It's the Avengers, the New Warriors, the X-Men and more against the omnipotent Eternal, Thanos! The Mad Titan has become the most powerful being in the universe, and enslavement or destruction may be the only choices he gives it! The successive Starlin sagas that shook space and time start here! From the intriguing mind behind Codex Seraphinianus comes this beautifully illustrated tribute to the famed Neapolitan character Pulcinella (or "Punch" as he is

referred to in English). This short monograph on Pulcinella is conceived as a extension of the Codex Seraphinianus, an encyclopedia filled with variations and fantasies on a theme. Pulcinellopaedia Seraphiniana contains over one hundred extraordinary graphite illustrations with scarlet accents, some of which are depicted in comic-strip style. Conceived as a musical Suite, it is divided into nine scenes with an intermission. It features the oddly surreal and globally recognized character, whose origins have been lost in the mists of the time. An ancestor of Pulcinella was certainly Maccus, the protagonist of the Atellanae Fabulae, very popular farces in ancient Rome, but it was in the early seventeenth-century that the character assumed the name and costume that we all know. Distinguished by a long nose and typically dressed in white with a black mask, Pulcinella is often depicted in various kinds of misadventures and singing about love, hunger, and money. As he famously did in the Codex, Luigi Serafini, has created Pulcinellopaedia Seraphiniana in a unique language all its own, and has filled it with fascinating and mysterious illustrations that will no doubt prompt devotees to obsessively try to decipher the artist's intention. Written by Serafini's imaginative coauthor and alter ego "P. Cetrulo," who represents Pulcinella himself, the book artfully presents the struggles of a rebellious antihero who must come to grips with the

challenges of everyday life. Originally, a book about Pulcinella and his world appeared in 1984, after Serafini's involvement with the 1982 Carnival of Venice, the first revival of the famous festivity after two centuries of silence. Now more than three decades later, this new edition has been extensively revised and includes a new afterword by the author. Like its predecessor, the original edition became immensely sought after and highly valuable, fetching more than one thousand dollars if book collectors were lucky enough to get their hands on a copy. All fans of Serafini's work will treasure this volume. Rizzoli will also publish a deluxe limited edition with a signed and numbered print.

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which

was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Carlo M. Martini was cardinal of the largest diocese in the world, a scholar, and one of the most renowned men of the church. Georg Sporschill has worked in prisons and lived with drug-addicted street children in Romania and Moldavia. The two Jesuits met in Jerusalem and became firends: two worlds, one faith--and a passionate search for ways in which the message of Jesus of Nazareth can still be effective for tomorrow. In a series of conversations they ask what faith can mean for life, what future young people have in the church, and what must be changed so that Crhistianity itself has a future. The questions from young people are the catalyst for deep thought. Is the future only dark? Where are the rays of light on the horizon? What would Jesus say today?

This early work by Lucy Maud Montgomery was originally published in 1935 and we are now republishing it with a brand new introductory biography. Lucy Maud Montgomery was born on 30th November 1874, New London, in the Canadian province of Prince Edward Island. Her mother, Clara Woolner (Macneil), died before Lucy reached the age of two and so she was raised by her maternal grandparents in a family of wealthy Scottish immigrants. In 1908 Montgomery produced her first full-length novel, titled 'Anne of Green Gables'. It was an instant success, and following it up with several sequels, Montgomery became a regular on the best-seller list and an international household name.

The origins of the infamous forgery the Protocols

of the Sages of Zion are the subject of much vigorous debate. In this meticulously researched and cogently argued study, Cesare G. De Michelis illuminates its authors and the circumstances of production by focusing on the text itself. De Michelis examines in detail the earliest texts of the Protocols, looking in particular at the historical and structural relationships among them. His research unveils the differing texts of the Protocols and the presumed date of the first forgery. It also yields a greater understanding of the milieu in which the forgery was produced and the identity and motivations of its authors. This volume is a revised and expanded edition of the original, which appeared in Italian. Featured is an arguably archetypal Russian text of the Protocols, which De Michelis pieced together from several publications, based on careful textual analysis. When the laboratory technicians working for Ancestor Lu discover the key to the immortality genetic structure, Victor names it the 'Cathy Key' in honor of his quest to make Cathy immortal, but when events go fatally wrong and a fortune teller's grim prophecy comes true, soon a homicide investigation is underway.

A sparkling, inventive debut novel inspired by Sir John Franklin's grand – but ultimately failed – quest to discover the Northwest Passage and by his extraordinary wife, Lady Jane. Originally published in Quebec as *Du bon usage des etoiles*, Dominique Fortier's debut *On the Proper Use of Stars* is as fresh and imaginative as anything published in recent years. It weaves together the voices of Francis Crozier, Sir John Franklin's second in command, who turns a sceptical eye on the grandiose ambitions and hubris of his leader, and of Lady Jane Franklin and her niece Sophia, both driven to uncommon actions by love and by frustration as months then years pass with no word from the expedition. Fortier skilfully accents the main narratives with overheard conversations and snippets from letters and documents that bring two entirely different worlds – the frozen Arctic and busy Victorian London – alive.

world of East European memory and American present—a world of his own creation, one always full of luminous surprise. “The poems . . . come from a vision of the world that, once experienced, prevents us from ever dozing again, that prevents us, for that matter, from feeling confidently awake.” —Los Angeles Times “One of the most original poets writing today, Simic has a gift for startling juxtapositions . . . It's been over twenty years since his death. Now, this beloved and unforgettable champion's final hours. On May 1, 1994, at Bologna's Ospedale Maggiore, Ayrton Senna, three-time Formula 1 world champ, lay dying after a tragic accident at the Grand Prix of San Marino. The idea for this monograph (and the exhibition at the Museo della velocità dell'Autodromo Nazionale in Monza) stems from the book *Suite 200: L'ultima notte di Ayrton Senna* (published by 66th and 2nd, 2014) written by the journalist Giorgio Terruzzi. An enthralling story with details on the final moments of Senna's life and thoughts as the fateful hour approached. Through a selection of approximately one hundred photographs by Ercole Colombo—the famous Formula 1 photographer—this monograph aims to narrate the career as well as the most intimate aspects of the Brazilian car racer's life. A fanciful story, enriched by the writings of Giorgio Terruzzi, who covers the most important moments in Ayrton Senna's life: his legendary wins, his defeats, the loss of his friends, the great rivalry with other drivers, his emotions and family relationships, and finally the terrible accident where he lost his life.
