George Meredith, 1828-1909, was an English novelist and poet of the Victorian era. This book is of particular interest to scholars interested in his early life, his relationships with his friends, his marriages, and of his work as a journalist. Discussions of his literary output are viewed partially through those relationships, which can be seen as "chatter about Harriet," the book is, nevertheless, replete with quotations from people who knew him during all the phases of his life.

Best known as the author of Heart of Darkness (1899), Joseph Conrad (1857-1924) is one of the most widely taught writers in the English language. In addition to his novels, he wrote several pieces of short fiction, essays, and memoirs. He also wrote numerous letters, which help shed light on his troubled life and career. This reference book is a thorough guide to the entire body of his writings and to the experiences that helped generate them. A biographical chapter discusses research on Conrad's life and tells the story of his

birth in a Ukrainian area of Poland under Czarist Russian rule, his sea career in France and England, his travels throughout Asia, South America, and Africa, and his maturation as a writer. The chapters that follow are written by expert contributors and explore each of his major works in detail. Other chapters explore his voluminous correspondence, his later novels, his short fiction, and other writings. Thus the volume provides those new to Conrad with essential biographical, bibliographical, and contextual information, while it simultaneously offers experienced readers of Conrad new critical perspectives.

This volume collects together all eight novels from The Rag & Bones Vampire Series. Trapped Not every night is filled with the kind of danger that can get you killed, but the night that Rag comes across a mysterious young woman who is being chased by a group of equally young vampires, certainly has potential.
