“A thrilling story of seduction, betrayal, and loss, Freud’s Mistress will titillate fans of Memoirs of a Geisha and The Other Boleyn Girl.”—Booklist
In fin-de-siècle Vienna, it was not easy for a woman to find fulfillment both intellectually and sexually. But many believe that Minna Bernays was able to find both with one man—her brother-in-law, Sigmund Freud. At once a portrait of two sisters—the rebellious, independent Minna and her inhibited sister, Martha—and of the compelling and controversial doctor who would be revered as one of the twentieth century’s greatest thinkers, Freud’s Mistress is a novel rich with passion and historical detail and “a portrait of forbidden desire [with] a thought-provoking central question: How far are you willing to go to be happy??”\*

A story of revenge and salvation that follows a young woman who seeks the truth behind her father’s disappearance, Soul of the Border is the first novel in a trilogy set between Italy and the Austro-Hungarian Empire in the late nineteenth century. Every year, Augusto De Boer undertakes a treacherous journey through the Italian Alps, smuggling tobacco across the border to Austria. With conditions getting harsher, he decides to take his fifteen-year-old daughter Jole along with him, teaching her how to navigate the perilous crags and valleys while avoiding hostile customs officers and nocturnal beasts. Three years later, Jole must retrace their steps alone as her father has not returned from the border. With only her horse for company, she makes her way across the stark mountain landscape in an epic journey of violence and corruption. Amelia Kurt was different. And she knew it. That didn’t stop her from loving her best friend, Annabelle Johnson. They spent an entire summer making love, and growing into what was promising to be the only relationship either ever knew. Then, one day, the unexpected happens. Anna disappears. No reason, no forwarding address, no number. She was simply gone. Eleven years later, Anna returns. Her truth is heartbreaking but it’s only the beginning of their journey to recovery.

Dalla natura alla tavola. Buoni da mangiare: erbe e frutti selvatici delle vallate dei Nebrodi

As Spain colonized the Americas during the sixteenth century, Spanish soldiers, bureaucrats, merchants, adventurers, physicians, ship pilots, and friars explored the natural world, gathered data, drew maps, and sent home specimens of America’s vast resources of animals, plants, and minerals. This amassing of empirical knowledge about Spain’s American possessions had two far-reaching effects. It overturned the medieval understanding of nature derived from Classical texts and helped initiate the modern scientific revolution. And it allowed Spain to commodify and control the natural resources upon which it built its American empire. In this book, Antonio Barrera-Osorio investigates how Spain’s need for accurate information about its American colonies gave rise to empirical scientific practices and their institutionalization, which, he asserts, was Spain’s chief contribution to the early scientific revolution. He also conclusively links empiricism to empire-building as he focuses on five areas of Spanish activity in America: the search for commodities in, and the ecological transformation of, the New World; the institutionalization of navigational and information-gathering practices at the Spanish Casa de la Contratación (House of Trade); the development of instruments and technologies for exploiting the natural resources of the Americas; the use of reports and questionnaires for gathering information; and the writing of natural histories about the Americas.

During the Renaissance beauty products and herbal medicines were made in the workshops of monasteries, still rooms of homes large and small, or by alchemists in their storefronts. These arts were part of traditions handed down from Arab, Roman, Greek, and Turkish cultures. Every family had its own book of secrets (Libretti di Secreti, Tesori, Tesoretti) where they recorded successful iterations of their personal recipes for cosmetics, medicines, and household products such as dyes, candles, pesticides, etc. One example of this type of book is Caterina Sforza’s alchemical, medical experiment, and recipe collection titled "Gli Experimenti de la Ex.ma S.r Caterina da Furlj Matre de lo inlux.mo S.r Giouanni de Medici", or "Gli Experimenti". In this book Gigi Coulson has translated 24 of Caterina’s beauty recipes into modern English for the benefit of those wanting to try their hand at creating them in their own still rooms.

AFTERLIFE SAGA, Book 5

*Quest'opera di Maffioli, è testimonianza d'amore per questa nobile terra, e soprattutto un punto di riferimento autorevole e ineguagliabile, la cui importanza può essere colta da ognuno quando si pensi che Treviso e la sua Marca sono divenute la città e la provincia gastronomicamente al primo posto in Italia. Il volume illumina, attraverso rapidi excursus storici, personali memorie di tempi più vicini e una ricchissima proposta di ricette remote e attuali (sono ben 850), un aspetto non trascurabile della civiltà di questa terra, che ha saputo usare con amore, intelligenza e continua creatività le risorse di una natura ricca, varia e amabile come quella trevigiana.*

*The lord of snark, Lawrence Dorfman, is back! With this treasury of backhanded compliments, sarcastic insults, and catty comebacks, Dorfman gives us transformative wisdom that’s sure to change your life—or at least induce a light chuckle. One question plagues us all: How do we survive all the Sturm und Drang of everyday life? The answer is but one word: snark. “She wears her clothes as if they were thrown on by a pitchfork.” —Jonathan Swift “Why don’t you get a haircut? You look like a chrysanthemum.” —P. G. Wodehouse “He’s a mental midget with the IQ of a fence post.” —Tom Waits “They hardly make ’em like him anymore—but just to be on the safe side, he should be castrated anyway.” —Hunter S. Thompson “He has a Teflon brain . . . nothing sticks” —Lily Tomlin “He has no more backbone than a chocolate éclair.” —Theodore Roosevelt Snark will keep the wolves at bay (or at least out on the porch). Snark, much like a double scotch, will help you deal with relatives, shopping, and rudeness; it is an outlet for the unleashed vitriolic bile that’s saved itself up over the months. Like a shield, it will protect you while you go about your life. Snark is your answer!*

*Il lavoro riguarda la Brianza e il Triangolo Lariano per un aspetto molto particolare ma che negli ultimi tempi interessa un numero crescente di persone, ossia la raccolta e l'uso in cucina di erbe e frutti selvatici, ormai un intreccio culinario e gastronomico fra sguardo sul passato, interesse per gli usi degli altri e innovativa curiosità. Si rivolge agli abitanti del territorio non meno però che a coloro che vivono nell'area metropolitana milanese e qui alimentano un quotidiano intenso turismo di prossimità, a quelle persone che amano sempre di più frequentare le campagne e i boschi per camminare e stare a contatto con la natura. Lo fa suggerendo che possono anche farlo per raccogliere erbe e frutti spontanei buoni da mangiare e provare così sapori nuovi, peraltro gratis, godendo inoltre di altri benefici effetti collaterali. La guida, con numerose schede delle specie più interessanti e una ricca proposta di ricette, può tornare utile a molti e non solo agli appassionati del naturale o della cucina creativa, ossia anche a coloro che nel territorio risiedono e sono variamente interessati ad attività divulgative, di educazione ambientale o a un particolare sviluppo turistico.*

"The Renaissance Home" brings together a wide range of objects, from furniture and kitchen utensils to popular prints, jewellery and everyday dress, to reveal how the homes of the upper- and middle-classes made a crucial contribution to the flowering of the visual arts in 15th- and 16th-century Italy. **Anthimus was a Greek doctor condemned by the Emperor of Constantinople to a life of exile at the court of Theodoric the Ostrogoth, barbarian ruler of Italy at the beginning of the 6th century AD. In the course of his life in Ravenna he was sent as ambassador to the King of the Franks and, perhaps as a sweetener to his fierce yet royal host, wrote a letter about foods - which were good for you, which were bad, and in some cases how to cook and serve them. It may reasonably be called the first French cookery book. various errors of fact in earlier editions, a Latin text based on the editio princeps of 1864, a modern English translation, and a detailed commentary on the work itself, with many cross-references to classical medical treatises, the literature of classical cookery and modern scholarship insofar as it knows anything of the food and cookery of the early Merovingian Franks. linguistic transition from classical to medieval Latin, but rarely has it been treated for what it was - a cookery and medical treatise. It shows cooking on the cusp between the bread-, vegetable- and oil-based cuisine of the Mediterranean and the meat-dominated cookery of the northern forests.**

**This groundbreaking study explores the role of those involved in various aspects of the care, comfort, and appearance of the body in 17th and early 18th century Italy. It brings to light the strong cultural affinities and social ties between barber, surgeons, and the apparently distant trades of jeweler, tailor, wigmaker, and upholsterer. Drawing on contemporary understandings of the body, the author shows that shared concerns about health and wellbeing permeated the professional cultures of these medical and non-medical occupations. At the same time, the detailed analysis of the life-course, career patterns, and family experience of "artisans of the body" offers unprecedented insight into the world of the urban middling sorts.**

The Venetian courtesan has long captured the imagination as a female symbol of sexual license, elegance, beauty, and unruliness. What then to make of the cortigiana onestalthe honest courtesan who recast virtue as intellectual integrity and offered wit and refinement in return for patronage and a place in public life? Veronica Franco (1546-1591) was such a woman, a writer and citizen of Venice, whose published poems and familiar letters offer rich testimony to the complexity of the honest courtesan’s position. Margaret F. Rosenthal draws a compelling portrait of Veronica Franco in her cultural social, and economic world. Rosenthal reveals in Franco’s writing a passionate support of defenseless women, strong convictions about inequality, and, in the eroticized language of her epistolary verses, the seductive political nature of all poetic contests. It is Veronica Franco’s insight into the power conflicts between men and womanland her awareness of the threat she posed to her male contemporaries!that makes her literary works and her dealings with Venetian intellectuals so pertinent today. Combining the resources of biography, history, literary theory, and cultural criticism, this sophisticated interdisciplinary work presents an eloquent and often moving account of one woman’s life as an act of self-creation and as a complex response to social forces and cultural conditions. "A book . . . pleausrably redolent of Venice in the 16th-century. Rosenthal gives a vivid sense of a world of salons and coteries, of intricate networks of family and patronage, and of literary exchanges both intellectual and erotic."!Helen Hackett, Times Higher Education Supplement The Honest Courtesan is the basis for the film Dangerous Beauty (1998) directed by Marshall Herskovitz. (The film was re-titled The Honest Courtesan for release in the UK and Europe in 1999.)

Shopping was as important in the Renaissance as it is in the 21st century. This book breaks new ground in the area of Renaissance material culture, focussing on the marketplace in its various aspects, ranging from middle-class to courtly consumption and from the provision of foodstuffs to the acquisition of antiquities and holy relics. It asks how men and women of different social classes went out into the streets, squares and shops to buy the goods they needed and wanted on a daily or on a once-in-a-lifetime basis during the Renaissance period. Drawing on a detailed mixture of archival, literary and visual sources, she exposes the fears, anxieties and social possibilities of the Renaissance marketplace. Thereafter, Welch looks at the impact these attitudes had on the developing urban spaces of Renaissance cities, before turning to more transient forms of sales such as fairs, auctions and lotteries. In the third section, she examines the consumers themselves, asking how the mental, verbal and visual images of the market shaped the business of buying and selling. Finally, the book explores two seemingly very different types of commodities - antiquities and indulgences, both of which posed dramatic challenges to contemporary notions of market value and to the concept of commodification itself.
