

Cross Bones: (Temperance Brennan 8)

Now in a new paperback repackagge, Bare Bones sees Temperance Brennan back in her home base of North Carolina, where several sets of bones, both human and animal, lead her on a terrifying hunt for a killer. It's a summer of sizzling heat in Charlotte where Dr. Temperance Brennan, forensic anthropologist for the North Carolina medical examiner, looks forward to her first vacation in years. A romantic vacation. She's almost out the door when the bones start appearing. A newborn's charred remains turn up in a woodstove. The mother, Tamela Banks, hardly more than a child herself, has disappeared. Did she kill her infant, or is an innocent teenager also about to become a victim? A small plane crashes in a North Carolina cornfield on a sunny afternoon. Both pilot and passenger are burned beyond recognition. Was it pilot error? Something more sinister? And what is the mysterious black substance covering the bodies? Most puzzling of all are the bones discovered at a remote farm outside Charlotte. What has Tempe's dog, Boyd, unearthed? The remains seem to be of animal origin, but Tempe is shocked when she gets them to her lab. With help from a special detective friend, Tempe must investigate a poignant and terrifying case that comes at the worst possible moment: Tempe's daughter Katy has a new boyfriend who Tempe fears may have something to hide. And Tempe herself faces important personal decisions. Is it time for emotional commitment? Will she even have the chance to find out? Everything must wait on the bones. What story do they tell? Why are the X rays and DNA so perplexing? Who is trying to keep Tempe from the answers? Someone is following her. Someone is stalking her. That someone must be stopped before it's too late.

The first Temperance Brennan novel in the “cleverly plotted and expertly maintained series” (The New York Times Book Review) from the #1 internationally bestselling thriller writer Kathy Reichs. Her life is devoted to justice—for those she never knew. In the year since Temperance Brennan left behind a shaky marriage in North Carolina, work has often preempted her weekend plans to explore Québec. When a female corpse is discovered meticulously dismembered and stashed in trash bags, Temperance detects an alarming pattern—and she plunges into a harrowing search for a killer. But her investigation is about to place those closest to her—her best friend and her own daughter—in mortal danger... “A genius at building suspense” (Daily News, New York), Kathy Reichs’s Temperance Brennan books are both “accomplished and chilling” (People) and “ripe with intricate settings and memorable characters” (Milwaukee Journal Sentinel).

'Death by self-inflicted gunshot wound to the head' is the on-scene assessment, but the victim's relatives are adamant in their rejection of suicide as an explanation. Discovered in a closet, a week after death, the body is barely recognisable. Extreme heat has accelerated decomposition, and Dr Temperance Brennan's forensic expertise is required.[P]

THE NEW YORK TIMES BESTSELLER and #1 GLOBE AND MAIL BESTSELLER Producer of the FOX television hit Bones KATHY REICHS exposes the high-stakes, high-danger world of diamond mining as Dr. Temperance Brennan tracks a murder suspect deep into the Northwest Territories. Beneath a diamond's perfect surface lies a story of violence and greed. Just like bones. . . . In a run-down Montreal apartment, Tempe finds the heartbreaking evidence of three innocent lives ended. The landlord says Alma Rogers lives there—is she the same woman who checked into a city hospital as Amy Roberts, then fled before doctors could treat her uncontrolled bleeding? Is she Alva Rodriguez, sought by a man who appeared at the crime scene? Heading up an investigation crackling with the sexual tension of past intimacies, Tempe leads homicide detective Andrew Ryan and police sergeant Ollie Hasty along the woman's trail and into the farthest reaches of mining country—an unexplored place where the grim industry of unearthing diamonds exacts a price in blood. And where the truths the unlikely trio uncovers are more sinister than they could have imagined.

Unfolding from the start, 'Written Bone is superb.' Dr Richard Shepherd, author of Unnatural Causes 'No Scientist communicates better than Sue Black' - Val McBernid, author of Still Life From the Sunday Times Bestselling author of All That Remains, Sue Black reveals the secrets hidden deep within our bones. 'Drawing upon her years of research and a wealth of remarkable experience, the world-renowned forensic anthropologist Professor Dame Sue Black takes us on a journey of revelation. From skull to feet, via the face, spine, chest, arms, hands, pelvis and legs, she shows that each part of us has a tale to tell. What we eat, where we go, everything we do leaves a trace, a message that waits patiently for months, years, sometimes centuries, until a forensic anthropologist is called upon to decipher it. Some of this information is easily understood, some holds its secrets tight and needs scientific cajoling to be released. But by carefully piecing together the evidence, the facts of a life can be rebuilt. Limb by limb, case by case - some criminal, some historical, some unaccountably bizarre - Sue Black reconstructs with intimate sensitivity and compassion the hidden stories in what we leave behind. Grave Secrets

Written In Bone

(Temperance Brennan 7)

In this updated and repackaged eighth book in Kathy Reichs's internationally bestselling Bones series, Temperance Brennan's investigation of a Native American burial ground on an island near Charleston leads to a fresh trail of bodies. Among the ancient remains in a Native American burial ground, Tempe discovers a fresh skeleton—and what began as an ordinary teaching stint at an archeology field school in Charleston, South Carolina, fast becomes a heated investigation into an alarming pattern of homicides. The clues hidden in the bones lead to a street clinic where a monstrous discovery awaits, and Tempe—whose personal life is in upheaval, with two men competing for her—can't afford any distractions as she pieces together a shattering and terrifying puzzle.

Dr Temperance Brennan spends her life working amongst the decomposed, the mutilated and the skeletal. So the two-days-dead body she is called to examine holds little to surprise her. Until she discovers that the man is John Lowery, an ex-soldier who was apparently killed in Vietnam in 1968.

A new story featuring forensic anthropologist Temperance Brennan—available only in ebook—from #1 New York Times bestselling author and FOX TV's bones producer, Kathy Reichs. When a fly-covered canvas bag floats to the surface of North Carolina's Mountain Island Lake, forensic anthropologist Tempe Brennan is called to the scene. Animal remains? Or could this be related to bone fragments from a human male found nearby? To Tempe's surprise, the decomposed body indicates the person was a female young adult. The profile fits the description of a missing graduate student named Edith Blankenship. Was Blankenship murdered? If so, why? Blankenship's body turned up on an artist colony where an eco-radical named Herman Blount has been squatting. Blount has posted online rants threatening to blow up a power station he says is polluting the area. Is Blount capable of violence? Blankenship was a loner, but she proved a dedicated advocate for birds at UNC-Charlotte and the Carolina Reptor Center. Did Blankenship's passion lead her into danger? Alongside Detective "Skinny" Slidell, Tempe puts life on hold until she discovers the truth behind Blankenship's death. But Tempe's own passion for crime solving will lead her into danger of her own. This ebook exclusive story—which comes with a special excerpt of Kathy Reichs's new novel, Bones of the Lost—is an exhilarating new installment in the Temperance Brennan series. "If you like the TV show Bones (I do) or Maximum Ride, you'll love Virals."—James Patterson Another thrilling Virals adventure from New York Times bestsellers Kathy and Brendan Reichs. When twin classmates are abducted from Bolton Prep, Tory and the Virals decide there's no one better equipped than them to investigate. But the gang has other problems to face. Their powers are growing wilder, and becoming harder to control. Chance Claybourne is investigating the disastrous medical experiment that twisted their DNA. The bonds that unite them are weakening, threatening the future of the pack itself. The Virals must decipher the clues and track down a ruthless criminal before he strikes again, all while protecting their secret from prying eyes. And everyone seems to be watching.

(Temperance Brennan 3)

In Kathy Reichs's tenth bestselling novel featuring forensic anthropologist Temperance Brennan, the discovery of a young girl's skeleton in Acadia, Canada might be connected to the disappearance of Tempe's childhood friend. For Tempe Brennan, the discovery of a young girl's skeleton in Acadia, Canada, is more than just another case. Evangeline, Tempe's childhood best friend, was also from Acadia. Named for the character in the Longfellow poem, Evangeline was the most exotic person in Tempe's eight-year-old world. When Evangeline disappeared, Tempe was warned not to search for her, that the girl was "dangerous." Thirty years later, flooded with memories, Tempe cannot help wondering if this skeleton could be the friend she had lost so many years ago. And what is the meaning of the strange skeletal lesions found on the bones of the young girl? Meanwhile, Tempe's beau, Ryan, investigates a series of cold cases. Two girls dead. Three missing. Could the New Brunswick skeleton be part of the pattern? As Tempe draws on the latest advances in forensic anthropology to penetrate the past, Ryan hunts down a serial perpetrator.

_____ A gripping Temperance Brennan novel from world-class forensic anthropologist Kathy Reichs, the international no. 1 bestselling crime thriller writer and the inspiration behind the hit TV series Bones. Three skeletons are found in a Montreal basement. The building is old, and the homicide detective in charge dismisses the remains as historic. Not his case. Not his concern. Forensic anthropologist Dr Temperance Brennan is not so sure. Something about the bones of these three young women suggests a different message: murder. Soon she finds herself drawn ever deeper into a web of evil from which there may be no escape. Three women have disappeared, never to return. Will Tempe be next? _____ Dr Kathy Reichs is a professional forensic anthropologist. She has worked for decades with chief medical examiners, the FBI, and even a United Nations Tribunal on Genocide. In this blockbuster novel from bestselling author Kathy Reichs, forensic anthropologist Temperance Brennan investigates what looks to be a typical missing person case, only to find herself digging up bones possibly left by a serial killer, a cult, or perhaps something not entirely of this world. For every case that Temperance Brennan has solved, there remain numerous bodies that remain unidentified in her lab. Information on some of these cold cases is available online, where amateur detectives sometimes take a stab at solving cases. When Tempe gets a call from Hazel "Lucky" Strike, a web sleuth who believes she's successfully connected a body in Tempe's lab to a missing eighteen-year-old girl, Tempe writes it off as another false alarm. Still reeling from her mother's diagnosis and the shock of Andrew Ryan's potentially life-change proposal, Tempe has little patience for chasing false leads. But when the bones in the lab match the missing girl's medical records, Tempe re-opens the case, returning to the spot where her remains were originally found. What seems at first to be an isolated tragedy takes on a more sinister cast as Tempe uncovers two more sets of bones nearby. Even more troubling is that the area is known as a viewing point for a famous unexplained light phenomenon, and that a local cult nearby has significant interest in the site. Tempe's suspicions turn to murder by ritual sacrifice—a theory that gains even more urgency when Hazel herself turns up dead. Struggling to follow the tracks of a killer who will do anything not to be discovered, Tempe races to solve the murders and unravel the mysteries surrounding the site before the body count climbs higher. A suspenseful addition to Temperance Brennan's story, Speaking in Bones proves that Kathy's pulse-pounding Bones series never slows down.

Temperance "Tempe" Brennan faces down the demons of her past in the seventeenth thriller in Kathy Reichs's phenomenally successful Bones series. Unexpectedly called in to the Charlotte PD's Cold Case Unit, Dr. Temperance Brennan wonders why she's been asked to meet with a homicide cop who's a long way from his own jurisdiction. The shocking answer: Two child murders, separated by thousands of miles, have one thing in common—the killer. Years ago, Anique Pomerleau kidnapped and murdered a string of girls in Canada, then narrowly eluded capture. It was a devastating defeat for her pursuers, Brennan and police detective Andrew Ryan. Now, as if summoned from their nightmares, Pomerleau has resurfaced in the United States, linked to victims in Vermont and North Carolina. When another child is snatched, the reign of terror promises to continue—unless Brennan can rise to the challenge and make good on her second chance to stop a psychopath. But Brennan will have to draw her bitter ex-partner out of exile, keep the local police and feds from one another's throats, and face more than just her own demons as she stalks the deadliest of predators into the darkest depths of madness. In Bones Never Lie, Kathy Reichs once again satisfies readers looking for psychological suspense that's more than skin-deep.

Body of Evidence

hidden stories in what we leave behind (Temperance Brennan 8)

An e-novella by #1 New York Times bestselling author Kathy Reichs that explores the origins of her vastly popular character, forensic anthropologist Temperance Brennan. In 1980s Charlotte, North Carolina, Temperance Brennan is newly employed as a bioarchaeologist, studying the bones of the ancient dead. But a strange opportunity presents itself when two detectives appear at her lab, seeking consultation on a recently burned body. As a murder investigation unfolds, Temperance finds that there is another deadly threat at work. In the twelfth novel from #1 New York Times bestselling author Kathy Reichs, forensic anthropologist Temperance Brennan finds herself buried alive after being accused of mishandling the autopsy of a Canadian heirus. There are 206 bones in the human body. Forensic anthropologists know them intimately, and can use them to recreate every kind of violent end. Tempe wakes up to discover that she is enclosed in a kind of very small, very cold space. She is bound, hands to feet, and there 's something wrong with her ankle. Unsure of where she is, Tempe slowly begins to work out what has happened. When the body of a missing heiress was discovered, Temperance Brennan and Lieutenant Ryan accompanied the remains from Montreal to the Chicago morgue. Their trip was soon interrupted when an incriminating phone call accused Tempe of mishandling the autopsy—and the case. But before Tempe could face her accuser, the one man with information about the call died, and Tempe was left in the dark. As the facts slowly slot into place, Tempe wonders who wants her dead, or at least out of the way, and why? Pulse-pounding, electrifying, and seamlessly weaving between past and present, 206 Bones describes the incredible devastation that occurs when forensic evidence is sabotaged in the lab.

#1 New York Times bestseller! From extremist groups to NASCAR to forensic twists, Temperance Brennan is back in a turbo-charged story of secrets and murder. A body is found in a barrel of asphalt in a landfill just before Raceweek when 200,000 fans are pouring into town. The next day a NASCAR crewmember visits Temperance Brennan at the MCME and tells his story. His sister, Cyndi Gamble, then a high school senior who wanted to be a NASCAR driver, disappeared twelve years before along with her boyfriend, Cale Lovette. Lovette used to hang out with a group of right-wing extremists known as the Patriot Posse. Is the body Cyndi' s? Or Cale' s? At the time of their disappearance, the FBI joined the investigation because of Cale' s association with extremists. But the search was quickly terminated. Was there a cover-up? Tempe considers the multiple theories: did the pair take off together to join the underground militia and then get killed by militia types? Did Cale kill Cyndi and disappear into the militia underground? The case gets more complex when another man, Ted Raines, is identified as missing in Charlotte, where he had gone for the big race. Ted was an employee of the CDC in Atlantic. Could the body be his? What could Raines—if it is Raines—have been up to?

#1 New York Times bestselling author Kathy Reichs returns with her twenty-first novel of suspense featuring forensic anthropologist Temperance Brennan who, after receiving a box with a human eyeball in it, uncovers a series of gruesome killings eerily reenacting the most shocking of her prior cases. Winter has come to North Carolina and, with it, a drop in crime. For a while, temporarily idle forensic anthropologist Tempe Brennan is content to dote on her daughter Katy, finally returned to civilian life from the army. But when mother and daughter meet at Tempe' s place one night for dinner, they find a box on the back porch. Inside: a very fresh human eyeball. GPS coordinates etched into the eyeball lead to a Benedictine Monastery where an equally macabre discovery awaits. Soon after, Tempe examines a mummified corpse in a state park, and her anxiety deepens. There seems to be no pattern to these random killings, except that each mimics in some way a killing that a younger Tempe witnessed, analyzed, or barely escaped. Who or what is targeting her, and why? Helping Tempe discover the answers is detective Erskine "Skinny" Slidell, retired but still volunteering with the CMPD cold case unit—and still displaying his gallows humor. As the two penetrate a bizarre survivalist' s lair, even Skinny' s mood darkens. And then Tempe' s daughter Katy disappears. At its core, Cold, Cold Bones is a novel of revenge and why revisiting the past may be the only way to rescue the present.

Dr Kathy Reichs is a professional forensic anthropologist. She has worked for decades with chief medical examiners, the FBI, and even a United Nations Tribunal on Genocide. However, she is best known for her internationally bestselling Temperance Brennan novels, which draw on her remarkable experience to create the most vividly authentic, true-to-life crime thrillers on the market and which are the inspiration for the hit TV series Bones. _____ Many of the world's greatest thriller writers are huge fans of her work: 'Kathy Reichs writes smart - no, make that brilliant - mysteries that are as realistic as nonfiction and as fast-paced as the best thrillers about Jack Reacher, or Alex Cross.' JAMES PATTERSON 'One of my favourite writers.' KARIN SLAUGHTER 'I love Kathy Reichs' - always scary, always suspenseful, and I always learn something.' LEE CHILD 'Nobody does forensics thrillers like Kathy Reichs. She's the real deal.' DAVID BALDACC'I 'Each book in Kathy Reichs's fantastic Temperance Brennan series is better than the last. They're filled with riveting twists and turns - and no matter how many books she writes, I just can't get enough!' LISA SCOTTLINE

'Nobody writes a more imaginative thriller than Kathy Reichs.' CLIVE CUSSLER

In this "heart-stopping" (Publishers Weekly) page-turner from New York Times bestselling author J.A. Janze, Ali Reynolds finds herself working against the police to clear two innocent names. Former reporter Ali Reynolds finds herself working with the police to add a clue that connect one frightened teenager, two dead bodies, and \$300,000...with the body count rising. Hired to investigate the grisly murder of a gold-digging divorcee on behalf of the woman accused of the crime, Ali Reynolds is immediately drawn to the case of the secretive teenager who found the body. A. J. Sanders was in the Camp Verde desert to retrieve a mystery box buried by his absent father—a box that turns out to be filled with hundreds of thousands of dollars' worth of poker chips. When a second body is found in the desert, it seems the three cases are more closely related than Cooper could have imagined. Though Ali's friends in the police department grow increasingly irritated by her involvement, Ali must stop a ruthless killer from claiming another victim...before she is lost in this game of deadly stakes. Ever since Tory Brennan and her friends rescued Anoyer, a kidnapped wolf pup with a rare strain of canine parvovirus, they've turned from regular kids into a crime-solving pack! But now the very place that brought them together - the Loggerhead Island Research Institute - is out of funding and will have to shut down. That is, unless the Virals can figure out a way to save it!

#1 New York Times bestselling author Kathy Reichs returns with her twentieth gripping novel featuring forensic anthropologist Temperance Brennan, whose examinations of unidentified bodies ignite a terrifying series of events. "This is A-game Reichs, with crisp prose, sharp dialogue, and plenty of suspense" (Booklist). On the way to hurricane-ravaged Isle of Palms, a barrier island off the South Carolina coast, Tempe receives a call from the Charleston coroner. The storm has tossed ashore a medical waste container. Inside are two decomposed bodies wrapped in plastic sheeting and bound with electrical wire. Tempe recognizes many of the details as identical to those of an unsolved case she handled in Quebec fifteen years earlier. With a growing sense of foreboding, she travels to Montreal to gather evidence. Many health authorities in South Carolina became increasingly alarmed as a human flesh-eating contagion spreads. So focused is Tempe on identifying the container victims that, initially, she doesn't register how their murders and the pestilence may be related. But she does recognize one unsettling fact: Someone is protecting a dark secret—and willing to do anything to keep it hidden. An absorbing look at the sinister uses to which genetics can be put and featuring a cascade of ever-more-shocking revelations, The Bone Code is "a murder mystery story that races across America at the speed of light" (James Patterson).

Death Du Jour

The latest from Kathy Reichs finds Tempe Brennan investigating the connections between a long-dead business man, the smuggling of mummified dogs from Peru, and the death of a teenage girl killed in a hit and run. When she discovers a human trafficking enterprise at the center of it all, the scope of the case extends from South America to Afghanistan. And Tempe's soon-to-be ex might have connections that run to the very heart of the trafficking ring--

A new, exclusive straight-to-digital Temperance Brennan short story from Kathy Reichs, world leading forensic anthropologist and No. 1 bestselling author of Déjà Dead, Bones of the Lost and Bones Never Lie. The daughter of a wealthy and influential Charleston family has been missing on Mt Everest for three years. Presumed dead, her remains had been irretrievable until an earthquake caused her body to move down the mountain. The family want only one person to identify her remains: Tempe Brennan. Though reluctant to take the case, Tempe soon realises that the girl did not die of natural causes. It seems the victim was murdered and all her fellow climbers fall under suspicion. But which one is the killer? And if Tempe gets too close to the truth, will they kill again? Also gives readers the first chance to read the opening chapters of Kathy's highly anticipated new Temperance Brennan novel, Speaking in Bones, out in July.

#1 New York Times bestselling author and producer of the Fox hit series Bones, Kathy Reichs returns with an unforgettable new novel featuring forensic anthropologist Tempe Brennan, whose examination of a mysterious hit-and-run victim triggers an investigation into human trafficking. When Charlotte police discover the body of a teenage girl along a desolate stretch of two-lane highway, Temperance Brennan fears the worst. The girl's body shows signs of foul play. Inside her purse, police find an airline club card bearing the name of prominent local businessman John-Henry Story, who died in a horrific fire months earlier. How did Story and the girl know each other? Was she an illegal immigrant turning tricks? Was she murdered? Was he? Tempe must also contend with the on-again off-again antics of her ex-boyfriend, Detective Rick Rockwell, who's been accused of smuggling the objects into the country. Could there be some connection between the trafficking of antiquities and the trafficking of humans? As the complications pile on, Tempe must also grapple with personal turmoil. Her daughter, Katy, grieving the death of her boyfriend in Afghanistan, impulsively enlists in the army. Meanwhile, Katy's father, Pete, is growing frustrated by Tempe's reluctance to finalize their divorce. As pressure mounts from all corners, Tempe soon finds herself at the center of a conspiracy that extends all the way from South America to Afghanistan and right to the center of Charlotte. A tour de force of imagination, Bones of the Lost is a roller coaster of plot twists, punctuated by Tempe's fierce wit and forensic know-how. "A genius at building suspense" (New York Daily News), Kathy Reichs is at her brilliant best in this sixteenth installment of the Temperance Brennan series. With the Fox series Bones in its ninth season, Kathy Reichs has reached new heights in suspenseful storytelling.
