Hot Line: Romanzo

The Italian bourgeoisie appear to be living through a period of self-evaluation. This collection examines what is "essentially Italian" in the development of the

bourgeoisie, starting with the role of the individual in post-unification Italy. Members of the bourgeoisie were Italy's ruling class while the country underwent drastic political, economic, and social transformations during major

A Multitude of Women looks at the ways in which both Italian literary

Online Library Hot Line: Romanzo

tradition and external influences have assisted Italian women writers in rethinking the theoretical and aesthetic ties between author, text, and readership in the construction of the novel. Stefania Lucamante discusses the valuable contributions that Italian

Online Library Hot Line: Romanzo

women writers have made to the contemporary novel and illustrates the relevance of the novelistic examples set by their predecessors. She addresses various discursive communities, reading works by Di Lascia, Ferrante, Vinci, and others with reference to

intertextuality and the theories of Elsa Morante and Simone de Beauvoir. This study identifies a positive deviation from literary and ideological orthodoxy, a deviation that helps give meaning to the Italian novel and to transform the traditional notion of the

canon in Italian literature. Lucamante argues that this is partly due to the merits of women writers and their ability to eschew obsolete patterns in narrative while favouring forms that are more attuned to the ever-changing needs of society. She shows that

Online Library Hot Line: Romanzo

contemporary novels by women authors mirror a shift from previous trends in which the need for female emancipation interfered with the actual literary and aesthetic significance of the novel. *A Multitude of Women* offers a new epistemology of the novel and
