

Edexcel AS/A Level Business 5th Edition Student Book And ActiveBook

Surridge and Gillespie's bestselling AQA textbooks brought together in one updated volume covering the whole of AQA A-level Business. - This textbook's content matches the specification in Surridge and Gillespie's accessible style - Engages students with updated case studies of real companies, helping students see how business concepts and theories relate to the real world - Gives students the opportunity to build the skills they need for assessment with practice questions throughout - Helps students to build up their quantitative and analytical skills, with opportunities to analyse data - Supports student revision with new end-of-unit recap sections - Helps you cut down your preparation and marking time with an accompanying Answer Guide* * The accompanying Answer Guide has not been through the AQA approval process

This user-friendly guide features examples of student writing and exercises throughout and will help you to develop your academic writing skills so you can achieve the best possible marks. This engaging guide will equip students who are non-native speakers of English with the tools and confidence to respond effectively and appropriately to written assignments at university. It supports students in the development of essential writing skills, such as structuring paragraphs and building an argument, and provides practical guidance on adhering to the conventions of academic writing. It guides students systematically through a series of text analyses which bring out key linguistic and rhetorical features, making complex textual issues manageable and understandable for learners of all abilities. This is an ideal self-study aid for non-native English speakers, both on pre-sessional language courses and on degree programmes, who need to get to grips with the conventions of academic writing.

This student book is accompanied by an ActiveBook (a digital version of the student book) and covers both the AS and A level courses for the Edexcel business specification from 2015. The student book contains clear signposted links and support for quantitative skills, synoptical, evaluative, and analytical skills to help you develop your conceptual understanding of each topic.

This textbook provides a comprehensive account of psychology for all those with little or no previous knowledge of the subject. It covers the main areas of psychology, including social psychology, developmental psychology, cognitive psychology, personality, intelligence, and biological psychology.; Each chapter contains definitions of key terms, together with several multiple-choice questions and answers, and semi- structured essay questions. In addition, every chapter contains a "Personal Viewpoint" section, which encourages the reader to compare his or her views on psychology with the relevant findings of psychologists. The last chapter is devoted to study skills, and provides numerous practical hints for readers who want to study more effectively.

Endorsed by Cambridge International Examinations for the latest syllabus, this new edition of the the market-leading text provides a true international perspective. This title has been endorsed by Cambridge International Examinations for the latest Cambridge IGCSE (0450) and Cambridge O Level Business Studies (7115) syllabuses. - Offers an international perspective through a wide range of up-to-date case studies - Reinforces understanding through a variety of activities and discussion points - Provides examination preparation with revisions questions and summaries throughout - Written in accessible language, but with plenty of detail for top-grade students

The first section, Content Guidance, summarises content needed for the exams, with knowledge-check questions throughout. The second section, Questions and Answers, provides samples of different questions and student answers with examples of how many marks are available for each question. Students can: - Identify key content for the exams with our concise summary of topics - Find out what examiners are looking for with our Questions and Answers section - Test their knowledge with rapid-fire questions and answers - Avoid common pitfalls with clear definitions and exam tips throughout - Reinforce their learning with bullet-list summaries at the end of each section

In this provocative book, one of our most eminent political scientists questions the extent to which the American Constitution furthers democratic goals. Robert Dahl reveals the Constitution's potentially antidemocratic elements and explains why they are there, compares the American constitutional system to other democratic systems, and explores how we might alter our political system to achieve greater equality among citizens. In a new chapter for this second edition, he shows how increasing differences in state populations revealed by the Census of 2000 have further increased the veto power over constitutional amendments held by a tiny minority of Americans. He then explores the prospects for changing some important political practices that are not prescribed by the written Constitution, though most Americans may assume them to be so.
