E' comodo definirsi scrittori da parte di chi non ha arte né parte. I letterati, che non siano poeti, cioè scrittori stringati, si dividono in narratori e saggisti. E' facile scrivere "C'era una volta..." e parlare di cazzate con nomi di fantasia. In questo modo il successo è assicurato e non hai rompiballe che si sentono diffamati e che ti querelano e che, spesso, sono gli stessi che ti condannano. Meno facile è essere saggisti e scrivere "C'è adesso..." e parlare di cose reali con nomi e cognomi. Impossibile poi è essere saggisti e scrivere delle malefatte dei magistrati e del Potere in generale, che per logica ti perseguitano per farti cessare di scrivere. Devastante è farlo senza essere di sinistra. Quando si parla di veri scrittori ci si

ricordi di Dante Alighieri e della fine
che fece il primo saggista mondiale. Le
vittime, vere o presunte, di soprusi,
parlano solo di loro, inascoltati,
pretendendo aiuto. Io da vittima non
racconto di me e delle mie traversie.
Ascoltato e seguito, parlo degli altri,
vittime o carnefici, che l'aiuto
cercato non lo concederanno mai. "Chi
non conosce la verità è uno sciocco, ma
chi, conoscendola, la chiama bugia, è
un delinquente". Aforisma di Bertolt
Brecht. Bene. Tante verità soggettive e
tante omertà son tasselli che la mente
corrompono. Io le cerco, le filtro e
nei miei libri compongo il puzzle,
svelando l'immagine che dimostra la
verità oggettiva censurata da interessi
economici ed ideologie vetuste e
criminali. Rappresentare con verità
storica, anche scomoda ai potenti di
turno, la realtà contemporanea,
rapportandola al passato e
proiettandola al futuro. Per non
reiterare vecchi errori. Perché la
massa dimentica o non conosce. Denuncio
i difetti e caldeggio i pregi italici.
Perché non abbiamo orgoglio e dignità
per migliorarci e perché non sappiamo

apprezzare, tutelare e promuovere
quello che abbiamo ereditato dai nostri
avi. Insomma, siamo bravi a farci del
male e qualcuno deve pur essere
diverso!

Labics is a rising Rome-based architectural firm that has gained great international acclaim in recent years for both its projects and its submissions to major competitions. Its guiding principle is the idea of "structure." Each of the firm's projects--which range from housing and office buildings to museums, cultural centers,

schools, subway stations, and public spaces--is intended to exemplify the importance of the respective type of structure.

Labics--Structures is the first book on Labics's remarkable and rapidly growing body of work. The book is arranged in four chapters that explore the idea of structure in different contexts: "Geometric," "Bearing," "Circulation," and "Public Space Structures." Alongside topical essays, it features twenty projects selected by the firm's founding directors, Maria Claudia Clemente and Francesco Isidori, to represent the diversity of the firm's work, as well as its wide geographic reach--with buildings in Italy, Finland, Switzerland, England, Bosnia and Herzegovina, Saudi Arabia, and Iran. Each project is documented with atmospheric photographs and a wealth of plans and diagrams to illustrate concepts and details.

This publication outlines the performance of the Asian Development Bank (ADB) in achieving the goals of Strategy 2030, the institution's long-term strategic framework. It is the 13th in a series of annual reports that tracks development progress in Asia and the Pacific, assesses ADB's development effectiveness over the years, and identifies areas where the institution's performance needs to be further strengthened.

The book analyzes the intertwining of aesthetics and ethics in experiences characterized by a break of representational capabilities, such as encounters with nature and art. It also notes that the prerequisite for such an experience concerns expectations and authenticity, and the aftermath engenders wonderment and sublimity, as a common root to aesthetic and ethics. Various philosophical positions and interpretation and contextualization of material is achieved via sections with art examples.

The Asset Protection Scheme

Shaping Markets when Customers Make the Rules

Mondo Agnelli

This book takes stock of the past two decades of public sector modernisation in OECD countries. It assesses failures and successes and identifies challenges ahead. It includes comparable data and tables comparing systems across countries.

The Treasury's Asset Protection Scheme

to protect over £280 billion of Royal Bank of Scotland's financial assets against losses has, so far, only been partially successful in encouraging lending to creditworthy borrowers on the scale originally envisaged. The Scheme, launched in early 2009, initially involved two banks. RBS eventually put £282 billion of assets into the Scheme, while Lloyds Banking Group paid £2.5 billion to exit the Scheme in November 2009 and instead raised additional capital from shareholders. The principal elements of the Scheme, particularly the first loss, were based on a robust assessment of incentives and on as complete information on the underlying assets as were available at the time. As part of the Scheme, Lloyds and RBS agreed lending targets. While both banks met targets for mortgage lending, there was a shortfall of £30 billion against targets for lending to business. Value for money in the longer term will depend heavily on incentives built into the Scheme to encourage good management of assets. Establishing a requirement for RBS to bear the first £60 billion of losses (a 'first loss') was crucial in providing the right

incentive for the bank to manage its assets effectively. However, if the first loss is exceeded, RBS will have less financial incentive to avoid further losses although the bank considers it will still have a legal and moral obligation to manage the assets as best it can. The position of taxpayers would be particularly vulnerable if losses were to exceed about £73 billion

You have to laugh. It is a tragedy in three movements: The Thighs, The Dick, The Fame and a counter-movement: Italy. An actress creates a physical and vocal mask challenging a provocative, scandalous and beastly text. Words might be sung, howled and shrieked but a chant never emerges. In her naked physicality she tells a personal story in an unbroken flow of thoughts/words rendered as sounds and movement. The deafening screams being choked. Appeased. Imploded. This female onstage offers herself up in a feast, ready to be torn apart by anyone. A poetic piece born of the flesh that returns to the flesh, captured in a tightly-sealed aesthetic. Applause required. The Shit is driven by a desperate attempt to pull ourselves out of the mud, the latest

products of the cultural genocide aptly described by Pasolini since the modern consumer society began taking form. A totalitarianism, according to Pasolini, even more repressive than the one of the Fascist era, because it's capable of crushing us softly. Si deve ridere. E' una tragedia in tre tempi: Le Cosce, Il Cazzo, La Fama e un controtempo: L'Italia. Nella sua nudità e intimità pubblica, l'attrice costruisce una maschera fisica/vocale sfidando un testo scandaloso, provocatorio e rabbioso. La scrittura è cantabile, ma il canto non emerge mai, ed è invece preponderante la chiave dell'invettiva, del grido, del corpo che sussulta la sua storia personale in un flusso di pensieri/parole raccontati come suoni. Strazianti. Urla assordanti e contratte. Sopite. Implose. La femmina si offre dal vivo come in un banchetto, pronta a venire sbranata da tutti. Una partitura poetica che nasce così dalla carne e alla carne ritorna, pur dentro a una rigidissima confezione estetica. Applausi obbligatori. La Merda ha come spinta propulsiva il disperato tentativo di districarsi da un pantano o fango, ultimi prodotti di quel genocidio culturale di

cui scrisse e parlò Pier Paolo Pasolini all'affacciarsi della società dei consumi. Quel totalitarismo, secondo Pasolini, ancor più duro di quello fascista poiché capace di annientarci con dolcezza. Since its world premiere in Milan in 2012, #LaMerda, written by Cristian Ceresoli and embodied by Silvia Gallerano, has brought its poetic and shocking stream of consciousness on the human condition around the world with sell-out seasons in Edinburgh, London, Berlin, Copenhagen, Adelaide and across Italy (where a subtle censorship is still applied), winning six major international awards including the coveted Scotsman Fringe First Award for Writing Excellence and The Stage Award for Best Performance. The play has already been translated and produced in Italian, English, Brazilian Portuguese, Danish, Spanish and Czech, and will shortly be translated into German and French.

This textbook provides an overview of the functioning of international law, rather than the full knowledge of the immense developments of international law of the last decades, concerning the regulation of its subjects, sources, state responsibility, the means of dispute settlement and the ever increasingly problematic relation to domestic jurisdictions and the numerous branches of substantive international law, such as the law of the sea, environmental law, human rights law, investment and trade law, international criminal law, and jurisdictional immunities, amongst others. The extremely concise book is aimed to provide an incentive for the students at first degree level to study the subject, while purporting to complement the specific syllabus, which may be chosen by the teacher of the PIL module. The basic

character of the narrative is also meant to embolden domestic attorneys to realise how intertwined with international law are rules and institutions they interpret and apply on a daily basis, and how many more arguments they could plead before a domestic court if they were aware of this.

The fascinating story of a century-old automobile dynasty Fiat is one of the world's largest automakers, but when it made headlines by grabbing control of a bankrupt Chrysler in 2009 it was unknown in the U.S. Fiat's against-all-odds swoop on Chrysler---masterminded by Sergio Marchionne, the Houdini-like manager who saved Fiat from its own near-collapse in 2005 -- has made the automaker one of the most unlikely winners of the financial crisis. Mondo Agnelli is a new book that looks at the chain of unpredictable events triggered by the death of Gianni Agnelli in 2003. Gianni, the charismatic, silver-haired power broker and style icon, was the patriarch who had lead the company founded by his grandfather in 1899. But Gianni's own son had committed suicide. Without a mature heir, the dynasty and Fiat were

rudderless. Backed by Gianni's closest advisors, his serious, shy, and determined grandson John plucked Marchionne from obscurity. Together, they saved the family company and, inadvertently, positioned Fiat as a global trailblazer when the global storm hit. A classic story of ingenuity and hard work, the book portrays a business dynasty that triumphed over adversity and family tragedy because of its own smarts, sweat, and ability to bend the rules. An engaging tale for those interested in the stories behind the economic crash, the book contains never-before reported material about how Fiat succeeded in making Chrysler profitable where both Daimler AG and Cerberus, its previous owners, had failed. A story for a wide audience, from car buffs, business readers, lovers of Italy, and anyone fascinated by the lifestyle of Europe's most glamorous industrial dynasty, this book tells the tale of how Fiat achieved the seemingly impossible -- turning around an American automotive icon everyone else had given up for dead. In this excellent and clearly-written introduction to ethical thinking, Spaemann provides a stimulating discussion of the fundamental concepts we use every day when we deliberate, alone or with others, about the moral aspects of our action.

Are you interested in smarter working? Do you or your workforce carry out tasks away from the office - and do you have the managerial and technical know-how to get the best from them? In *The Smarter Working Manifesto*, Philip Vanhoutte and Guy Clapperton talk to the experts, the practitioners, the managers, the academics, and recommend best practices for making more money out of

a happier workforce. People can be in charge of their own workplace, they can work to their own timetable and their company can benefit. Read this book to find out: Why we work where we do - and why it's changing How to evaluate and improve your workplace How to get the most out of a remote workforce How to build a virtual team How to make your organization more profitable and smarter The authors have drawn on experience internationally to create the definitive work on how to build the best workplace, both on and off your premises, for the 21st century. www.smarterworkingmanifesto.com

In line with the resurgence of interest in the history of archaeology manifested over the past decade, this volume aims to highlight state-of-the art research across several topics and areas, and to stimulate new approaches and studies in the field. With their shared historiographical commitment, the authors, leading scholars and emerging researchers, draw from a wide range of case studies to address major themes such as historical sources and methods; questions of archaeological practices and the practical aspects of

knowledge production; 'visualizing archaeology' and the multiple roles of iconography and imagery; and 'questions of identity' at local, national and international levels.

From international bestselling author Cristina Caboni comes an exquisite and engrossing novel of two women, centuries apart, bound by a love of books and a longing for self-discovery. With her delicate touch, Sofia Bauer restores books to their original splendor. In this art she finds refuge from her crumbling marriage and the feeling that her once-vibrant life is slipping away. Then an antique German edition takes her breath away. Slipped covertly into the endpapers is an intriguing missive, the first part of a secret...from one bookbinder to another. Two hundred years ago, Clarice von Harmel defied the constraints of family and society to engage in a profession forbidden to women. Within three separate volumes, Clarice bound her own hidden story filled with pain, longing, and love beyond all reason. A confession that now crosses centuries to touch the heart of a stranger. With the help of book collector Tomaso Leoni, Sofia connects the threads of Clarice's past, page by page, line by line, town by town. She's determined to make Clarice's voice heard. With each new revelation, Clarice is giving Sofia the courage to find her own voice and hope for the future she thought was lost.

'An unforgettable novel.' - Washington Post At the turn of the twentieth century, as the oppression of Russia's imperial rule takes its toll on Finland, the three Koski siblings - Ilmari, Matti and the politicized young Aino - are forced to flee. They settle among a community of Finns in Deep River - a town on the western edges of the United States. The brothers face the excitement and danger of pioneering this frontier wilderness. But while they are climbing and felling trees one-hundred metres high, Aino is organizing the country's fledgling labour movements. As the Koskis strive to rebuild lives and families in an America in flux, they also try to hold fast to the traditions of a home they can never return to. And so the seasons change, the decades pass and the denizens of Deep River slip in and out of love; they become engineers and fishermen, midwives and widows, soldiers and fugitives. In this profoundly moving epic Karl Marlantes masterfully depicts the tyranny
