Academy Of Magic (Dragon's Gift: The Valkyrie Book 2)

I have a knack for getting myself into some bad situations. But waking up partially dead in the Court of Death takes the cake. It's small consolation that my fated mate Tarron is at my side, since it means that he's mostly dead too. To make matters worse, the false queen who plans to destroy both our kingdoms is still alive and regaining her strength. We must work together to return from the

dead and stop her from killing thousands--including my sister. Escaping the Court of Death means completing a series of dangerous challenges. When we learn that only one of us can return to earth, true escape becomes impossible. Another Dragon Fantasy for everyone who fell in love with the Dragon Lore Series. A dragon shifter stirs and awakens in a cave beneath Inverness, deep in the Scottish Highlands. The cave's the same and his hoard intact, yet something's badly amiss. Determined to set whatever's gone wrong to rights, Lachlan Moncrieffe ventures above ground—and

wishes he hadn't. His castle's gone, replaced by ungainly row houses. Men aren't wearing plaids, and women scarcely wear anything at all, particularly the woman who accosts him with unseemly banter. What manner of wench is she to dress so provocatively? In Inverness for a year on a psychiatry fellowship, Dr. Maggie Hibbins watches an oddly dressed man pick his way out of a heather and gorse thicket. Even though it runs counter to her better judgment, she teases him about his strange attire. He looks so lost—and so unbelievably, knock-out

gorgeous —she takes a chance and stands him a meal.

Lachlan's shock when he picks up a local newspaper at a pub is so palpable, Maggie jumps in with both feet. She knew something was off, but the hard-to-accept truth bashes gaping holes in her equilibrium. He looks odd, sounds odd, acts odd because he's a refugee from another era. Her half-baked seduction scheme takes a hike, but her carefully constructed life is still about to change forever. Born of powerful witches, Maggie runs headlong into the myth and magic that are her birthright.

Where winning means survival
According to legend, I'm supposed to be some kind of all-powerful DragonGod-gifted with the magic of gods. Instead, I'm a dud. In fact, I'm currently failing out of the Undercover Protectorate's magical institute. It's the supernatural version of Scotland Yard, and I've got one chance left to earn my place here. To do so, I have to compete in a deadly race across

I've got one chance to prove myself and earn my place. Against all odds, I've snagged myself a spot at the elite Undercover Protectorate. It's basically a supernatural Scotland Yard, but in a castle. A dream come true. All I have to do is make it through their

But if I don't figure out what's going on, I'll lose more than my place at the academy. I'll lose my life. Portals, bondmates, and a dragon world. I thought that my biggest problem was the unfinished bond between me and my irresistible older dragon mate, Ashe... but instead, we have an even bigger problem. We've done the impossible and crossed through a portal into the world of dragons – the same place where my mother's been trapped for the past fifteen years. With this lavender sky, orange sun, and a freaking planet hanging above us, it's clear that we're no longer on Earth. Our biggest problem is finding our way back... right? WRONG. There are deadly animals and wild dragons on this alien world, not to mention the Abraxas....

it that I'd turned my back on the pantheon. My long tenure among witches rubbed salt into the wound. After a confrontation where Mommy Dearest fessed up—and lacked the decency to bat an eyelash about the widespread destruction she'd caused—I was digesting what to do next when a dragon showed up. Yes. A dragon. The beast didn't talk with me or anything, but it flew overhead wreaking havoc on a goblin horde. Witches are old souls with kind hearts, but they're not particularly strong magically, so I was grateful for the help. And suspicious as hell. Why a dragon? Why here and why
