Tracy Kidder's "riveting" (Washington Post) story of one company's efforts to bring a new microcomputer to market won both the Pulitzer Prize and the National Book Award and has become essential reading for understanding the history of the American tech industry. Computers have changed since 1981--when The Soul of a New Machine first examined the culture of the computer revolution. What has not changed is the feverish pace of the high-tech industry, the go-for-broke approach to business that has caused so many computer companies to win big (or go belly up), and the cult of pursuing mind-bending technological innovations. The Soul of a New Machine is an essential chapter in the history of the machine that revolutionized the world in the twentieth century. "Fascinating...A surprisingly gripping account of people at work." --Wall Street Journal Two powerhouse authors bring you a hilarious tale of one woman's journey to find herself again. Ever have one of those days where life just plain sucks? Welcome to my last three months--ever since I caught my can't-be-soon-enough ex-husband cheating with his paralegal. I'm thirty-five years old, and I've lost my NYC apartment, my job, my money, and frankly, my dignity. But the final heartache in the suck sandwich of my life? My great-aunt Maggie died. The only family member who's ever gotten me. Even after death, though, she's helping me get back up. She's willed me the keys to a house in the burbs, of all places, and dared me to grab life by the family jewels. Well, I've got the vise grips already in hand (my ex should take note) and I'm ready to fight for my life again. Too bad that bravado only lasts as long as it takes to drive into Huckleberry Hills. And see the house. There are forty-seven separate HOA violations, and I feel them all in my bones. Honestly, I'm surprised no one's "accidentally" torched the house yet. I want to, and I've only been standing in front of it for five minutes. But then my hot, grumpy neighbor tells me to mow the lawn first and I'm just...done. Done with men too sexy for their own good and done with anyone telling me what to do. First rule of surviving the burbs? There is nothing that YouTube and a glass of wine can't conquer.

What's wrong with the UK economy? Everyone has an opinion. But no one has an answer. Why?For decades, our economy has failed to work for ordinary citizens: stagnant wages have been combined with underemployment and rising costs of basic goods like healthcare, education and housing. At the same time, a small minority of the population make obscene profits, while in the background we continue to hurtle headlong into an environmental emergency. While there is no shortage of anger and anti-elite sentiment expressed in what is often referred to as the 'culture wars', no significant challenge to the dominant economic model has broken into the mainstream.The pound and the fury argues that behind this failure of imagination are a set of myths about how the economy works, myths that stifle debate and block change. This book analyses the origins of these myths and how they might be dispelled at a time when, away from the public gaze, economic theory is opening up new possibilities of economic action. Possibilities that, as we emerge from the chaos of COVID-19, could lead to the radical structural changes we desperately need.

Amy is brought up as a second-class citizen, despised by Vennaways, but she and Aurelia are as close as sisters. When Aurelia dies at the age of twenty-three, she leaves Amy ten pounds, and the Vennaways immediately banish Amy from their home. But Aurelia left her much more. Amy soon receives a packet that contains a rich inheritance and a letter from Aurelia revealing she had kept secrets from Amy, secrets that she wants Amy to know. From the grave she sends Amy on a treasure hunt from one end of England to the other: a treasure hunt that only Amy can follow. Ultimately, a life-changing discovery awaits...if only Amy can unlock the secret. Forensic psychiatrist Donald Grant asks, what is it about murder that fascinates us? Is it the chill whisper of fear reminding us we too can kill? Grant describes ten true murder cases, each with unique triggers. For most of us, murder is an arm's length experience, close enough to frighten and fascinate yet far enough not to traumatise. For those directly affected, murder can be scarring. Our restless chatter about murder, our state of heightened alert, our endless appetite for news, may all just be play therapy, reassuring us that our own killer instincts are under control.

With great wit and insight, Thorn reconsiders the Green Belt post-war dream so many artists have mocked, and yet so many artists have come from.
