Can Jordan learn to navigate his new school culture while keeping his neighborhood friends and staying true to himself? This middle grade graphic novel is an excellent choice for tween readers, including for summer reading. New Kid is a selection of the Schomburg Center's Black Liberation Reading List. *****A GUARDIAN BOOK TO LOOK OUT FOR THIS AUTUMN*** A brilliantly warm, witty and moving portrait of our pandemic lives, told in ten heart-rending short stories Love and marriage. Children and family. Death and grief. Life touches everyone the same. But living under lockdown, it changes us alone. In these ten, beautifully moving short stories mostly written over the last year, Booker Prize winner Roddy**

Doyle paints a collective portrait of our strange times. A man abroad wanders the stag-and-hen-strewn streets of Newcastle, as news of the virus at home asks him to question his next move. An exhausted nurse struggles to let go, having lost a much-loved patient in isolation. A middle-aged son, barred from his mother's funeral, wakes to an oncoming hangover of regret. Told with Doyle's signature warmth, wit and extraordinary eye for the richness that underpins the quiet of our lives, *Life Without Children* cuts to the heart of how we are all navigating loss, loneliness, and the shifting of history underneath our feet. 'Roddy Doyle is an absolute genius' J.K. Rowling 'The undisputed laureate of ordinary lives' *The Times*

Sixteen biographies of extraordinary people--ranging from Sebastião Salgado to Björk and Greta Thunberg--who came of age fighting climate change. Every person has a path in life, one that is intertwined with the fate of the earth. The life stories in this collection begin and end with that realization. First, as children, in different countries and eras, they witness how humans provoke environmental degradation. Each leads a life that not only minimizes their individual contribution to climate change at a local scale, but also that of their generation on a global scale. Then, as adults, they recognize the maturity and agency acquired at that moment which defined their lives. The biographies depict concrete initiatives that contribute to climate preservation, from a physicist who promotes organic farming techniques in India to a designer that only uses ecological fabrics and dyes in Italy. Rock climber Yvon Chouinard, biologist Rachel Carson, and designer Adriana Santanocito are included in this diverse cast of environmental activists. Together they show us that regardless of culture, class, or profession it is never too early or late to find your way to improve the world our children will inhabit. The stakes couldn't be higher: "Our house is on fire," as Greta Thunberg rightly said.
