What universities teach, and the readings they assign for these subjects.

Entrepreneurship, Small Business and Public PolicyEvolution and revolutionRoutledge

Using institutional economics as a theoretical framework, this book analyzes institutional environment conducive to entrepreneurial activity in order to enhance economic performance across countries. In particular, the main contributions of this book to the entrepreneurship literature are the following: • Identify past and current research about the institutional context shaping entrepreneurial activity and its effect on economic growth • Examine social progress orientation as those institutional factors that are shaping innovative entrepreneurial activity • Explore the effect of different types of entrepreneurial activities on economic growth • Examine how social progress orientation through opportunity-driven entrepreneurship affects economic development • Analyze the interrelationships between institutions, entrepreneurial activity and economic development across countries • Study how the country's institutional context influences the way in which entrepreneurial activity affects social progress Two sides of the same coin might be observed when analyzing policy aspects of those institutions affecting entrepreneurial activity. On the one hand, effective public policy to promote entrepreneurship is predicated on understanding the underlying forces as well as the consequences and impacts of entrepreneurship. On the other hand, different endeavors to promote entrepreneurial activity might have deleterious economic effects since they could actually reduce employment in the long-term. Thus, it is crucial to understand the institutional environment in which entrepreneurs are interacting and making decisions. The comprehension of these phenomena serves to move forward the theoretical, practical and policy debate on entrepreneurship as a mechanism to achieve higher economic performance.

Entrepreneurship, Small Business and Public Policy

Entrepreneurial Finance

Entrepreneurship

Local Economic and Employment Development (LEED) Entrepreneurship and Higher Education

This insightful Handbook focuses on behaviour, performance and relationships in small and entrepreneurial firms.

Published in 1998. This text is designed as not only a summary of a number of years of reflections by many different researchers, but also a guide for future research and for continuing development of a theory of small business and its environment; a theory that will apply to small businesses everywhere and that will help them become what they hope to be in the 21st century.

The Routledge Handbook of Entrepreneurship in Developing Economies is a landmark volume that offers a uniquely comprehensive overview of entrepreneurship in developing countries. Addressing the multi-faceted nature of entrepreneurship, chapters explore a vast range of subject areas including education, economic policy, gender and the prevalence and nature of informal sector entrepreneurship. In order to understand the process of new venture creation in developing economies, what it means to be engaged in entrepreneurship in a developing world context must be addressed. This handbook does so by exploring the difficulties, risks and rewards associated with being an entrepreneur, and evaluates the impacts of the environment, relationships, performance and policy dynamics on small and entrepreneurial firms in developing economies. The handbook brings together a unique collection of over forty international researchers who are all actively engaged in studying entrepreneurship in a developing world context. The chapters offer concise but detailed perspectives and explanations on key aspects of the subject across a diverse array of developing economies, spanning Africa, Asia, Latin America and Eastern Europe. In doing so, the chapters highlight the heterogeneity of entrepreneurship in developed economies, and contribute to the on-going policy discourses for managing and promoting entrepreneurial growth in the developing world. The book will be of great interest to scholars, students and policymakers in the areas of development economics, business and management, public policy and development studies.

The emergence of an enterprise culture and entrepreneurial economy has led to the rapid development of theories, policies and practices in the field of entrepreneurship. Understanding Enterprise provides a critical introduction to enterprise in its broadest context, particularly its application to business through entrepreneurship and small business. The book is divided into three distinct parts, which examine traditional approaches to entrepreneurship, new perspectives on the subject, and the success or otherwise of government policy. Key features: - Extensively revised to take into account the latest thinking and research - Reassessment of traditional views and a critique of conventional wisdom - Updated coverage of the impact and failings of comparative government policies - A good balance between theoretical and practical perspectives Understanding Enterprise is an essential companion for undergraduate and postgraduate students of entrepreneurship. Policy makers and practitioners will also benefit from this comprehensive guide.

Starting and Operating A Small Business

The SAGE Handbook of Small Business and Entrepreneurship

Understanding Enterprise

Institutions, Entrepreneurship, and Economic Performance

Routledge Handbook of Entrepreneurship in Developing Economies

The second edition of this popular text has been thoroughly updated to reflect contemporary developments in small business and entrepreneurship and its applications to Australasian organisations. Entrepreneurship and small business management are two very close and often overlapping disciplines. If entrepreneurship specifically refers to the dynamic process of creating a new business venture, small business management generally addresses various issues in organising and operating a small business. In practice however, a large part of the textbooks contents from both disciplines tend to cover similar issues such as small business start-up (starting from scratch, buying an existing business or operating a franchise), developing a business plan, selecting a legal form of organisation, marketing research and organising and financing the new venture. Features New! Four end-of-book cases profiling Australasian entrepreneurs. Each case represents a different region covering Australia, New Zealand, Malaysia and Singapore. The companies profiled are within industries of interest to students including branded fitness programs, automatic video production and specialist healthcare. Each case is accompanied by comprehensive teaching notes. New! Accompanying local video cases and activities for instructors. The videos are closely tied to each end-of-book case, providing visual support to assist students' understanding. Comprehensive text website including Instructor's Resource Guide and Power Point slides The geographic markets for the book are both Australasia (Australia and New Zealand) and South East Asia (Indonesia, Hong Kong, Malaysia and Singapore). As an increasing amount of goods, capital and people move between these two regions, this text will provide the reader with a better regional understanding of this environment. The 'What would you do?' feature presents a scenario in which an entrepreneur/small business manager needs to respond to a problem or situation. The 'Entrepreneur profile' in every chapter profiles Australian, New Zealand and Asia-Pacific entrepreneurs and small business leaders. The end-of-chapter case study profiles an entrepreneurial approach and/or small business management issue in the Pacific Rim.

Small businesses are the backbone of the tourism and hospitality industry and, depending on which statistics one uses, represent somewhere between 75 to 95 percent of all firms globally in this sector. The number of entrepreneurs has dramatically and uniformly increased globally over the last ten years. Divided into four sections, Entrepreneurship and Small Business Management in the Hospitality Industry takes an intuitive step-bystep progression through each stage of the entrepreneurial process: context, theoretical perspectives and definitions; Concept to reality; The business plan; Growth and the future. Ideal for students at any level, the chapters of this book invite you to ponder upon your reading through a series of 'reflective practice' activities. These, along with case studies, clearly defined chapter objectives, reflections, role-play activities and experiential exercises, allow you to both think actively about themes, concepts and issues and then apply them to a number of suggested scenarios. Perfect preparation for the up-and-coming entrepreneur!

Fundamentals of Financial Planning and Management for Small Business

Orientation, Environment and Strategy

Entrepreneurial Small Business (ESB) provides students with a clear vision of small business as it really is today: Katz focuses on the distinctive nature of small businesses that students might actually start versus high growth firms. The goal of the companies described in this textbook is personal independence with financial security; not market dominance with extreme wealth. Traditional beliefs and models in small business are discussed, as well as the latest findings and best practices from academic and consulting arenas. Katz and Green recognize the distinction between entrepreneurs who aim to start the successor to Amazon.com or the pizza place around the corner. They discuss the challenges facing entrepreneurs, while keeping focused on the small businesses students plan to start.

"Strategies for success, developing creativity, encouraging innovation, drawing up a business plan, sourcing finance, entrepreneurial leadership"--Cover.

Public policy interventions aimed at encouraging, supporting and developing small businesses are important for understanding entrepreneurship and small business management. This textbook is the first to provide teachers and students with a resource that gives an overview of how institutional and policy structures interact with small firm start-ups, continuation and succession/failures. Beginning with a brief introduction to policy processes, the text covers the main policy instruments for entrepreneurial market entry and start-up support, for on-going small business advice and financial support, and succession planning. It particularly focuses on policies that improve the Business Enabling Environment through macroeconomic policy, institutional reform, and deregulation of bureaucratic burdens. Theoretical rigour is complemented by detailed assessments of current policies around the world, including USA, advanced and emerging economies and Policy support from global institutions such as the World Bank and the ILO are included. Written by a pre-eminent scholar of public policy and entrepreneurship, this textbook provides a concise but thorough introduction to the subject for Master's students internationally. Policy recommendations in the author's conclusion also highlight the book's value to policy-makers as they adapt to the globalized, digital world.

This book examines the role that higher education institutions are currently playing through teaching entrepreneurship and transferring knowledge and innovation to enterprises and discusses how they should develop this role in the future.

Entrepreneurial Finance, Fourth Edition: Finance and Business Strategies for the Serious Entrepreneur

This timely and incisive Handbook provides critical contemporary insights into the theory and practice of entrepreneurship and marketing in the twenty-first century. Bringing together rich and varied contributions from prominent international researchers, it offers a reflective synthesis of scholarship at the interface between marketing and entrepreneurship.

The new edition of this market-leading textbook provides a holistic introduction to the academic study of entrepreneurship and offers practical guidance for prospective entrepreneurs. Adopting a life-cycle view of a business from start-up to maturity, it explores the many stages and forms of entrepreneurship. With an international outlook and expert synthesis of both theoretical foundations and lessons from real-life business practice, the book offers a complete course guide, fostering entrepreneurial talent, thinking and skills. The author's engaging style and unrivalled expertise drawn from a long-ranging career (as an academic, accountant and entrepreneur) make the book accessible and authoritative. This is an ideal textbook for those studying Entrepreneurship or Small Business on undergraduate Business or Management degree courses, as well as on MBA programmes. It will also appeal to those looking to launch their own businesses.

In the ever changing scientific word, Academic entrepreneurship has emerged as a new and growing field. Referring to the creation and management of an environment for active support of knowledge exploitation and transfer, Academic entrepreneurship aims to encourage entrepreneurial behavior in the academic community. Academic Entrepreneurship and Technological Innovation: A Business Management Perspective provides a wide-ranging overview of the relationship between universities and organizations through the most recent and detailed research on university entrepreneurship. This book aims to be a reference source for students, researchers, and practitioners interested in the academic industry's demand for technological innovation.

The cornerstone of the book is the proposed Eclectic Theory of Entrepreneurship. The goal of the Eclectic Theory is to provide a unified framework for understanding and analyzing the determinants of entrepreneurship. The Eclectic Theory of entrepreneurship integrates the different strands from relevant fields into a unifying, coherent framework.

Entrepreneurship and Small Business Development in Post-Socialist Economies

Entrepreneurial Small Business

International Handbook of Women and Small Business Entrepreneurship

The sixth edition of Entrepreneurship and Small Firms has been fully revised and updated with contributions from leading academics in the field. Retaining the popular style of the previous editions and offering a clear and accessible introduction to the topic, this book provides a thorough coverage of entrepreneurial and small firm theory, concepts, evidence, policy and practice. Integrating academic theory with the day-to-day realities that entrepreneurs may encounter it furnishes the student with a comprehensive analysis of entrepreneurship. This well established text is justly popular for its clear and accessible approach, presenting the key topics of an entrepreneurship module in an engaging yet rigorous style. The book covers wide ranging topics from the economic influences on entrepreneurship and sources of finance, to issues of diversity, family business and social entrepreneurship. New to this edition is a chapter on Corporate Entrepreneurship offering students a unique insight into entrepreneurship activities in larger businesses and organizations.A reorganized chapter structure for the sixth edition allows students to navigate the four parts of the text from introductory concepts, the domains of entrepreneurship, through to strategy and to implementation. New part cases help to highlight the core themes and apply them to real business scenarios. The new edition retains a wealth of examples and cases throughout the chapters which illustrate entrepreneurship in action.

This book examines entrepreneurship and small business in Russia and key countries of Eastern Europe, showing how far small businesses have developed, and discusses how far 'market reforms' and a market mentality have been taken up by ordinary people in the real everyday economy. For each of the countries examined – Russia, Ukraine, Belarus, Poland and Estonia – the book reviews the progress of market reforms within the wider context of social and economic transformation, surveys the development of entrepreneurship and small firms so far, and assesses the role of government in the process, and the strengths and weaknesses of the small business sector.

Topics covered include: business angels, Chinese clan entrepreneurship, criminal entrepreneurship, defining the entrepreneur, education, employee start-ups, entrepreneurship policy, ethics, ethnic minority entrepreneurship, family business, global entrepreneurship and trans-nationalism, indigenous entrepreneurship, international entrepreneurship, internationalisation, involuntary entrepreneurship, Islam and entrepreneurship, island entrepreneurship, mature-age entrepreneurs, pastoralism, religion as an explanatory variable for entrepreneurship, rural entrepreneurship, selfefficacy, social entrepreneurship and venture capital. There are also entries on individuals including Conrad Hilton, Howard Hughes and Joseph Schumpeter.

Essentials of Entrepreneurship and Small Business Management

A Resource-based Perspective

Start-up, Growth and Maturity

Entrepreneurial Small Businesses

Individual, Contextual and Microfoundational Perspectives

The aim of this volume is to explore entrepreneurship and business from the perspective of Islamic principles, which are usually based on collaboration, teamwork, generosity and altruism. The contributions deal with the confluence of Islamic Principles with entrepreneurial and business ownership characteristics; resource use by entrepreneurs; means of entrepreneurial success, and ethics and social responsibility.

The drivers of globalization are removing the barriers that segregated the competitive space of the small and large firms in the past. It is becoming increasingly difficult for independent small firms to thrive in their traditional markets unless they are globally competitive. Managing an enterprise's commercial, industrial and political relations well, regardless of size and location, is the essence of the entrepreneurial challenge in this competitive arena. Small and medium size enterprises (SMEs) often face very different issues than large multinational enterprises do when confronting internationalization. This volume provides an in-depth discussion of these challenges. The contributors to this volume explore the emerging patterns of SME growth and international expansion in response to the evolving competitive environment, dynamics of competitive behavior, entrepreneurial processes and formulation of strategy. They examine the basis and requirements of growth and expansion from three perspectives: the rapidly-changing environment in which business is conducted, entrepreneurial characteristics, and the evolving strategic and competitive response to this changing business environment. Business leaders, scholars and students interested in international business and entrepreneurship will welcome this volume.

Contents: 1. An Introduction to Entrepreneurial Small Businesses 2. The Motivation to Grow a Small Business 3. Who Grows Small Businesses and How They Choose to Do It 4. The Small Business's Entrepreneurial Orientation and Knowledge-based Resources 5. The Small Business's Entrepreneurial Orientation, Financial Capital and the Environment 6.
