*The story of the Bosnian Muslims in World War II is an epic frequently alluded to in discussions of the 1990s Balkan conflicts, but almost as frequently misunderstood or falsified. This first comprehensive study of the topic in any language sets the record straight. Based on extensive research in the archives of Bosnia- Herzegovina, Serbia and Croatia, it traces the history of Bosnia and its Muslims from the Nazi German and Fascist Italian occupation of Yugoslavia in 1941, through the years of the Yugoslav civil war, and up to the seizure of power by the Communists and their establishment of a new Yugoslav state. The book explores the reasons for Muslim opposition to the new order established by the Nazis and Fascists in Bosnia in 1941 and the different forms this opposition took. It de- scribes how the Yugoslav Communists were able to harness part of this Muslim opposition to support their own resistance movement and revolutionary bid for power. This Muslim element in the Communists' revolution shaped its form and outcome, but ultimately had itself to be curbed as the victorious Communists consolidated their dictatorship. In doing so, they set the scene for future struggles over Yugoslavia's Muslim question.*

*Series I: Contains the formal reports, both Union and Confederate, of the first seizures of United States property in the Southern States, and of all military operations in the field, with the correspondence, orders, and returns relating specially thereto, and, as proposed is to be accompanied by an Atlas. In this series the reports will be arranged according to the campaigns and several theaters of operations (in the chronological order of the events), and the Union reports of any event will, as a rule, be immediately followed by the Confederate accounts. The correspondence, etc., not embraced in the "reports" proper will follow (first Union and next Confederate) in chronological order. Volume XIV. 1885. Most histories of the Spanish Civil War (1936-1939) have examined major leaders or well-established political and social groups to explore class, gender, and ideological struggles. The war in Spain was marked by momentous conflicts between democracy and dictatorship, Communism and fascism, anarchism and authoritarianism, and Catholicism and anticlericalism that still provoke our fascination. In Republic of Egos, Michael Seidman focuses instead on the personal and individual experiences of the common men and women who were actors in a struggle that defined a generation and helped to shape our world. By examining the roles of anonymous individuals, families, and small groups who fought for their own interests and survival--and not necessarily for an abstract or revolutionary cause--Seidman reveals a powerful but rarely considered pressure on the outcome of history. He shows how price controls and inflation in the Republican zone encouraged peasant hoarding, black marketing, and unrest among urban workers. Soldiers of the Republican Army responded to material shortages by looting, deserting, and fraternizing with the enemy. Seidman's focus on average, seemingly nonpolitical individuals provides a new vision of both the experience and outcome of the war.

*Memories of catastrophes--both those which occur naturally and those which are consequences of human actions--loom large in the modern consciousness. The volume opens with an investigation of the concepts of catastrophe and collective memory, and the relationships between them. Arguing that a pervasive catastrophic memory may be as disabling as it is instructive, Gray and Oliver stress the necessity of rendering the phenomenon subject to secular critical inquiry. The value of such an approach is then demonstrated in a series of case studies.*

Satellite Empire is an in-depth investigation of the political and social history of the area in southwestern Ukraine under Romanian occupation during World War II. Transnistria was the only occupied Soviet territory administered by a power other than Nazi Germany, a reward for Romanian participation in Operation Barbarossa. Vladimir Solonari's invaluable contribution to World War II history focuses on three main aspects of Romanian rule of Transnistria: with fascinating insights from recently opened archives, Solonari examines the conquest and delimitation of the region, the Romanian administration of the new territory, and how locals responded to the occupation. What did Romania want from the conquest? The first section of the book analyzes Romanian policy aims and its participation in the invasion of the USSR. Solonari then traces how Romanian administrators attempted, in contradictory and inconsistent ways, to make Transnistria "Romanian" and "civilized" while simultaneously using it as a dumping ground for 150,000 Jews and 20,000 Roma deported from a racially cleansed Romania. The author shows that the imperatives of total war eventually prioritized economic exploitation of the region over any other aims the Romanians may have had. In the final section, he uncovers local responses in terms of collaboration and resistance, in particular exploring relationships with the local Christian population, which initially welcomed the occupiers as liberators from Soviet oppression but eventually became hostile to them. Ever increasing hostility towards the occupying regime buoyed the numbers and efficacy of pro-Soviet resistance groups.
