**On 14 February 2004 Marco Pantani was found dead in a hotel room in Rimini. The 34-year-old climbing specialist, nicknamed 'The Pirate', was a Tour de France and Giro d'Italia champion, but his career was blighted by doping allegations after he was thrown out of the 1999 Giro d'Italia for failing a blood test. In the last months of his life he kept extensive notes for a book that would have told his story. Pantani was the first Italian to win the Tour de France, cycling's premier race, since Felice Gimondi in 1965. He was the last man to win the Tour before Lance Armstrong embarked on a record-equalling five straight victories. But Pantani's career went into free-fall when he was ejected from the 1999 Giro while in the lead after failing a test for haematocrit - an indicator, though not proof, of the use of performance-enhancing drugs. Scandal followed Pantani, and during the 2001 Giro a syringe containing traces of insulin was found in his hotel room in a police raid. Pantani insisted the syringe had been planted and that he did not stay in the room on the night in question. A court dismissed his claim for lack of proof, and he was suspended for six months but later acquitted of sporting fraud in October 2003. Thanks to her close rapport with Pantini's family, Manuela Ronchi has been able to tie together the loose ends of his story to loyally reconstruct the life of the champion. From his childhood discovery of cycling to the triumphs, losses and scandal that accompanied one of the few sporting personallities capable of inspiring in his fans a passion for cycling, here, for the first time, is the full, intimate, authentic and personal story of Pantani's remarkable career.**

*Winner - Edward Stanford Travel Memoir of the Year 2019. Shortlisted - Rathbones Folio Prize, Royal Society of Literature Ondaatje Prize, and Somerset Maugham Award 2019. 'An extraordinary travelogue, strange and brilliant' - i In 2013 Guy Stagg walked from Canterbury to Jerusalem. Though a non-believer, he began the pilgrimage after suffering several years of mental illness, hoping the ritual would heal him. For ten months he hiked alone on ancient paths, crossing ten countries and more than 5,500 kilometres. Travelling without support, he had to rely each night on the charity of strangers. The Crossway is an account of Stagg's extraordinary journey. It describes the dangers he faced on the road, captures the people he met and the landscapes he experienced, offers a unique insight into contemporary faith, and – most movingly – lays bare his struggle to escape the past and walk towards recovery. It was a BBC Radio 4 'Book of the Week' on publication.*

**For tens of millions of people around the world, a single name evokes the world of speed – Enzo Ferrari. Today's Formula One would be unthinkable without the presence of the Ferrari cars on the grid. Win or lose, Ferrari attract more fans than all the other teams combined. And the cars unique appeal – their mystique, their myth – has its origins in the story of one man with a dictator's will and the cunning of a Machiavelli. Going back to the origins of "The Old Man", tracing his remarkable rise to prominence, and using sources which have hitherto remained silent, Richard Williams tells the story of a man who was one of the key figures of sport in the twentieth century, and whose influence over his sport is undiminished today, more than a decade after his death.**

**This edited collection examines the formation of urban networks and role of gateways in Europe from the Middle Ages to the modern world. In the past, gateway cities were merely perceived as transport points, only relevant to maritime shipping. Today they are seen as the organic entities coordinating the allocation of resources and supporting the growth, efficiency and sustainability of logistics (including both the transport and distribution of goods and services). Using different historical case studies, the authors consider how logistics shaped urban networks and were shaped by them. Representations of political power play an important role in Western art history from the late Middle Ages up to modern times. This volume by leading experts is a wide-ranging survey of significant trends in the development of political imagery. A Companion to Medieval and Renaissance Bologna offers a broad panorama of essays that illuminate the distinctive features of the city and its transition from independent medieval commune to second largest city of the Renaissance Papal State.--**

WHY THIS GUIDE I have written this guide for everyone who loves the history of art and the surroundings of Tabiano Castello, the land where I was born and raised. It is not meant to be comprehensive, but a personal choice, the fruit of memories of places that have stirred my emotions and which I have a strong desire to share: the castles, villages, churches and abbeys that fill this landscape from the Apennine and valleys to the plain and its great cities of Parma and Piacenza. I have devised 12 itineraries, each starting at Antico Borgo di Tabiano Castello. Some are longer than others and some of them have alternative routes and destinations. They can be followed in part or whole, starting at the end and finishing at the beginning. They can be followed by car or, with the nearer ones, by bicycle and even horseback. The book is an invitation for tourists and guests at Antico Borgo di Tabiano Castello, as well as those staying at Tabiano Bagni and Salsomaggiore Terme, to discover these treasures, both large and small, each set within its history and landscape. The 13th Century guard tower . GIACOMO CORAZZA, is an economist and farmer. His work combines personal experience of farming his own estates, with the understanding of the larger economic problems facing the agricultural sector. He has written numerous books and articles on the structure and methods of the agricultural business, the nature of the politico-agricultural community, and the liberalisation of international trade. He has published all by Gangemi Editore: " Tabiano Castello: the world of yesterday " , " The Castle of Tabiano: a thousand years of history, legend and mystery " , " Giacomo Corazza: the man and the building of Salsomaggiore at the end of the 19th century " . ROBERT CANNON is an academic specialising in the history of theatre and opera. His book The Cambridge Introduction to Opera came out in 2012. Currently he runs a series of seminars on Moral and Political Philosophy and The Aesthetics of Poetry. He has previously translated Euripides, Sophocles, Goldoni, Leopardi and Brecht. " I am ashamed to say that I found this extraordinarily rich area by accident. Ashamed, because my wife and I have been coming to Italy many years since 1972. In 2013 we had gone to Modena, but the art gallery was closed because of an earthquake. So – we went into Parma and had a marvellous time. We wanted also to supplement it with something local. In our hotel I found a small book which a third of it was devoted to the small towns and villages of the Province. It was a real eye-opener, and we decided to stay in the area and explore further the following year. After patient searching, we found the medieval Borgo of Tabiano. We booked. It was a paradise, itself a wonderful historic location. They also had a copy of this book, written by a member of the family that owns the borgo and its castle. This was an epiphany. The author revealed

the less known history and artistic treasures of Parma ' s surroundings castles, its small medieval churches (pievi) with sculptures and frescoes that they preserve in all their intensity, simplicity and harmony. " Robert Cannon, 2014

"The architecture and urban history of Bologna approached through the imagery of civic institutions and their transformation from the medieval city-state to the Renaissance."--Publisher's website.

This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe, from the 6th century to the early 16th century. Drawing upon the expansive scholarship in the celebrated 'Grove Dictionary of Art' and adding hundreds of new entries, it offers students, researchers and the general public a reliable, up-to-date, and convenient resource covering this field of major importance in the development of Western history and international art and architecture.

Enlightening Encounters traces the impact of photograpy on Italian literature from the medium's invention in 1839 to the present day. Investigating the ways in which Italian literature has responded to photographic practice and aesthetics, the contributors use a wide range of theoretical perspectives to examine a variety of canonical and non-canonical authors and a broad selection of literary genres, including fiction, autobiography, photo-texts, and migration literature. The first collection in English to focus on photography's reciprocal relationship to Italian literature, Enlightenment Encounters represents an important resource for a number of fields, including Italian studies, literary studies, visual studies, and cultural studies.
