kindergarten can no longer be our default strategy. We have to start at the top. The neural pathways that underpin strong reading are forged in infancy, which means literacy should begin at birth, too. This means better equipping parents to play their dual roles as first teachers and educational advocates. Reading for Our Lives challenges the bath-book-bed status quo and the idea that reading aloud to our kids is enough to ensure school readiness. Each chapter is focused on key literacy skills and gives parents easy, immediate, and accessible ways to nurture them. Through personal stories, historical accounts, scholarly research, and practical tips, this book presents the life-and-death urgency of literacy, investigates inequity in reading achievement, and illuminates a path to a true, transformative education for all.

Black Dragon recounts the experience of a single Marine rifle company--2-F-23, or "Fox" Company--and its drive through the central Pacific in World War II. Author Steven D. McCloud, through painstaking research of battlefield reports and extensive interviews with surviving members of Fox Company, has reanimated the grueling, day-by-day slog through the Pacific theater through the eyes of the US Marines who endured it. This is the story of American teenagers who left home, many for the first time, trained together, and formed a team that held strong until, at

last, those who survived tried to leave it all behind as they dispersed, returned home, and sought to build their lives. Decades later, Fox Company re-formed through correspondence and reunions and also welcomed McCloud into their midst by telling him their stories. McCloud took notes, chased down company reports and other documents to fill in the gaps, and carefully reconstructed their journey. As one member of Fox Company recalled after returning to Iwo Jima half a century later, "I think the pilgrimage to Iwo has helped me conquer my black dragons--those bloody and stinking nightmares that made nightly uninvited visits for fifty-six years. My dreams were in color, predominantly bloody red. Those remaining are in black and white and shades of gray, not so violent and stinking. These I can live with." Readers who reveled in Stephen Ambrose's masterful oral history of E Company in the European theater will find similar heroism and heartbreak in the pages of *Black Dragon*.
