The 2020 edition of the WWDR, titled 'Water and Climate Change' illustrates the critical linkages between water and climate change in the context of the broader sustainable development agenda. Supported by examples from across the world, it describes both the challenges and opportunities created by climate change, and provides potential responses - in terms of adaptation, mitigation and improved resilience - that can be undertaken by enhancing water resources

management, attenuating water-related risks, and improving access to water supply and sanitation services for all in a sustainable manner. It addresses the interrelations between water, people, environment and economics in a changing climate, demonstrating how climate change can be a positive catalyst for improved water management, governance and financing to achieve a sustainable and prosperous world for all. The report provides a fact-based, water-focused contribution to the knowledge base on climate change. It is complementary to existing scientific assessments and designed to support

of the world and is extremely easy to grow at home in most climates. It's part of the mint family and contained within the bulbs, stems, and leaves is an oil called nepetalactone. Once eaten, rolled on, or crushed, the oil binds to the cat's nasal receptors and stimulates a response that affects a number of areas in the brain, including the hypothalamus and amygdala, two regions that are key in regulating emotional and behavioral responses to stimuli. This produces a mild euphoric effect and typically lasts about ten to

us we are not working or learning hard enough—filled with practical and accessible advice for overcoming society ’ s pressure to “ do more. ” Extra-curricular activities. Honors classes. 60-hour work weeks. Side hustles. Like many Americans, Dr. Devon Price believed that productivity was the best way to measure self-worth. Price was an overachiever from the start, graduating from both college and graduate school early, but that success came at a cost. After Price was diagnosed with a severe case of anemia and heart complications from

overexertion, they were forced to examine the darker side of all this productivity. Laziness Does Not Exist explores the psychological underpinnings of the “laziness lie,” including its origins from the Puritans and how it has continued to proliferate as digital work tools have blurred the boundaries between work and life. Using in-depth research, Price explains that people today do far more work than nearly any other humans in history yet most of us often still feel we are not doing enough. Dr. Price offers science-based reassurances that

productivity does not determine a person ' s worth and suggests that the solution to problems of overwork and stress lie in resisting the pressure to do more and instead learn to embrace doing enough. “A great Faustian fable, and a literary endeavor of historical ingenuity that we now may start to characterize as Krachtian.” —Karl Ove Knausgaard

In Berlin, Germany, in the early

1930s, the acclaimed Swiss film director Emil Nægeli receives the assignment of a lifetime: travel to Japan and make a film to establish the dominance of Adolf Hitler's Nazi empire once and for all. But his handlers are unaware that Nægeli has colluded with the Jewish film critics to pursue an alternative objective—to create a monumental, modernist, allegorical spectacle to warn the world of the horror to come. Meanwhile, in Japan, the film minister Masahiko Amakasu intends to counter Hollywood's growing influence and usher in a new golden age of Japanese cinema by exploiting his Swiss visitor. The arrival

of Nægeli's film-star fiancée and a strangely thuggish, pistol-packing Charlie Chaplin—as well as the first stirrings of the winds of war—soon complicates both Amakasu's and Nægeli's plans, forcing them to face their demons . . . and their doom. "The Dead is the beautiful, brilliant, and utterly mad novel that Thomas Mann would have written had he known the East like Yukio Mishima and loved his adopted Hollywood with the gusto of Nathanael West." —Joshua Cohen "The Dead is a story of love and sadness in times when the weak were broken by the unforgiving ideologies of fascism and National Socialism . . . I

read The Dead twice in a row, first for the story and then for the beauty of the prose." —Sjón
Mapping Modern Beijing investigates the five methods of representing Beijing—a warped hometown, a city of snapshots and manners, an aesthetic city, an imperial capital in comparative and cross-cultural perspective, and a displaced city on the Sinophone and diasporic postmemory—by authors travelling across mainland China, Taiwan, Hong Kong, and overseas Sinophone and non-Chinese communities. The metamorphosis of Beijing's everyday spaces and the structural transformation of private and public emotions

unfold Manchu writer Lao She's Beijing complex about a warped native city. Zhang Henshui's popular snapshots of fleeting shocks and everlasting sorrows illustrate his affective mapping of urban transition and human manners in Republican Beijing. Female poet and architect Lin Huiyin captures an aesthetic and picturesque city vis-à-vis the political and ideological urban planning. The imagined imperial capital constructed in bilingual, transcultural, and comparative works by Lin Yutang, Princess Der Ling, and Victor Segalen highlights the pleasures and pitfalls of collecting local knowledge and

presenting Orientalist and Cosmopolitan visions. In the shadow of World Wars and Cold War, a multilayered displaced Beijing appears in the Sinophone postmemory by diasporic Beijing native Liang Shiqiu, Taiwan sojourners Zhong Lihe and Lin Haiyin, and ◆migr◆ martial arts novelist Jin Yong in Hong Kong. Weijie Song situates Beijing in a larger context of modern Chinese-language urban imaginations, and charts the emotional topography of the city against the backdrop of the downfall of the Manchu Empire, the rise of modern nation-state, the 1949 great divide, and the formation of Cold War and

globalizing world. Drawing from literary canons to exotic narratives, from modernist poetry to chivalric fantasy, from popular culture to urban planning, Song explores the complex nexus of urban spaces, archives of emotions, and literary topography of Beijing in its long journey from imperial capital to Republican city and to socialist metropolis.

“This book made me happy in the first five pages.” —AJ Jacobs, author of The Year of Living Biblically: One Man’s Humble Quest to Follow the Bible as Literally as Possible Award-winning author Gretchen Rubin is back with a bang, with The Happiness Project. The author of the bestselling 40 Ways to Look at Winston

Churchill has produced a work that is “a cross between the Dalai Lama’s The Art of Happiness and Elizabeth Gilbert’s Eat, Pray, Love.” (Sonya Lyubomirsky, author of The How of Happiness: A Scientific Approach to Getting the Life You Want) In the vein of Julie and Julia, The Happiness Project describes one person’s year-long attempt to discover what leads to true contentment. Drawing at once on cutting-edge science, classical philosophy, and real-world applicability, Rubin has written an engaging, eminently relatable chronicle of transformation.

It is becoming clearer and clearer that Groundhog Day (1993), directed by Harold Ramis, is one of the masterpieces of 1990s Hollywood cinema. One of the first films to use a science-fiction premise as the basis for romantic comedy, it tells the story of a splenetic TV weatherman, Phil Connors (Bill Murray at his disreputable best), who finds himself repeating indefinitely one drab day in the milk-and-cookies town of Punxsutawney, Pennsylvania. At first glance it seems like a feel-good parable in the tradition of Frank Capra's It's a Wonderful Life

(1943). But on closer inspection it is a deeply ambivalent fable, with strong echoes of Samuel Beckett: before he finds redemption Phil must plumb the depths of suicidal despair - and even after he has survived this, the film offers no guarantees that he will live happily ever after. Ryan Gilbey begins his account of Groundhog Day with the long and unlucky gestation of the script by Danny Rubin (who was interviewed specially for this book) which formed the basis of the finished film. Gilbey celebrates the inspired casting of Murray, alongside Andie

MacDowell and less well-known actors such as Stephen Tobolowsky (who plays the reptilian sa 'I'm a HUGE fan of Alison Green's "Ask a Manager" column.
