Zombie Apocalypse!

Devolution

**Zombies.** The outbreak began in New York. Soon it had spread to the rest of the world. People were attacked, infected, and they died. Then they came back. No one is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The British press was nationalised. Martial law, curfews and rationing were implemented. It wasn't enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. Bill Wright, a Westminster insider and an advisor to a future Prime Minister, broke his leg on the day of the outbreak. Unable to join the evacuation, he watched from his window as the streets filled with refugees. He watched as the streets emptied once more. He watched as they filled up again, this time with the undead. Then the power went out. He is trapped. He is alone. He is running out of food and water. He knows that to reach the safety of the enclaves he will have to venture out into the wasteland that once was England. On that journey he will ultimately discover the horrific truth about the outbreak, a decades old conspiracy, and his unwitting part in it. This is the first volume of his journal. (73,000 words)

\*\*\*New York Times bestseller!\*\*\* 'A masterpiece . . . There cannot be a more relevant novel for our moment, certainly not one with such beauty of description, depth of feeling, and, as always, humour.'-Andrew Sean Greer, Pulitzer Prize-winning author of *Less It's March 2020* and a calamity is unfolding. A group of friends and friends-of-friends gathers in a country house to wait out the pandemic. Over the next six months, new friendships and romances will take hold, while old betrayals will emerge, forcing each character to reevaluate whom they love and what matters most. The unlikely cast of characters includes a Russian-born novelist; his Russian-born psychiatrist wife; their precocious child obsessed with K-pop; a struggling Indian American writer; a wildly successful Korean American app developer; a global dandy with three passports; a Southern flamethrower of an essayist; and a movie star, the Actor, whose arrival upsets the equilibrium of this chosen family. Both elegiac and very, very funny, *Our Country Friends* is the most ambitious book yet by the author of the beloved bestseller *Super Sad True Love Story*.

After a tragic car accident shatters her body and mind, Cassandra struggles to piece together her life as a respected psychiatrist and devoted mother. But the accident has changed her. Her eyes have been opened to horrors she never knew existed. Is her family really under attack, or is it all in her mind? While Cassandra tries to prove the feeling of being stalked, her police-investigator husband, Daniel, hunts a killer of his own. As both the body count and Cassandra's hysteria rise, Daniel becomes obsessed with the case and suspicious of Cassandra's part in it. Afraid of losing her increasingly fragile grip on reality, Cassandra plunges into a search for answers that may come at the cost of her sanity. Racing to a shattering confrontation with an evil she can barely comprehend, Cassandra must decide: How far will she go, what darkness will she embrace, to save those she loves?

Jason wakes up in a mysterious world of magic and monsters. It's not easy making the career jump from office-supplies-store middle manager to heroic interdimensional adventurer. At least, Jason tries to be heroic, but it's hard to be good when all your powers are evil. He'll face off against cannibals, cultists, wizards, monsters...and that's just on the first day. He's going to need courage, he's going to need wit, and he's going to need some magic powers of his own. But first, he's going to need pants. After cementing itself as one of the best-rated serial novels on Royal Road with an astonishing 13 million views, He Who Fights with Monsters is now available on Kindle. It's perfect for fans of Pirate Aba, Dakota Krout, and Luke Chmilenko.

**February, 2031: The global population now stands at an estimated 400 million, and every survivor bears the scars of humanity's decade-long struggle to defeat an enemy few believed could exist. Some nations have emerged from the war stronger than ever. Others still struggle to survive. Some no longer exist at all. In the aftermath of the zombie pandemic Keith Taylor, noted pre-war author of apocalyptic fiction, traveled the world to gather the first hand accounts of survivors from every walk of life, culture and strata of society, ranging from American political leaders to British journalists to Mongolian miners to members of India's homeless underclass. Together these chilling interviews describe the course of humanity's most brutal war, leading from the initial emergence of the virus in the Siberian wilderness to the visceral, heart-rending Shibuya footage, through the confusion of the US President's impeachment to the unintended and disastrous consequences of the UN's sweeping refugee amendment, and ending with us battered and broken, diminished but not defeated, in the fragile peace we now enjoy. Together these accounts represent the most illuminating and complete commentary to date of humanity's loss. From these candid interviews emerges an image of early 21st century civilization as it truly was: imperfect, fragmented and wholly unprepared for a disaster on such a scale. This is the way the world ends takes an unflinching, uncompromising look at the world we had and lost; a look at the pain we suffered due to our inability to accept a single, simple truth: *Zombies are real*. Note: Readers who lived through the pandemic may find the interviews contained within this collection distressing. Discretion is advised.**

Recently voted the greatest fantasy of all time, after *The Lord of the Rings* and *The Hobbit*, Gene Wolfe's *The Book of the New Sun* is an extraordinary epic, set a million years in the future, on an Earth transformed in mysterious and wondrous ways, in a time when our present culture is no longer even a memory. Severian, the central character, is a torturer, exiled from his guild after falling in love with one of his victims, and journeying to the distant city of Thrax, armed with his ancient executioner's sword, *Terminus Est*. This edition contains the second two volumes of this four volume novel, *The Sword of the Lictor* and *The Citadel of the Autarch*.

Reporter Kate Kilroy accepts an assignment to travel on the *Valkyrie*, a German ship veiled in secrecy for decades after it was discovered adrift in 1939 with only one passenger aboard, a baby boy named Isaac Feldman. Obsessed with understanding his origins, Feldman has spent a small fortune restoring the *Valkyrie* to try to solve the mystery. Assembling a team of experts and sparing no expense, he aims to precisely recreate the circumstances of the *Valkyrie*'s doomed final voyage. Little does Feldman or his team know that the ship has an agenda of its own. As the *Valkyrie* begins to weave its deadly web, Kate realizes that she must not only save herself, but the world as she knows it.

Cannibal Reign

The Zombie Survival Guide

An account of the decade-long conflict between humankind and hordes of the predatory undead is told from the perspective of dozens of survivors who describe in their own words the epic human battle for survival.

A new star bursts onto the post-apocalyptic fiction scene: Thomas Koloniar. An epic dark saga set in a dystopian near-future, Cannibal Reign follows the fortunes of a small band of survivors, as they make their way across a nightmare landscape populated by bestial, flesh-eating savages after an asteroid strike destroys America. A dark, smart, action-packed vision of a terrifying possible tomorrow—when the only law left is “eat or be eaten”—Koloniar’s Cannibal Reign is an absolute must-read for fans of TV’s zombie smash hit *The Walking Dead*, Cormac McCarthy’s *The Road*, *Lucifer’s Hammer*, the *Mad Max* movies, and, of course, Stephen King’s immortal horror masterwork *The Stand*.

When the zombie apocalypse comes, it's not just those crusty old folks who will struggle against the undead, it's the young people. What happens when you come of age during the zombie apocalypse? *Z: Zombie Stories* has the answer to that question. *Z: Zombie Stories* gathers together some of the hottest zombie fiction of the last two decades, from authors including Kelly Link, Jonathan Maberry, and Catherynne M. Valente. These stories focus on those who will inherit a world overrun with the living dead: a young man who takes up the family business of dealing with the undead, a girl struggling with her abusive father...who has become a zombie, a poet who digs up the wrong grave, and a Viking maiden imprisoned with the living dead... Day by Day Armageddon: Shattered Hourglass

Complete Protection from the Living Dead

*May 16th. 1201 hrs. We are now under siege. Beyond the silo access doors, we have a small army of beaten and battered undead to contend with. They only want one thing... Day by Day Armageddon is the handwritten journal of one man and his struggle for survival. Trapped in the midst of global disaster, he must make decisions that could mean life, or which could condemn him eternally to walk as one of them. Enter, if you dare, into his world. The world of the undead.*

*As the ash and chaos from Mount Rainier's eruption swirled and finally settled, the story of the Greenloop massacre has passed unnoticed, unexamined . . . until now. But the journals of resident Kate Holland, recovered from the town's bloody wreckage, capture a tale too harrowing - and too earth-shattering in its implications - to be forgotten. In these pages, Max Brooks brings Kate's extraordinary account to light for the first time, faithfully reproducing her words alongside his own extensive investigations into the massacre and the beasts behind it, once thought legendary but now known to be terrifyingly real. Kate's is a tale of unexpected strength and resilience, of humanity's defiance in the face of a terrible predator's gaze, and inevitably, of savagery and death. Yet it is also far more than that. Because if what Kate Holland saw in those days is real, then we must accept the impossible. We must accept that the creature known as Bigfoot walks among us - and that it is a beast of terrible strength and ferocity. Part survival narrative, part bloody horror tale, part scientific journey into the boundaries between truth and fiction, this is a Bigfoot story as only Max Brooks could chronicle it - and like none you've ever read before.*

*New York Times-bestseller Alison Goodman's critically acclaimed Regency adventure starring a stylish and intrepid demon-hunter! London, April 1812. On the eve of 18-year-old Lady Helen Wrexhall's presentation to the Queen, one of her family's housemaids disappears--and Helen is drawn into the shadows of Regency London. There, she meets Lord Carlston, one of the few who can stop the perpetrators: a cabal of demons infiltrating every level of society. Dare she ask for his help, when his reputation is almost as black as his lingering eyes? And will her intelligence and headstrong curiosity wind up leading them into a death trap?*

*Survival is just the beginning... As if living in a zombie-infested world wasn't bad enough, Dr. Tara Lee and her companions reach Fort Detrick only to discover that for some betrayal is second nature. Having thwarted Lieutenant King's attempted coup, they believe the worst is finally behind them. They couldn't be more wrong. Danger lurks in the shadows. Biding his time, Lieutenant King launches an audacious attack abducting Tara and Amy, and leaving Alex on the brink of death. Captured and isolated from friends and family, Tara and Amy have only each other to rely on. Can they escape and find their way back home? Or will they become pawns in a struggle for power? Book 4 of a thrilling new post-apocalyptic series, Apocalypse Z. Hold on to your seat because this is going to be one hell of a ride! Grab your copy now!*

*A "mosaic novel" set in the near-future, when a desperate and ever-more controlling UK government decides to restore a sense of national pride with a New Festival of Britain. However, controversial plans to build on the site of an old church in South London releases a centuries-old plague that turns its victims into flesh-hungry ghouls whose bite or scratch passes the contagion on to others. Even worse, the virus may also have a supernatural origin with the power to revive the dead. Despite the attempts of the police, the military and those in power to understand and contain the infection commonly referred to as "The Death", it soon sweeps across London, transforming everyone who comes*

into contact with it. With the city - and the country - falling into chaos, even a drastic attempt at a "Final Solution" to eradicate the outbreak at its source fails to prevent it from spreading to Europe and then quickly throughout the rest of the world. Soon there is no more news coming out of Britain . . . and it is up to those survivors in other countries to confront the flesh-eating invaders within their midst. Will humanity triumph over a world-wide zombie plague, or will the walking dead ultimately inherit the Earth? Told through various disparate and overlapping eye-witness accounts, through texts, e-mails, blogs, letters, diaries, transcripts, official reports and other forms of communication, a picture builds up of a world plunged into chaos - where the dead attack the living, and only one of them can be the ultimate victor. Written by some of the biggest and best-known names in horror and science fiction, these interconnected narratives create a unique vision of the End of the World brought about by a plague that may have its origins in both science and the occult.
