Cold Equations: The Persistence Of Memory: Book One (Star Trek Seekers 1)

The most talented Starfleet engineers of two generations unite to solve a two-hundred-year-old technological mystery that turns out to be only the beginning of a wider quest. With the support of Guinan and Nog, as well as the crew of the U.S.S. Challenger, deadlier, and far more personal adventure. Helped by old friends and hindered by old enemies, their investigation will come to threaten everything they hold dear. Seeking out the new, and going where no one has gonebefore, Geordi, Scotty, and Guinan find that their pasts are very much of the present, and must determine whether any sufficiently advanced technology is really indistinguishable from magic

Having resigned his commission, the former Starfleet officer now works to make his way on an alien world, while also coming to grips with the very human notion of wanting versus having a child. But complicating Data's new life is an unexpected nemesis from years ago on the U.S.S. Enterprise—the holographic master criminal Professor James Moriarty. Long believed to be imprisoned in a memory solid, Moriarty has created a siphon into the "real" world as a being of light and thought. Moriarity wants the solid form that he was once told he could never have, and seeks to manipulate Data into finding another android body for him to permanently inhabit...even if it means evicting the current owner, and even if that is Data himself. m , $^{\otimes}$, $^{\otimes}$ $^{\odot}$ 2013 CBS Studios, Inc. He is perhaps the ultimate human achievement: a sentient artificial life-form -- self-aware, self-determining, possessing a mind and body far surpassing that of his makers, and imbued with the potential to evolve beyond the scope of his programming. Created by one of the most brilliant and eccentric intellects the Federation has ever known, the android Data has always believed he was unique, the one true fulfillment of a dream to create children of the mind. But is he? Investigating the mysterious destruction of a new android created by Starfleet, Data and the crew of the U.S.S. Enterprise uncover startling secrets stretching back to the galaxy's dim past. That knowledge is coveted by beings who will stop at nothing to control it, and will force Data to redefine himself as he learns the hidden history of artificial intelligence. The third original novel in the electrifying The Next Generation, and the Typhon Pact all scheme to twist the crisis to their political gain—at any price.

The Fall: A Ceremony of Losses

The first novel in a two-part Typhon Pact adventure set in the universe of Star Trek: The Next Generation! In the wake of the final Borg invasion, which destroyed entire worlds, cost the lives of sixty-three billion people, and struck a crippling blow to Starfleet, six nations adversarial to the United Federation of Planets—the Romulan Star Empire, the Breen Confederacy, the Typhon Pact. For almost three years, the Federation and the Klingon Empire, allied under the Khitomer Accords, have contended with the nascent coalition on a predominantly cold-war footing. But as Starfleet rebuilds itself, factions within the Typhon Pact grow restive, concerned about their own inability to develop a quantum slipstream drive to match that of the Federation. Will leaders such as UFP President Bacco and RSE Praetor Kamemor bring about a lasting peace across the Alpha and Beta Quadrants, or will the cold war between the two alliances deepen, and perhaps even lead to an all-out shooting war?
