained some success with its sporty Corvair Monza. Ford responded first with a sportier Falcon, then with its grand-slam, home-run pony car, the Mustang. At first, Chevrolet hesitated to abandon the technologically advanced Corvair, but when it finally entered the pony car market in 1967, its new Camaro instantly became one of the most iconic cars of the classic muscle-car era. When muscle cars went dormant for a generation, it was once again the classic pony cars that jump-started American performance. The battle that raged between Camaro and Mustang in the 1980s rejuvenated the US auto industry's interest in high-performance muscle cars. The Camaro lost its way in the 1990s, with Chevrolet pursuing technological advances and Ford pursuing classic American muscle. As was the case in the 1960s, Ford's muscular pony car trounced Chevrolet's technologically advanced sporty car in the race that mattered most: showroom sales. The Mustang revived while the Camaro left the scene. Fortunately, that departure was only temporary. Chevrolet introduced a twenty-first-century Camaro in 2010, and it has become one of Chevrolet's most popular models. With stunning photography from author Mike Mater and never-before-seen archival photography from partner General Motors, Camaro: Fifty Years of Chevy Performance chronicles the Camaro's rich history, from the early attempts to reach the youth market in the 1960s, through the potent and turbulent years of the classic muscle-car era, the resurgence of muscle in the 1980s, the sad decline of the 1990s, and the triumphant rebirth of the new car in this millennium.

They say 52 Blocks was forged in the Penal system, and perfected on the streets. This form of street combat has been practiced and proven on the streets, and used in the professional level of mixed martial arts and boxing. Explore the world of 52 Blocks, but with a twist of Carolina Chaos.

**The Emily Post Institute, the most trusted brand in etiquette, tackles the latest issues regarding how we interact along with classic etiquette and manners advice in this updated and gorgeously packaged edition. Today's world is in a state of constant change. But one thing remains year after year: the necessity for good etiquette. This 19th edition of Emily Post's Etiquette offers insight and wisdom on a variety of new topics and fresh advice on classic conundrums, including: Social media Living with neighbors Networking and job seeking Office issues Sports and recreation Entertaining at home and celebrations Weddings Invitations Loss, grieving, and condolences Table manners While they offer useful information on the practical—from table settings and introductions to thank-you notes and condolences—the Posts make it clear why good etiquette matters. Etiquette is a sensitive awareness of the feelings of others, they remind us. Ultimately, being considerate, respectful, and honest is what's really important in building positive relationships. "Please" and "thank you" do go a long way, and whether it's a handshake, a hug, or a friend request, it's the underlying sincerity and good intentions behind any action that matter most.**

**A book for the true car enthusiast. With upbeat rhymes and colorful illustrations, this book is as entertaining as it is informative. A book that will inspire and encourage a curiosity for cars in both children and adults. A fun way for the car enthusiast to share his or her love of cars.**

For over fifty years, the Chevy Camaro has defined American performance. The Complete Book of Chevrolet Camaro, 2nd Edition continues the story of America's premier performance car. In 2016, the sixth-generation Camaro rolled off production lines and roared onto America's highways, earning accolades from all over the performance spectrum. Renowned automotive photographer and historian David Newhardt is here to tell the Camaro's story. This is a Camaro book like no other. The Complete Book of Chevrolet Camaro, 2nd Edition covers the entire production history of Chevrolet's iconic muscle car, from the original concept car (codenamed Panther) to the latest and greatest sixth-generation vehicle. The Complete Book of Chevrolet Camaro showcases every model of Camaro since 1967 in stunning detail, using original and GM archival photography as well as insider interviews and technical specifications. This lavishly illustrated book details all six generations of the Camaro's production run. The original model was developed to fight the Mustang in the muscle car wars of the late 1960s; the second-gen cars became icons of American automotive styling in the 1970s; the third-gen cars helped lead a muscle car renaissance in the 1980s; the refined fourth-gen cars continued to demonstrate GM's prowess and engineering know-how through 2002; the fifth-gen Camaro brought back the iconic nameplate in 2010; and now the latest generation has debuted to rave reviews in 2016. This book also features all the production vehicles, prototypes, show cars, anniversary editions, pace cars, and more from the vibrant Camaro culture. If it's Camaro, it's here.

The history of Chrysler Corporation is, in many ways, a history of a company floundering from one financial crisis to the next. While that has given shareholders fits for nearly a century, it has also motivated the Pentastar company to create some of the most outrageous, and collectible, cars ever built in the United States. From the moment Chrysler unleashed the Firepower hemi V-8 engine on the world for the 1951 model year, they had been cranking out the most powerful engines on the market. Because the company pioneered the use of lightweight unibody technology, it had the stiffest, lightest bodies in which to put those most powerful engines, and that is the basic muscle-car formula: add one powerful engine to one light car. When the muscle car era exploded onto the scene, Chrysler unleashed the mighty Mopar muscle cars, the Dodges and Plymouths that defined the era. Fabled nameplates like Charger, Road Runner, Super Bee, 'Cuda, and Challenger defined the era and rank among the most valuable collector cars ever produced by an American automaker. Featuring cars from the incomparable Brothers' Collection, The Art of Mopar: Chrysler, Dodge, and Plymouth Muscle Cars celebrates these cars in studio portraits using the light-painting process perfected by Tom Loeser. It is the ultimate portrayal of the ultimate muscle cars.

We spend our lives gathering - first in classrooms and then in meetings, weddings, conferences and away days. Yet so many of us spend this time in underwhelming moments that fail to engage us, inspire us, or connect us. We've all sat in meetings where people talk past each other or go through the motions and others which galvanize a team and remind everyone why they first took the job. We've been to weddings that were deeply moving and others that were run-of-the-mill and simply faded away. Why do some moments take off and others fizzle? What's the difference between the gatherings that inspire you and the ones that don't? In The Art of Gathering, Priya Parker gets to the heart of these questions and reveals how to design a transformative gathering. An expert on organizing successful gatherings whether in conference centres or her living room, Parker shows us how to create moving, magical, mind-changing experiences - even in spaces where we've come to expect little.

Water is a finite and non-substitutable resource. As the foundation of life, societies and economies, it carries multiple values and benefits. But unlike most other natural resources, it has proven extremely difficult to determine its true 'value'. The 2021 edition of the United Nations World Water Development Report, titled "Valuing Water" assesses the current status of and challenges to the valuation of water across different sectors and perspectives and identifies ways in which valuation can be promoted as a tool to help improve its management and achieve global sustainable development.

The Art of the Formula 1 Race Car 2022 presents thirteen of the most exciting F1 race cars from seventy-plus years of competition, captured in the studio portraits of master automotive photographer James Mann. The photographs in this sixteen-month calendar showcase greats from Ferrari, McLaren, Williams, Lotus, Brabham, and Mercedes, portraying not just the vehicles' engineering and technological brilliance but also their inherent beauty—the captivating result of Formula 1's mix of competition, creativity, and technical ingenuity that makes

these racers works of mechanical art. With a convenient page that shows the months of September, October, November, and December 2021, followed by individual pages for the months of 2022, keep yourself on track throughout the year while enjoying Formula 1's most captivating and successful race cars from the 1950s to today.

Readers of J. T. Ellison and Tess Gerritsen will be enthralled by *Do No Harm*, by real-life small-town doctor and national bestselling author Dawn Eastman. Small-town doctor Katie LeClair is drawn back into an old murder investigation, a mysterious disappearance, and a dark undercurrent of violence. The idyllic town of Baxter, Michigan, seemed like the perfect place for Dr. Katie LeClair to settle down after years toiling in medical school—until the murder of a patient shattered the peace she had found. Now on the mend and balancing the responsibilities of a new house and the joys of a new romance, Katie is finally ready to start enjoying life. But danger arrives just as the town is gearing up for its annual Halloween festival—and once again, this doctor-turned-sleuth will have to unmask a killer in their midst. Trouble comes in threes this Halloween. Katie sees a new patient who has just been released from prison for a murder he says he didn't commit. Inexplicably, the patient suddenly goes missing. And matters take an even more sinister turn when a college student who had been investigating Katie's old murder case is found dead in the woods near Baxter. Could Katie's involvement with the case be responsible for the student's violent death? Is her new patient truly a cold-blooded murderer? Is this Halloween about to become a real-life horror show? Katie embarks on a desperate race to find the truth in *Do No Harm*, the second gripping Dr. Katie LeClair mystery.
