***The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self. Examines the realities of unexplained natural phenomenon and provides explanations that push the boundaries of science. • Looks at animal telepathy and the ability of pigeons to home. • Proves the point that "big questions don't need big science". • Noted scientist Rupert Sheldrake is a former research fellow of the Royal Society. • New Edition with an Update on Results. How does your pet "know" when you are coming home? How do pigeons "home"? Can people really feel a "phantom" amputated arm? These questions and more form the basis of Sheldrake's look at the world of contemporary science as he puts some of the most cherished assumptions of***

***established science to the test. What Sheldrake discovers is that certain scientific beliefs are so widely taken for granted that they are no longer regarded as theories but are seen as scientific common sense. In the true spirit of science, Sheldrake examines seven of these beliefs. Refusing to let intellectual dogmatism influence his search for the truth, Sheldrake presents simple experiments that allow the curious and the skeptical to join in his journey of discovery. His experiments look at how scientific research is often biased against unexpected patterns that emerge and how a researcher's expectations can influence the results. He also examines the taboo of taking pets seriously and explores the question of human extrasensory perception. Perhaps most important, he questions the notion that science must be expensive in order to achieve important results, showing that inexpensive methods can indeed shake the very foundations of science as we know it. In this compelling and intelligent book, Sheldrake offers no preconceived wisdom or easy answers--just an open invitation to***

***explore the unknown, create new science, and perhaps, even change the world. Christians from diverse cultural, religious, and political contexts have been studying the Gospel of John for almost two thousand years. In this insightful reflection on the Fourth Gospel, Rev Yohanna Katanacho invites us to encounter the text anew, this time from the perspective of a twenty-first century Palestinian Christian. Challenging the claim that Christ belongs to a particular denomination, nation, or race, Katanacho presents the Gospel of John as introducing a new world order. In John's account of Jesus's life, the rich history of Judaism is reinterpreted in light of the inclusive Christ, the fulfilment of Old Testament prophecies, teachings, and promises. Walking us through the reinterpretation of holy space, holy time, holy history, holy community, holy land, and life itself, Katanacho demonstrates how John's gospel establishes a new identity for the people of God - an identity defined not by race or nationality but by suffering and love. Containing questions for reflection designed with preachers in mind, this***

Beginning with the destruction of Jerusalem and continuing through the persecutions of Christians in the Roman Empire, the apostasy of the Dark Ages, the shining light of the Reformation, and the worldwide religious awakening of the nineteenth century, this volume traces the conflict into the future, to the Second Coming of Jesus and the glories of the earth made new. In this concluding volume, the author powerfully points out the principles involved in the impending conflict and how each person can stand firmly for God and His truth.

More than any other sport, baseball has developed its own niche in America ' s culture and psyche. Some researchers spend years on detailed statistical analyses of minute parts of the game, while others wax poetic about its players and plays. Many trace the beginnings of the civil rights movement in part to the Major Leagues ' decision to integrate, and the words and phrases of the game (for example, pinch-hitter and out in left field) have become common in our everyday language. From AARON, HENRY onward, this book covers all of what might be called the cultural aspects of baseball (as opposed to the number-rich statistical information so widely available elsewhere). Biographical sketches of all Hall of Fame players, owners, executives and umpires, as well as many of the sportswriters and broadcasters who have won the Spink and Frick awards, join entries for teams, owners, commissioners and league presidents. Advertising, agents, drafts, illegal substances, minor leagues, oldest players, perfect games, retired uniform numbers, superstitions, tripleheaders, and youngest players are among the thousands of entries herein. Most entries open with a topical quote and conclude with a brief bibliography of sources for further research. The whole work is exhaustively indexed and includes 119 photographs.

the second century BCE. Why were these particular creations chosen and when? And why did the ancients want to draw up such a list in the first place? What were the technical and cultural factors involved in the creation and listing of the Wonders? The Seven Wonders still rival many of the phenomenal products of both nature and mankind in their size, majesty, and beauty. Six of them no longer stand, having been destroyed by natural disaster or by human intervention. From the Pyramids at Giza to the Colossus of Rhodes, from the Hanging Gardens of Babylon to the Lighthouse of Alexandria, from the Temple of Ephesus to the Mausoleum at Halicarnassus and the Statue of Zeus at Olympia, the Seven Wonders of the Ancient World have never ceased to fascinate down the ages.

***Now revised and updated--John Lennox's acclaimed method of reading and interpreting the first chapters of Genesis without discounting either science or Scripture. What did the writer of Genesis mean by "the first day?" Are the seven days in Genesis 1 a literal week or a series of time periods? If I believe that the earth is 4.5 billion years old as cosmologists believe, am I denying the authority of Scripture? With examples from history, a brief but thorough exploration of the major interpretations, and a***

***look into the particular significance of the creation of human beings, Lennox suggests that Christians can heed modern scientific knowledge while staying faithful to the biblical narrative. He moves beyond a simple response to the controversy, insisting that Genesis teaches us far more about the God of Jesus Christ and about God's intention for creation than it does about the age of the earth. With this book, Lennox offers a careful and accessible introduction to a scientifically-savvy, theologically-astute, and Scripturally faithful interpretation of Genesis. Since its publication in 2011, this book has enabled many readers to see that the major controversy with which it engages can be resolved without compromising commitment to the authority of Scripture. In this newly revised and expanded edition, John clarifies his arguments, responds to comments and critiques of the past decade since its first publication. In particular, he describes some of the history up to modern times of Jewish scholarly interpretation of the Genesis creation narrative as well as spelling out in more detail the breadth of views in the Great Tradition of interpretation due to the early Church Fathers. He shows that, contrary to what many people think, much of the difficulty with understanding the biblical texts does not arise from modern science but from attempting to elucidate the texts in their own right.***

***Earthquakes rip through the world as the Creator approaches, the stars fall, the sun goes dark, and the moon proclaims death. Jesus comes and His powerful presence causes the atmosphere to split and roll away. Revelation 6 shows people wailing for the mountains to bury them: "Fall on us, and hide us from the face of Him who sits on the throne, and from the wrath of the Lamb: for the great day of His wrath is come; and who will be able to stand?" And who does stand in that day? No one. Not a single soul. It's the total annihilation of a vile, self-righteous human race. God's followers expected all of this to happen on October 22, 1844. They watched and waited, but Jesus didn't return. This was only a warning preview of His return in the sixth seal. In God's mercy, He commands to delay the cataclysm of judgment day so that He can send to the world the needed preparation for the day of wrath. That needed preparation comes with the seven trumpets of the seventh seal that occur after 1844. The postponed destruction seen in the sixth seal will yet be a future reality. The Seven Trumpets and the Investigative Judgment examines chapters 4-11 in the book of Revelation and studies how recent events since 9/11 have almost completed God's gracious delay. This book presents a new view of Revelation that meets the biblical rules of prophetic interpretation and of the inspired "testimony of Jesus," which is "the spirit of***

Because of the political system we live under, many people will be too busy to pay attentions as to what is going on around us; social, political, economic, and most of all spiritual unrest. The ungodly ways in which we live our lives, will bring on much trouble. Nature, money, work, care, food, energy, and lives: these are the seven things that have made our world and will shape its future. In making these things cheap, modern commerce has transformed, governed, and devastated Earth. In A History of the World in Seven Cheap Things, Raj Patel and Jason W. Moore present a new approach to analyzing today's planetary emergencies. Bringing the*

From the acclaimed author of *Brothers and To Live: a major new novel that limns the joys and sorrows of life in contemporary China.* Yang Fei was born on a moving train. Lost by his mother, adopted by a young switchman, raised with simplicity and love, he is utterly unprepared for the tempestuous changes that await him and his country. As a young man, he searches for a place to belong in a nation that is ceaselessly reinventing itself, but he remains on the edges of society. At age forty-one, he meets an accidental and unceremonious death. Lacking the money for a burial plot, he must roam the afterworld aimlessly, without rest. Over the course of seven days, he encounters the souls of the people he's lost. As Yang Fei retraces the path of his life, we meet an extraordinary cast of characters: his adoptive father, his beautiful ex-wife, his neighbors who perished in the demolition of their homes. today's China—the organ sellers, the young suicides, the innocent convicts—as well as the hope for a better life to come. Yang Fei's passage maps the contours of this vast nation—its absurdities, its sorrows, and its soul. Vivid, urgent, and panoramic, *The Seventh Day* affirms Yu Hua's place as the standard-bearer of modern Chinese fiction. Nowhere is Jesus' brilliance more manifest than in the prayer he taught his disciples to pray, the prayer that has come to be known as the "Lord's Prayer." A mere fifty-seven words in the original Greek, the Lord's Prayer gathers up all of life and brings it before God. In eight stirring meditations, Darrell Johnson shows how the Lord's Prayer sums up the essence of Christian faith and, when prayed in faith, draws us into draws us into the Triune God's work of transforming the world. Darrell W. Johnson is Associate Professor of Pastoral Theology at Regent College in Vancouver, British Columbia, Canada. A popular conference and retreat speaker, he has also served as the preaching pastor for a number of congregations in North America and the Philippines and Adjunct Professor of Preaching for the Doctor of Ministry program at Fuller Theological Seminary in Pasadena, California. **This is a valuable source book for the idea of rest as it occurs in a wide spectrum of ancient Jewish and Christian literature. The author provides a new way of understanding Matt 11:28-30 that challenges most recent scholarship and acts as a guide for application in the church. This book, first published in 1935, examines the lives of seven revolutionary women: Charlotte Corday, Théroigne de Méricourt, Flora Tristan, Louise Michel, Vera Figner, Emma Goldman and Rosa Luxemburg. The revolutionary impulses of these remarkable women emerge as the natural result of the historical associations of their age, but the author concludes that some sacrifices were made in vain because there was no strong revolutionary movement behind them. This book is a key analysis of the reasons behind the revolt of these women against their systems of society,**

and why some of them thought it worth while to die if necessary for the principles in which they believed.

*Seven Testaments is volume one of a trilogy, introducing and supplementing the already popular academic texts, Three Testaments: Torah Gospel and Quran (2012) and Four Testaments: Tao Te Ching, Analects, Dhammapada, Bhagavad Gita (2016). Organized in three parts, Seven Testaments will cover the foundations of how these testaments were formed, the essence of each one of the testaments and a section of primary source documents that frames the testaments in a modern setting.*
