We'll be wishing you all a Happy New Year of 2020. This New Year's weekend is often marked by works, march and reflection upon the last year while looking ahead to the future's possibilities. Everybody celebrate New Year's in the company of loved ones, including traditions meant to bring luck and shining in the upcoming Year.

A journey through the otherworldly science behind Christopher Nolan's award-winning film, Interstellar, from executive producer and Nobel Prize-winning physicist Kip Thorne. Interstellar, from acclaimed filmmaker Christopher Nolan, takes us on a fantastic voyage far beyond our solar system. Yet in The Science of Interstellar, Kip Thorne, the Nobel prize-winning physicist who assisted Nolan on the scientific aspects of Interstellar, shows us that the movie's jaw-dropping events and stunning, never-before-attempted visuals are grounded in real science. Thorne shares his experiences working as the science adviser on the film and then moves on to the science itself. In chapters on wormholes, black holes, interstellar travel, and much more, Thorne's scientific insights—many of them triggered during the actual scripting and shooting of Interstellar—describe the physical laws that govern our universe and the truly astounding phenomena that those laws make possible. Interstellar and all related characters and elements are trademarks of and © Warner Bros. Entertainment Inc. (s14).

In 1994, twenty-year-old Gunjan Saxena boards a train to Mysore to appear for the selection process of the fourth Short Service Commission (for women) pilot course. Seventy-four weeks of back-breaking training later, she passes out of the Air Force Academy in Dundigal as Pilot Officer Gunjan Saxena. On 3 May 1999, local shepherds report a Pakistani intrusion in Kargil. By mid-May, thousands of Indian troops are engaged in fierce mountain warfare with the aim to flush out the intruders. The Indian Air Force launches Operation Safed Sagar, with all its pilots at its disposal. While female pilots are yet to be employed in a war zone, they are called in for medical evacuation, dropping of supplies and reconnaissance. This is the time for Saxena to prove her mettle. From airdropping vital supplies to Indian troops in the Dras and Batalik regions and casualty evacuation from the midst of the ongoing battle, to meticulously informing her seniors of enemy positions and even narrowly escaping a Pakistani rocket missile during one of her sorties, Saxena fearlessly discharges her duties, earning herself the moniker 'The Kargil Girl'. This is her inspiring story, in her words.

This novelization of the hilarious monster comedy includes an eight-page insert of full-color images from the film! Sony Pictures Animation's Hotel Transylvania 3—starring Adam Sandler and Selena Gomez—hits theaters July 13, 2018!
