She wants him to be her first time... But it could be ruined by his secrets... Megan has always followed the rules, she has tried to be the good girl her entire life. But sometimes being the good girl doesn't exempt you from injustice or pain. Having moved to a new city, Megan finds herself infatuated with her brother's friend. Phil is handsome, smart and incredibly sexy but he has secrets... and Megan's not sure if he is the man he claims to be. Phil has worked hard to get his life together and become a firefighter. His father is dead, his mother left a long time ago and he has a brother he hasn't seen in two years. But family is whom you choose and Phil has chosen Megan. She is his friend's sister, but more importantly she's his best friend... possibly even his soul mate. Phil isn't quite sure he even believes in soul mates, but meeting Megan has opened up his mind... and his heart. But sometimes the past doesn't always stay in the past and when Phil's troubled adolescence comes back to haunt him, he stands to lose everything he has fought so hard to achieve... his career, his future, and most of all - Megan.

People Who Help Us is a series of books explaining the roles of different people who help us everyday in the community. Each book is based on a real person and follows them through a typical day at work—what they do, why, and what people they encounter.

Lincoln:I had my chance at love and I threw it away. I don't deserve another. I've dedicated my entire life to my community. There's no time for anything else. But then I met her. Ciara Jeffries is everything I told myself I didn't want, but she might be everything I need. If I can just hold on to her. Ciara:If I don't get out of this town, I'll lose my sanity, my loved ones, and my life. I need a fresh start, and Austin, Texas feels like as good a place as any. I wasn't supposed to build connections, and I definitely wasn't supposed to fall in love. Lincoln Cole has other plans for me. He has me breaking all my rules, and I feel safe in his arms. But safety is a luxury I don't have. I thought I ran far enough, but my past will never let me go, and my recklessness may just get Lincoln burned.

Lose weight, lower cholesterol, significantly reduce the risk of disease, and become physically fit--in just 4 weeks. Professional athlete-turned-firefighter Rip Esselstyn is used to responding to emergencies. So, when he learned that some of his fellow Engine 2 firefighters in Austin, TX, were in dire physical condition-several had dangerously high cholesterol levels (the highest was 344!)-he sprang into action and created a life-saving plan for the firehouse. By following Rip's program, everyone lost weight (some more than 20 lbs.), lowered their cholesterol (Mr. 344's dropped to 196), and improved their overall health. Now, Rip outlines his proven plan in this book. With Rip as your expert coach and motivator, you'll transform your body and lifestyle in a month. His plant-powered eating plan is based on a diet of whole foods, including whole grains, fresh fruits, vegetables, legumes, nuts, and seeds. This invaluable guide features: Dozens of easy, mouthwatering recipes-from pancakes to pizza, Tex-Mex favorites to knockout chocolate desserts-that will keep you looking forward to every bite Pantry-stocking tips will take the panic out of inevitable cravings and on-the-fly meals Guidelines on menu choices that will allow you to eat out, wherever and whenever you want Rip's simple, firefighter-inspired exercise program that will boost your metabolism and melt your fat away. Medically approved, easy-to-follow, and amazingly effective, this diet is designed for anyone who wants to make heroic strides in his or her health, weight, and well-being-all without heroic effort. "Want to be as strong as a Texas firefighter? Or as healthy as a professional triathlete? Then follow the wonderful advice of Rip Esselstyn, who is both. His book can save your life--whether you're a man or a woman. Highly recommended!" -Dean Ornish, M.D., Founder and President, Preventive Medicine Research Institute, Clinical Professor of Medicine, U of California, SF, author, Dr. Dean Ornish's Program for Reversing Heart Disease Taima, a.k.a. Tai, is the last person people come to for help. He's the fuck up...the bad boy...the guy that only looks out for himself. Which couldn't be further from the truth. He's fought hard to become the man he is today. He's a hero in the public's eye. A firefighter that the young all the way to the old turn to for help at the lowest point in their lives. What people don't know, though, is that he's no hero. He's the reason his sister is dead, and he'll spend the rest of his life trying to right that wrong. Then one split second decision has him coming face to face with Mia Darling. The woman changes his life, making him reevaluate everything he thought he had figured out, and showing him the tenderness he never knew he needed. Just like always, though, his luck runs out. When the smoke settles, Mia's gone, and Tai realizes there's no way he can live the rest of his life without her. He'll show her just how hard a bad boy will fight to get his woman back, and he's not opposed to fighting dirty.

“If you have tears, prepare to shed them.” --Frank McCourt "In the firehouse, the men not only live and eat with each other, they play sports together, go off to drink together, help repair one

another's houses, and, most important, share terrifying risks; their loyalties to each other must, by the demands of the dangers they face, be instinctive and absolute." So writes David Halberstam, one of America's most distinguished reporters and historians, in this stunning New York Times bestselling book about Engine 40, Ladder 35, located on the West Side of Manhattan near Lincoln Center. On the morning of September 11, 2001, two rigs carrying thirteen men set out from this firehouse: twelve of them would never return. Firehouse takes us to the epicenter of the tragedy. Through the kind of intimate portraits that are Halberstam's trademark, we watch the day unfold--the men called to duty while their families wait anxiously for news of them. In addition, we come to understand the culture of the firehouse itself: why gifted men do this; why, in so many instances, they are eager to follow in their fathers' footsteps and serve in so dangerous a profession; and why, more than anything else, it is not just a job, but a calling. This is journalism-as-history at its best, the story of what happens when one small institution gets caught in an apocalyptic day. Firehouse is a book that will move readers as few others have in our time.

* "A hundred years from now, when people want to know what we told our children about 9/11, Kalman's book should be among the first answers."—Booklist, starred review * "Intelligently conveys those unfathomable events in a way that a picture book audience can comprehend. . . . With this inspiring book, Kalman sensitively handles a difficult subject in an age-appropriate manner."—Publishers Weekly, starred review * "Fireboat does many things. It sets forth an adventure, helps commemorate an anniversary, offers an interesting bit of history, celebrates the underdog, and honors the fire-fighting profession. Children and adults will respond to it in as many ways."—School Library Journal, starred review * "Exciting, uplifting, and child-sensitive. . . . Revisits the tragedy without the terror and conveys pride without preachiness."—The Bulletin of the Center for Children's Books, starred review * "Quintessential New York artist Kalman gives us an idiosyncratic but informative look at a Big Apple institution. . . . Kalman's use of the events of September 11 is honest and honorable, and rarely is she as straightforward as she is here."—The Horn Book, starred review This is the inspiring true story of the John J. Harvey—a retired New York City fireboat reinstated on September 11, 2001. Originally launched in 1931, the Harvey was the most powerful fireboat of her time. After the September 11 attacks, with fire hydrants at Ground Zero inoperable and the Hudson River's water supply critical to fighting the blaze, the fire department called on the Harvey for help. There were adjustments—forcing water into hoses by jamming soda bottles and wood into nozzles with a sledgehammer—and then the fireboat's volunteer crew pumped much-needed water to the disaster site. The John J. Harvey proved she was still one of New York's Bravest! Maira Kalman brings a New York City icon to life, celebrating the energy, vitality and hope of a place and its people.

A special 25th anniversary edition of the extraordinary international bestseller, including a new Foreword by Paulo Coelho. Combining magic, mysticism, wisdom and wonder into an inspiring tale of self-discovery, *The Alchemist* has become a modern classic, selling millions of copies around the world and transforming the lives of countless readers across generations. Paulo Coelho's masterpiece tells the mystical story of Santiago, an Andalusian shepherd boy who yearns to travel in search of a worldly treasure. His quest will lead him to riches far different—and far more satisfying—than he ever imagined. Santiago's journey teaches us about the essential wisdom of listening to our hearts, of recognizing opportunity and learning to read the omens strewn along life's path, and, most importantly, to follow our dreams.

The Great Fire

"Frightening...Firestorm comes alive when Struzik discusses the work of offbeat scientists." --New York Times Book Review "Comprehensive and compelling." --Booklist "A powerful message." --Kirkus "Should be required reading." --Library Journal In the spring of 2016, the world watched as wildfire ravaged the Canadian town of Fort McMurray. Firefighters named the fire "the Beast." It seemed to be alive with destructive energy, and they hoped never to see anything like it again. Yet it's not a stretch to imagine we will all soon live in a world in which fires like the Beast are commonplace. In *Firestorm*, Edward Struzik confronts this new reality, offering a deftly woven tale of science, economics, politics, and human determination. It's possible for us to flourish in the coming age of megafires--but it will take a radical new approach that requires acknowledging that fires are no longer avoidable. Living with fire also means, Struzik reveals, that we must better understand how the surprising, far-reaching impacts of these massive fires will linger long after the smoke eventually clears.

"New York Times" reporters Jim Dwyer and Kevin Flynn capture the little-known stories of ordinary people who took extraordinary steps to save themselves and others inside the World Trade Center on September 11--the saga of the nearly 12,000 who escaped and the 2,749 who perished.

ASHTON If there's one thing I know, it's how to play the game...both on and off the field. If it hadn't been for that one teenage slipup where I kissed Beau Campbell, I'd be able to keep fooling myself. Football is the one thing I use to distract myself from the truth, and when I screw-up and lose the game I love, I find myself right back in Fever Falls. And right back face-to-face with Cranky Campbell, who hates me even more than he did when we were kids. Whatever magic he held over me then is still there. As much as I fight it, I still want him. And I always get what I want...well, except with Beau, who constantly calls me on my crap.

Why do I like that so much? BEAU I might've spent years watching Ash live out my dream-without the off-field antics and orgies with women, at least-but I've made a good life for myself. I'm a firefighter, and I coach my brother's football team for those with developmental disabilities. But when Ash swings back into town armed with his monster ego and an arsenal of stupid nicknames, everyone is in awe of him. Nope, not me. I don't care if our kiss years ago was responsible for my sexual awakening. I won't fall for Ashton Carmichael. Though that resolution would be a whole lot easier if he wasn't so tempting. Once he finds his way into my bed, I'm screwed-in more ways than one. But there's more to Ash than meets the eye, buried beneath his ego, sarcasm and how we burn up the sheets together. Soon, it's more than a game. We don't just get each other fired up, we just might win each other's hearts. Too bad things are never that simple...

Millions of Americans use e-cigarettes. Despite their popularity, little is known about their health effects. Some suggest that e-cigarettes likely confer lower risk compared to combustible tobacco cigarettes, because they do not expose users to toxicants produced through combustion. Proponents of e-cigarette use also tout the potential benefits of e-cigarettes as devices that could help combustible tobacco cigarette smokers to quit and thereby reduce tobacco-related health risks. Others are concerned about the exposure to potentially toxic substances contained in e-cigarette emissions, especially in individuals who have never used tobacco products such as youth and young adults. Given their relatively recent introduction, there has been little time for a scientific body of evidence to develop on the health effects of e-cigarettes. Public Health Consequences of E-Cigarettes reviews and critically assesses the state of the emerging evidence about e-cigarettes and health. This report makes recommendations for the improvement of this research and highlights gaps that are a priority for future research.

Susan Orlean's bestseller and New York Times Notable Book is "a sheer delight...as rich in insight and as varied as the treasures contained on the shelves in any local library" (USA TODAY)—a dazzling love letter to a beloved institution and an investigation into one of its greatest mysteries. "Everybody who loves books should check out The Library Book" (The Washington Post). On the morning of April 28, 1986, a fire alarm sounded in the Los Angeles Public Library. The fire was disastrous: it reached two thousand degrees and burned for more than seven hours. By the time it was extinguished, it had consumed four hundred thousand books and damaged seven hundred thousand more. Investigators descended on the scene, but more than thirty years later, the mystery remains: Did someone purposefully set fire to the library—and if so, who? Weaving her lifelong love of books and reading into an investigation of the fire, award-winning New Yorker reporter and New York Times bestselling author Susan Orlean delivers a "delightful...reflection on the past, present, and future of libraries in America" (New York magazine) that manages to tell the broader story of libraries and librarians in a way that has never been done before. In the "exquisitely written, consistently entertaining" (The New York Times) The Library Book, Orlean chronicles the LAPL fire and its aftermath to showcase the larger, crucial role that libraries play in our lives; delves into the evolution of libraries; brings each department of the library to vivid life; studies arson and attempts to burn a copy of a book herself; and reexamines the case of Harry Peak, the blond-haired actor long suspected of setting fire to the LAPL more than thirty years ago. "A book lover's dream...an ambitiously researched, elegantly written book that serves as a portal into a place of history, drama, culture, and stories" (Star Tribune, Minneapolis), Susan Orlean's thrilling journey through the stacks reveals how these beloved institutions provide much more than just books—and why they remain an essential part of the heart, mind, and soul of our country.

An introduction to the people who look after us in an emergency.

Nobody knew where the virus came from. FOX News said it had been set loose by ISIS, using spores that had been invented by the Russians in the 1980s. MSNBC said sources indicated it might've been created by engineers at Halliburton and stolen by culty Christian types fixated on the Book of Revelation. CNN reported both sides. While every TV station debated the cause, the world burnt. Pregnant school nurse, HARPER GRAYSON, had seen lots of people burn on TV, but the first person she saw burn for real was in the playground behind the school. With the epic scope of THE PASSAGE and the emotional impact of THE ROAD, this is one woman's story of survival at the end of the world.

Patrick Kenzie and Angela Gennaro are tough private investigators who know the blue-collar neighbourhoods and ghettos of Boston's Dorchester section as only natives can. Working out of an old church belfry, Kenzie and Gennaro take on a seemingly simple assignment for a prominent politician: to uncover the whereabouts of Jenna Angeline, a black cleaning woman who has

allegedly stolen confidential Statehouse documents. But finding Jenna proves easy compared to staying alive. The investigation escalates, uncovering a web of corruption extending from bombed-out ghetto streets to the highest levels of state government. With slick, hip dialogue and a lyrical narrative pocked by explosions of violence, A Drink Before the War confronts a city in which institutionalized bigotry and corruption are often the norm, and the true nature of 'racial incidents' is rarely clear. Dennis Lehane's remarkable debut is at once a pulsating crime thriller and a mirror of our world, one in which the worst human horrors are found closest to home, and the most vicious obscenities are committed in the name of love.

Kate Meader's blazing Hot in Chicago firefighter series has "everything you want in a romance" (RT Book Reviews, Top Pick)! The flames of desire burn out of control in this sexy third novel when ex-lovers unexpectedly reunite for a sizzling affair that will have the director yelling, "Quiet on the set!" Actor Molly Cade, America's fallen sweetheart, finally has her shot at a Hollywood comeback with a dramatic new role as a tough-as-nails firefighter that promises to propel her back to the big time and restore her self-respect. Wyatt Fox, resident daredevil at Engine Co. 6, needs a low-key job to keep him busy while he recovers from his latest rescue stunt. Consulting on a local movie shoot should add just enough spark to his day. Especially when in struts Molly Cade: the woman who worked his heart over good, and then left him in the Windy City dust. Their story is straight out of a script: irrepressible, spunky heroine meets taciturn, smoldering hero. But these two refuse to be typecast, and when the embers of an old love are stoked, someone is bound to get burned...
