Would life be better without alcohol?  
It's the nagging question more and  
more of us are finding harder to  
ignore, whether we have a "problem"

## Download Ebook Bender Of Worlds (Star Warrior Book 2)

with alcohol or not. After all, we yoga. We green juice. We meditate. We self-care. And yet, come the end of a long work day, the start of a weekend, an awkward social situation, we drink. One glass of wine turns into two turns into a bottle. In the face of how we care for ourselves otherwise, it's hard

## Download Ebook Bender Of Worlds (Star Warrior Book 2)

to avoid how alcohol really makes us feel... terrible. How different would our lives be if we stopped drinking on autopilot? If we stopped drinking altogether? Really different, it turns out. Really better. Frank, funny, and always judgment free, Sober Curious is a bold guide to choosing to live

## Download Ebook Bender Of Worlds (Star Warrior Book 2)

hangover-free, from Ruby Warrington, one of the leading voices of the new sobriety movement. Drawing on research, expert interviews, and personal narrative, Sober Curious is a radical take down of the myths that keep so many of us drinking. Inspiring, timely, and blame free, Sober Curious

is both conversation starter and handbook—essential reading that empowers readers to transform their relationship with alcohol, so we can lead our most fulfilling lives.

Trapped in the uninhabitable zone with three machine women. All of them very hot. And very horny. Not to mention deadly. Jason was a little short on creds so he decided to get his mind scanned. It seemed like a good idea at

he's here, or what the hell he's supposed to do. Worst of all, he's no longer human: his consciousness has been installed into the AI core of a state-of-the-art war machine, a mech with enough firepower to raze a small city. One would think the military wouldn't want to misplace something

like that. Whoops. Hunted by mutated alien bioweapons, Jason travels the wasteland in an attempt to piece together what happened. Along the way he encounters a few abandoned war machines that also have no memory of their mission, machines that can't decide whether they want to

join him or kill him. It doesn't help that in VR they all look like super hot women. Sometimes it's tough being a machine. When Jason and his new companions discover what they're truly capable of, however, everything changes. And not necessarily for the better. Warning: This book contains
