

## How Animals Build (Lonely Planet Kids)

Take a walk on the weird side as Lonely Planet Kids reveals 100 of the world's strangest animals. From frilled dragons and mole lizards to umbrella birds, bearded pigs and fishing spiders, discover crazy creatures and rare species you've never heard of before from all corners of the globe!

The third in our award-winning Atlas series, following Dinosaur Atlas and Animal Atlas, Lonely Planet Kids's Bug Atlas focuses on the magical miniature world of creepy crawlies. Continent by continent, we take a tour around the globe to uncover fascinating bugs, insects, scorpions, spiders and other icky things that live around, alongside - and often even on - us. Maps show where the critters live, while gatefolds and flaps open to reveal their wonderful, and sometimes very weird, mini lives. From spiders the size of dinner plates, stick insects as long as golf clubs and mega-ant colonies that stretch across countries to cannibal mantises, zombie ants, giant millipedes, beautiful butterflies, shiny iridescent beetles and more, this is a fascinating, in-depth exploration of the world of bugs. As with previous titles in this series, Bug Atlas features a mixture of art and photography, densely packed with information and illustrated with incredible images. Features include: Detailed maps of every continent showing where all the fascinating bugs live. Data boxes for each amazing species, listing its name, size, habitat, diet and more. Life-size elements, both big and small, showing you just how enormous a goliath-bird eating spider is (you don't want to know) to tiny bugs that share our homes almost unnoticed. Incredible macro photography revealing the minute detail of these minibeasts Animal Adaptations - Showing how each species is perfectly adapted for its environment, including the amazing camouflage of leaf insects. About Lonely Planet Kids: Lonely Planet Kids - an imprint of the world's leading travel authority Lonely Planet - published its first book in 2011. Over the past 45 years, Lonely Planet has grown a dedicated global community of travelers, many of whom are now sharing a passion for exploration with their children. Lonely Planet Kids educates and encourages young readers at home and in school to learn about the world with engaging books on culture, sociology, geography, nature, history, space and more. We want to inspire the next generation of global citizens and help kids and their parents to approach life in a way that makes every day an adventure. Come explore!

Blast off into the cosmos with the latest title in the popular 'How Things Work' series which includes How Cities Work, How Airports Work, How Trains Work and How Ships Work - books that reveal the inner workings of familiar places and vehicles. Featuring fantastic illustrations by James Gulliver Hancock, this title explores the ultimate vehicles: spaceships - how they do what they do, what they're used for and their development through history. Spreads will look at how rockets blast off into space, how people were sent to the Moon and back, how space centres prepare spaceships and astronauts for amazing adventures across the cosmos. It will also look at all different types of spacecraft: space stations and satellites orbiting Earth, rovers trundling over the surface of Mars, and probes travelling at thousands of miles per second through the outer reaches of the Solar System on incredible journeys of discovery. Full-page gatefolds and flaps explore spaceships both big and small, inside and out. It's going to be out of this world! Contents: Leaving Earth: The history of spaceflight Satellites Rockets Manned Spaceflights Space Probes Landers Moon Missions Rovers Space Centres Space Telescopes Space Stations Spaceships of the Future About Lonely Planet Kids: Lonely Planet Kids - an imprint of the world's leading travel authority Lonely Planet - published its first book in 2011. Over the past 45 years, Lonely Planet has grown a dedicated global community of travelers, many of whom are now sharing a passion

for exploration with their children. Lonely Planet Kids educates and encourages young readers at home and in school to learn about the world with engaging books on culture, sociology, geography, nature, history, space and more. We want to inspire the next generation of global citizens and help kids and their parents to approach life in a way that makes every day an adventure. Come explore!

Want to know which nation is ruled by a dentist-turned-dictator? Where to find taxis shaped like coconuts? And who watches competitive cockroach racing? From countries, food and folklore to sports, flags, animals and more, these weird and wonderful facts from around the world will boggle your mind.

*Explore the animal kingdom like never before with the Animal Atlas from Lonely Planet Kids. Unfold maps to reveal animals from every continent and lift the flaps to see their unique environments and habitats. Discover a world of animal facts, life-size photos and creature features - from a bear's paw and a baby turtle to an anteater's tongue and a goliath birdeater, the world's heaviest spider. EEK! All drawn to scale so you can measure yourself against them. You'll find animals living on freezing ice caps, high on snowy mountain peaks, in parched deserts and down in the dark depths of the ocean. They fly through the air, crawl among trees, burrow into the earth, plunge through the seas, and prowl the forests - and range from the tiniest of insects too small to see without a magnifying glass to the blue whale, which is longer than three buses! The book is divided into seven sections: North America, South America, Europe, Africa, Asia, Australasia, Oceania & Antarctica - each with a map of the major environments as well as illustrated and photographic depictions of some of the animals living there. Are you ready for this round-the-world animal adventure? **How Cities Work**

**The Big World of Fun Facts**

From the sewers to the skyscrapers, this book takes younger readers to the heart of the city. Perforated flaps let you see what's going on behind closed doors, and big gatefolds reveal what's going on under the street, plus other surprising spaces. With illustrations from James Gulliver Hancock, it's the city like you've never seen it before!

Lonely Planet Kids' How Animals Build is a beautifully illustrated lift-the-flap hardback that explores the incredible world of animal architects. Children can open flaps and unfold spreads to discover amazing animal homes up high, underground on land, and under the sea. From spider webs and rabbit warrens, to bird nests and ant colonies, and even coral reefs and beaver lodges, we reveal the secrets to these extraordinary structures and how they're built. Do bees need cement mixers to build hives? Do beavers use cranes to construct dams? No, of course not! Like many animals, they're building geniuses who don't need building site tools to create incredible work. Welcome to nature's very own, super-clever world of construction. Created in consultation with Michael Leach, wildlife expert, speaker, photographer, filmographer, and author of over 20 books on subjects ranging from big cats and owls to great apes and bears. Themed topics include Apartment Block with Branches Dig, Diggers, Dig! Number 1 Bunny Street A Winning Design It's Buzzing in Here! Nest Neighborhoods This Way to Waterworld Extreme Builders Mouse House Here About Lonely Planet Kids: Come explore! Let's start an adventure. Lonely Planet Kids excites and educates children about the amazing world around them.

Combining astonishing facts, quirky humor and eye-catching imagery, we ignite their curiosity and encourage them to discover more about our planet. Every book draws on our huge team of global experts to help share our continual fascination with what makes the world such a diverse and magnificent place-inspiring children at home and in school. Read about the epic events, amazing animals, hideous histories, funky foods and crazy facts that make the world's 200 countries so fascinating.

Discover the secret lives of the extraordinary creatures that share our cities. From red foxes sneaking rides on London buses to leopards prowling the backstreets of Mumbai, this book explores the clever ways animals have adapted to the urban environment and gives tips on how you can help protect our wild neighbours.

### ***The Animal Book***

Where does luggage go after check in? What happens in the control tower? How do planes actually fly? This interactive, lift-the-flap book takes you behind-the-scenes to uncover the hidden secrets of the airport - from a peek inside the cockpit to the hustle and bustle of departures. In this follow-up to *How Cities Work*, we explore the earliest airports through to today's giant transport hubs and what airports could look like in the future. Packed with amazing facts and illustrations from *James Gulliver Hancock*, it'll surprise and delight readers young and old, ensuring they never look at air travel in the same way again. Created in consultation with Tom Cornell, VP Airspace / Airfields, Americas at Landrum & Brown. Contents include: Airports Through the Ages The Great Get-to-the-Airport Race Find Your Way Round the Airport The Maintenance Hangar In the Terminal Inside an Aircraft The Control Tower Sees All Preparing Planes Ship That Cargo The Incredible Luggage Journey Airports of the Future About Lonely Planet Kids: Come explore! Let's start an adventure. Lonely Planet Kids excites and educates children about the amazing world around them. Combining astonishing facts, quirky humour and eye-catching imagery, we ignite their curiosity and encourage them to discover more about our planet. Every book draws on our huge team of global experts to help share our continual fascination with what makes the world such a diverse and magnificent place - inspiring children at home and in school.

Travel a world of fiendishly fun mazes in a treasure hunt like no other. Absent-minded photographer Geronimo Keats is back from the trip of a lifetime. The only problem is, his possessions? aren't! Time for young explorer Marco to swing into action - but he'll need your help! Features over 40 mazes to complete and amazing facts on every page.

Super serious Asahi Suzumura and laidback, easygoing Mitsuki Sayama might seem like an odd couple, but they made a deal; they'll vacation around the world and when they get back to Japan, they'll get married. As they travel from country to country, the different people, cultures and cuisine they encounter begin to bring them closer together. After all they're not just learning about the world, but about themselves too.

It's time for children to get creative with Lonely Planet Kids' Sticker World - Zoo. From creating a watery wonderland for penguins, to choosing which items are sold in the gift shop, kids can build the zoo of their dreams in this fun and interactive book. As chief planner, architect and builder, they can add colourful stickers and drawings to each page and bring their construction to life. Inside, kids can: Design a map so visitors don't get lost Choose where each animal lives Bring sharks and other sea creatures to life Create their own panda and give it a name Use stickers to feed hungry sea lions Draw underground tunnels for meerkats to explore Add ropes and swings to their gorilla enclosure Colour in leopards and other big cats Doodle baby animals and their parents Stock shelves with souvenirs in the gift shop About Lonely Planet Kids: Come explore!
