Who Killed My Father is the story of a tough guy – the story of the little boy I never was. The story of my father. 'What a beautiful book' MAX PORTER In Who Killed My Father, Édouard Louis explores key moments in his father's life, and the tenderness and disconnects in their relationship. Told with the fire of a writer determined on social justice, and with the compassion of a loving son, the book urgently and brilliantly engages with issues surrounding masculinity, class, homophobia, shame and social poverty. It unflinchingly takes aim at systems that disadvantage those they seek to exclude – those who have their expectations, hopes and passions crushed by a society which gives them little thought. This is the story of a successful father describing his approach to parenting, making us think and consider what will make our children happy and successful individuals. Ravi Mahendra is a father of three young girls and he is passionate about parenting. He has personally gone on a journey of learning and developing the relationship between him and his daughters. Ravi delights in seeing his children become bigger and better individuals. Ravi believes passionately that parenting is about dedication and focus. The book is based on the principle that you are the best teacher for your children; you can pass on your knowledge and experience to help to support the best development of your child. The parent is the figure of authority, with immense responsibility for decisions regarding the children. This book draws out the benefits of really pro-actively grasping the responsibility and making the decisions rather than running with the flow. The real strength of this book lies with the thought process on determining priorities, characteristics and values that will produce successful children. It will inspire you to look at your parenting approach with a fresh set of eyes and help you to succeed on your chosen path. The book uses well-chosen examples from the world of business, politics and historical figures to really illustrate what success means and what needs to be done to achieve it. Ravi uses connection of business ideas and stories with parenting to bring a fresh perspective on children's upbringing. . The book is drawing interesting connection from management and business theories to really focus on children leading successful lives. At a practical level, the book offers a vast array of examples on managing the prosaic day-to-day issues. Unless the practical challenges are resolved, it becomes very difficult to manage the more advanced parenting questions. Ravi does a great job in visualising the impact of our actions now on the children in the future. Ravi Mahendra lives with his three daughters in London. His career spans many areas: he has built a renowned business school in his native Sri Lanka, written business columns for newspapers and is a prize-winning Qualified Accountant with an MBA. Learn Italian through the power of story. A simple Italian story for beginners! Enjoy the process of learning, don't beat yourself up. You don't need to read boring text books anymore. Italian A Short Story for Beginners is a story written just for you. The captivating nature of story makes learning fun and easy because your attention is focused and the context will help you determine what is being said. This book is loaded with simple sentences, practical scenarios, and common phrases any student of a second language would not only want to know, but NEED to know. Alternating vs Solid Text Alternating Text Alternating Text, Parallel text or interlinear text is when your target language, in this case Italian, is presented with the translation directly to the side or bellow respectively. A text may be presented with the literal translation of every word, or a sentence/paragraph translated into a more colloquial or natural way of expressing an idea. We find this second way to be of more value as it emphasizes patterns which are critical to learning any language and as you will see, most languages have unique idioms. An idiom is a phrase or pattern that expresses something other than its literal meaning like "what's up?" You're asking how someone is doing, not what's above them in the sky. Alternating text has many advantages over a traditional text body. Mainly you are able to very quickly glance down to see the translation of the idea your reading in Italian. No time is wasted flipping through glossaries and you don't risk losing your place in the book because the translated idea is presented right there on the same page within a glances reach. Solid Text A traditional text body or text written entirely in one language has advantages of its own. Mainly, you are forced to interpret new or unfamiliar words based upon the context and your own memory. Context is extremely important, not only in grasping the true meaning of what is being said, but developing your capability to infer what new words mean. This skill is of the upmost value. When you meet a Italian speaker for the first time, odds are they will say a thing or two that you don't know or can't understand. Your ability to infer the meaning of a given word can greatly improve the quality of such an experience. This will expedite the learning curve and boost confidence. It is inevitable that you will make mistakes, don't let that stop you from conquering a new language. Solid text also forces you to recall definitions, sentence patterns, and the meaning of various expressions. Without a quick translation available, you will be challenged and grow. Alternating + Traditional So, which style of text did we choose to include in this book? Well, each is so valuable that we couldn't pick one over the other. Thus, we included BOTH! We've presented the story first in its entirety with a Italian and English alternating text. Each paragraph is presented with its translation bellow. Second, we presented the entire story in Italian. So now you can use this awesome tool in a way that best suites you and your growing level of understanding. So, if you're interested in finally picking up Italian, you're just a click away. Order now. A beautiful and lyrical celebration of fatherhood, My Dad reveals all the little things that one child's dad does that make him the best dad in the world.

A modern day fable that's so funny you'll laugh your head off! What would you do if your daddy lost his head? Make him a new one of course! John Podlaski's encore Vietnam War novel brings back John ('Polack') Kowalski, the central character in 'Cherries', and introduces us to Louis ('LG') Gladwell, his irrepressible black friend. Polack and LG are a 'Salt and Pepper' team, best buddies and brothers in a way that only those who have fought side-by-side in a war can ever truly understand. The year is 1970, and the story follows the two soldiers - impressionable Detroit teenagers - during their long night in a Listening Post ('LP'), some 500 meters beyond the bunker line of the new firebase. Their assignment as a "human early warning system", is to listen for enemy activity and forewarn the base of any potential dangers. As they were new to the "Iron Triangle" and its reputation, little did they know that units before them lost dozens of soldiers in this nightly high-risk task and referred to those assigned as "bait for the enemy" and "sacrificial lambs". Sitting in the pitch black tropical jungle - with visibility at less than two feet - John's imagination takes hold throughout the agonizing night, and at times, transports him back to some of his most vivid childhood memories - innocent, but equally terrifying at the time. As kids, we instinctively run as fast as we can to escape imaginary or perceived danger, but as soldiers, men are trained to conquer their fears and develop the confidence to stand their ground and fight. Running is not an option. In 'When Can I Stop Running?' the author juxtaposes his nightmarish hours in the bush with some of his most heart-pounding childhood escapades. Readers will relate to the humorous childish antics with amusement; military veterans will find themselves relating to both of the entertaining and compelling recollections.
