Manufacturing - Visual Management At Visual Control System

Visual management, or visual control, can help create a solid foundation for 5S projects. The philosophy of 5S represents a way of thinking to better organize and manage workspace, specifically by eliminating the eight wastes as defined by the Lean Manufacturing system.

Managing a workspace includes communicating expectations, information, standards, or warnings through visuals like colors, words, pictures or symbols.

Having color visual standards is a critical component of your standardization phase of 5S. Without these standard colors, your workers are likely to choose whatever color tape, aisle marker or signal they happen to find lying around. Moreover, the workplace simply doesn't look organized in the least.

TextBook 5s A Visual Control System For The Workplace [PDF ...

5S is a system to reduce waste and optimize productivity through maintaining an orderly workplace and using visual cues to achieve more consistent operational results. Implementation of this method "cleans up" and organizes the workplace basically in its existing configuration, and it is typically the first lean method which organizations implement.
