The music of Gustav Mahler repeatedly engages with Romantic notions of redemption. This is expressed in a range of gestures and procedures, shifting between affirmative fulfilment and pessimistic negation. In this groundbreaking study, Stephen Downes explores the relationship of this aspect of Mahler's music to the output of Benjamin Britten, Kurt Weill and Hans Werner Henze. Their initial admiration was notably dissonant with the prevailing Zeitgeist – Britten in 1930s England, Weill in 1920s Germany and Henze in 1950s Germany and Italy. Downes argues that Mahler's music

struck a profound chord with them because of the powerful manner in which it raises and intensifies dystopian and utopian complexes and probes the question of fulfilment or redemption, an ambition manifest in ambiguous tonal, temporal and formal processes. Comparisons of the ways in which this topic is evoked facilitate new interpretative insights into the music of these four major composers.

In addition, it responds to the global spread of this remarkable composer's music, and an almost universal fascination with it, by attempting to give an account of the reception of Mahler's music in many of the countries in which it eventually came to flourish, eg. Holland, France, Japan, Russia, England, and the United States. This particular series of chapters reveals that the 'Mahler Phenomenon' earned its description principally in the years after the Second World War, but also that the Mahler revival was already well under way pre-war, perhaps especially in

The selection of contributors, who between them cover all Mahler's musical output, shows that here too this volume significantly crosses national boundaries. The very diverse approaches, analyses and commentaries, amply illustrated with music examples, are evidence of the uniquely rich and complex character of a music that spans more than one culture and more than one century. The volumes includes the most significant and up-to-date Mahler research and debate, and illumines some hitherto

Symphony was first performed in Prague in 1908. It has often been claimed that Mahler, born in 1860, was in fact a prophet of much that was to come in the 20th century. His later works undeniably anticipate, often with dazzling virtuosity, many of the principal techniques and aesthetics of the new century, only the first decade of which he lived to see. Small wonder that among his earliest admirers was a collective of some of the most important

There he also met Alma Schindler, 'the most beautiful woman in Vienna', and La Grange tells the story of their engagement and marriage in 1902 and the early years of their tempestuous relationship. As his fame spread throughout Europe, Mahler travelled with his music to Germany, Russia, Holland, Poland, and Belgium, meeting many other leading musicians of his day, including Pfitzner, Mengelberg, Diepenbrock, Oskar Fried, and many others.

No-one doubts that Gustav
Mahler's tenure at the Vienna
Court Opera from 1897-1907 was
made extremely unpleasant by
the antisemitic press. The great
biographer, Henry-Louis de La

must be said that antisemitism
was a permanent feature of
Viennese life'. Unfortunately, the
focus on blatant references to
Jewishness has obscured the
extent to which 'ordinary'

were prevalent and pervasive, yet subtle and covert. The context has been lost wherein such coded references to Jewishness would have been immediately recognized and understood. By painstakingly reconstructing 'the language of antisemitism', Knittel recreates what Mahler's audiences expected, saw, and heard, given the biases and beliefs of turn-of-the-century Vienna. Using newspaper reviews, cartoons and memoirs, Knittel eschews focusing on hostile discussions and overt attacks in themselves, rather revealing how and to what extent authors call attention to Mahler's Jewishness with more

subtle language. She specifically examines the reviews of Mahler's Viennese symphonic premieres for their resonance with that language as codified by Richard Wagner, though not invented by him. An entire chapter is also devoted to the Viennese premieres of Richard Strauss's tone poems, as a proof text against which the reviews of Mahler can also be read and understood. Accepting how deeply embedded this way of thinking was, not just for critics but for the general population, certainly does not imply that one can find antisemitism under every stone. What Knittel suggests, ultimately, is that
