

# I Am George Washington (Ordinary People Change The World)

*An adventure-filled retelling based on an episode from the PBS KIDS television series **Xavier Riddle and the Secret Museum** starring Harriet Tubman. Based on the children's book series **Ordinary People Change the World** by New York Times bestselling author Brad Meltzer and illustrator Christopher Eliopoulos, the series introduces kids to inspiring historical figures and the character virtues that helped them succeed. Brad, Xavier, and Yadina need help deciding who the best superhero ever was. Luckily, Berby and the Secret Museum know just where to send them: back in time to meet Harriet Tubman, one of the leaders of the Underground Railroad. This episode-based 8x8 will focus on the traits that made our heroes great--the traits that kids can aspire to in order to live heroically themselves.*

*Kids will be giggling through their own yawns as they enjoy this contagiously adorable bedtime story by the New York Times bestselling illustrator of the **Ordinary People Change the World** books. Two best friends have big plans for their sleepover. They aren't going to go to bed at all--they'll stay up playing all night long. But then it happens: The **YAWNS** show up! And as much as they try to outrun and hide from them, it's no use: The Yawns catch them. Maybe they could keep going anyway, but then a **DOZE** arrives . . . followed by the dreaded **SNORES**. Will our heroes escape the **SLEEPIES**? Need a funny bedtime book that will stealthily bring on a snooze and still have your child asking to hear it night after night? Look no further than **The Yawns Are Coming!***

*A couple of friends can't keep from laughing during class on the first day of school, in this companion to **The Yawns Are Coming** from the illustrator of the **Ordinary People Change the World** series! Two best friends are so excited to go back to school. They're in the same class, their classroom is full of art supplies, and they've even made a new friend. But then it happens: Just as the teacher introduces herself, the **GIGGLES** show up! They're everywhere and impossible to escape. And as if that wasn't embarrassing enough, soon a **GUFFAW** shows up, and then the **CHUCKLES**! What will their teacher think if they can't avoid laughing in the middle of her first lesson?*

*Examines the family life and career of the first American president, also discussing myths and legends, monuments to Washington, and Mount Vernon.*

*A Picture Book Biography*

*I Am Leonardo Da Vinci*

His formal schooling abruptly cut off at age eleven, George Washington saw his boyhood dream of joining the British army evaporate and recognized that even his aspiration to rise in colonial Virginian agricultural society would be difficult. Throughout his life he faced challenges for which he lacked the academic foundations shared by his more highly educated contemporaries. Yet Washington's legacy is clearly not one of failure. Breaking new ground in Washington scholarship and American revolutionary history, Adrienne M. Harrison investigates the first president's dedicated process of self-directed learning through reading, a facet of his character and leadership long neglected by historians and biographers. In *A Powerful Mind*, Harrison shows that Washington rose to meet these trials through a committed campaign of highly focused reading, educating himself on exactly what he needed to do and how best to do it. In contrast to other famous figures of the revolution--Thomas Jefferson, John Adams, Benjamin Franklin--Washington did not relish learning for its own sake, viewing self-education instead as a tool for shaping himself into the person he wanted to be. His two highest-profile and highest-risk endeavors--commander in chief of the Continental Army and president of the fledgling United States--are a testament to the success of his strategy.

George Washington speaks for himself on behalf of liberty and the emerging American republic in this book, the only one-volume compilation in print of his vast writings. This volume includes correspondence, all of his presidential addresses, various public proclamations, his last will and testament, and the most comprehensive recompilation of the "discarded first inaugural" ever printed.

Presents the life of the world-renowned German scientist, describing how his life-long curiosity and ability to question accepted theories led him to develop his famous theory of relativity and win the Noble Prize for Physics.

It's an irresistible combination: Brad Meltzer, a born storyteller, counting down the world's most intriguing unsolved mysteries. And to make this richly illustrated book even richer, each chapter invites the reader along for an interactive experience through the addition of facsimile documents--the evidence! It's a treasure trove for conspiracy buffs, a Griffin and Sabine for history lovers. Adapted from *Decoded*, Meltzer's hit show on the HISTORY network, *History Decoded* explores fascinating, unexplained questions. Is Fort Knox empty? Why was Hitler so intent on capturing the Roman "Spear of Destiny"? What's the government hiding in Area 51? Where did the Confederacy's \$19 million in gold and silver go at the end of the Civil War? And did Lee Harvey Oswald really act alone? Meltzer sifts through the evidence; weighs competing theories; separates what we know to be true with what's still--and perhaps forever--unproved or unprovable; and in the end, decodes the mystery, arriving at the most likely solution. Along the way we meet Freemasons, Rosicrucians, Nazi propagandists, and the real DB Cooper. A riveting adventure through the compelling world of mysteries and conspiracies.

Rules of Civility & Decent Behavior In Company and Conversation began as a school exercise in 1744 for George Washington, who became president of the United States of America. Washington copied a translation of these rules by Francis Hawkins', which was first published around 1640. The majority of the 110 rules originated from a French etiquette manual written in 1599 by the Jesuits, who were members of Jesus, a Roman Catholic order of men noted for educational, charitable and missionary works and teachings.

*The celebrated Ron Chernow provides a richly nuanced portrait of the father of America. With a breadth and depth matched by no other one-volume life, he carries the reader through Washington's troubled boyhood, his precocious feats in the French and Indian Wars, his creation of Mount Vernon, his heroic*

*exploits with the Continental Army, his presiding over the Constitutional Convention and his magnificent performance as America's first president. Despite the reverence his name inspires Washington remains a waxwork to many readers, worthy but dull, a laconic man of remarkable self-control. But in this groundbreaking work Chernow revises forever the uninspiring stereotype. He portrays Washington as a strapping, celebrated horseman, elegant dancer and tireless hunter, who guarded his emotional life with intriguing ferocity. Not only did Washington gather around himself the foremost figures of the age, including James Madison, Alexander Hamilton, John Adams, and Thomas Jefferson, he orchestrated their actions to help realise his vision for the new federal government, define the separation of powers, and establish the office of the presidency. Ron Chernow takes us on a page-turning journey through all the formative events of America's founding. This is a magisterial work from one of America's foremost writers and historians.*

NEW YORK TIMES BESTSELLER "An elegantly written account of leadership at the most pivotal moment in American history" (Philadelphia Inquirer): Pulitzer Prize-winning historian Edward J. Larson reveals how George Washington saved the United States by coming out of retirement to lead the Constitutional Convention and serve as our first president. After leading the Continental Army to victory in the Revolutionary War, George Washington shocked the world: he retired. In December 1783, General Washington, the most powerful man in the country, stepped down as Commander in Chief and returned to private life at Mount Vernon. Yet as Washington contentedly grew his estate, the fledgling American experiment floundered. Under the Articles of Confederation, the weak central government was unable to

revenue to pay its debts or reach a consensus on national policy. The states bickered and grew apart. When a Constitutional Convention established to address these problems, its chances of success were slim. Jefferson, Madison, and the other Founding Fathers realized that only one man could unite the fractious states: George Washington. Reluctant, but duty-bound, Washington rode to Philadelphia in the summer of 1787 to preside over the Convention. Although Washington is often overlooked in most accounts of the period, this masterful history from Pulitzer Prize-winner Edward J. Larson brilliantly uncovers Washington's vital role in shaping the Convention—and shows how it was only with Washington's support and his willingness to serve as President that the states were brought together and ratified the Constitution, thereby saving the country.

The Story of George Washington

A Picture Book of George Washington

**AN INSTANT NEW YORK TIMES BESTSELLER AN NPR CONCIERGE BEST BOOK OF THE YEAR "In her form-shattering and myth-crushing book....Coe examines myths with mirth, and writes history with humor... [You Never Forget Your First] is an accessible look at a president who always finishes in the first ranks of our leaders."**

**—Boston Globe Alexis Coe takes a closer look at our first--and finds he is not quite the man we remember Young George Washington was raised by a struggling single mother, demanded military promotions, caused an international incident, and never backed down--even when his dysentery got so bad he had to ride with a cushion on his saddle. But after he married Martha, everything changed. Washington became the kind of man who named his dog Sweetlips and hated to leave home. He took up arms against the British only when there was no other way, though he lost more battles than he won. After an unlikely victory in the Revolutionary War cast him as the nation's hero, he was desperate to retire, but the founders pressured him into the presidency--twice. When he retired years later, no one talked him out of it. He left the highest office heartbroken over the partisan nightmare his backstabbing cabinet had created. Back on his plantation, the man who fought for liberty must confront his greatest hypocrisy--what to do with the men, women, and children he owns--before he succumbs to death. With irresistible style and warm humor, You Never Forget Your First combines rigorous research and lively storytelling that will have readers--including those who thought presidential biographies were just for dads--inhaling every page.**

*An exploration of fifty influential and inspirational women who changed the world. Everyone is buzzing about the president's birthday! Especially George Washington's servants who scurry around the kitchen preparing to make this the best celebration ever. Oh, how George Washington loves his cake! And, oh, how he depends on Hercules, his head chef, to make it for him. Hercules, a slave, takes great pride in baking the president's cake. But this year there is one problem--they are out of sugar. This story, told in the voice of Delia, Hercules' young daughter, is based on real events, and underscores the loving exchange between a very determined father and his eager daughter who are faced with an unspoken, bittersweet reality.*

**NEW YORK TIMES BESTSELLER** "Travels with George . . . is quintessential Philbrick—a lively, courageous, and masterful achievement." —*The Boston Globe* Does George Washington still matter? Bestselling author Nathaniel Philbrick argues for Washington's unique contribution to the forging of America by retracing his journey as a new president through all thirteen former colonies, which were now an unsure nation. *Travels with George* marks a new first-person voice for Philbrick, weaving history and personal reflection into a single narrative. When George Washington became president in 1789, the United States of America was still a loose and quarrelsome confederation and a tentative political experiment. Washington undertook a tour of the ex-

*colonies to talk to ordinary citizens about his new government, and to imbue in them the idea of being one thing—Americans. In the fall of 2018, Nathaniel Philbrick embarked on his own journey into what Washington called “the infant woody country” to see for himself what America had become in the 229 years since. Writing in a thoughtful first person about his own adventures with his wife, Melissa, and their dog, Dora, Philbrick follows Washington’s presidential excursions: from Mount Vernon to the new capital in New York; a monthlong tour of Connecticut, Massachusetts, New Hampshire, and Rhode Island; a venture onto Long Island and eventually across Georgia, South Carolina, and North Carolina. The narrative moves smoothly between the eighteenth and twenty-first centuries as we see the country through both Washington’s and Philbrick’s eyes. Written at a moment when America’s founding figures are under increasing scrutiny, *Travels with George* grapples bluntly and honestly with Washington’s legacy as a man of the people, a reluctant president, and a plantation owner who held people in slavery. At historic houses and landmarks, Philbrick reports on the reinterpretations at work as he meets reenactors, tour guides, and other keepers of history’s flame. He paints a picture of eighteenth-century America as divided and fraught as it is today, and he comes to understand how Washington compelled, enticed, stood up to, and listened to the many different people he met along the way—and how his all-consuming belief in the union helped to forge a nation.*

*Taking place during the most critical period of our nation’s birth, *The First Conspiracy* tells a remarkable and previously untold piece of American history that not only reveals George Washington’s character, but also illuminates the origins of America’s counterintelligence movement that led to the modern day CIA. In 1776, an elite group of soldiers were handpicked to serve as George Washington’s bodyguards. Washington trusted them; relied on them. But unbeknownst to Washington, some of them were part of a treasonous plan. In the months leading up to the Revolutionary War, these traitorous soldiers, along with the Governor of New York, William Tryon, and Mayor David Mathews, launched a deadly plot against the most important member of the military: George Washington himself. This is the story of the secret plot and how it was revealed. It is a story of leaders, liars, counterfeiters, and jailhouse confessors. It also shows just how hard the battle was for George Washington and how close America was to losing the Revolutionary War. In this historical page-turner, New York Times bestselling author Brad Meltzer teams up with American history writer and documentary television producer, Josh Mensch to unravel the shocking true story behind what has previously been a footnote in the pages of history. Drawing on extensive research, Meltzer and Mensch capture in riveting detail how George Washington not only defeated the most powerful military force in the world, but also uncovered the secret plot*

**against him in the tumultuous days leading up to July 4, 1776. Praise for *The First Conspiracy*: "This is American history at its finest, a gripping story of spies, killers, counterfeiters, traitors?and a mysterious prostitute who may or may not have even existed. Anyone with an interest in American history will love this book." —Douglas Preston, #1 bestselling author of *The Lost City of the Monkey God* "A wonderful book about leadership?and it shows why George Washington and his moral lessons are just as vital today. What a book. You'll love it." —President George H.W. Bush "This is an important book: a fascinating largely unknown chapter of our hazardous beginning, a reminder of why counterintelligence matters, and a great read." —President Bill Clinton**

**The 18th picture book in the New York Times bestselling series of biographies about heroes tells the story of Walt Disney, who made dreams come true. **are depicted as children throughout, telling their life stories in first-person present tense, which keeps the books playful and accessible to young children. And each book ends with a line of encouragement, a direct quote, photos, a timeline, and a source list. This tenth book in the series features Jane Goodall, the scientist and conservationist who is famous for her work with chimpanzees.**

**Mostly hidden from public view, like an embarrassing family secret, scores of putative locks of George Washington's hair are held, more than two centuries after his death, in the collections of America's historical societies, public and academic archives, and museums. Excavating the origins of these bodily artifacts, Keith Beutler uncovers a forgotten strand of early American memory practices and emerging patriotic identity. Between 1790 and 1840, popular memory took a turn toward the physical, as exemplified by the craze for collecting locks of Washington's hair. These new, sensory views of memory enabled African American Revolutionary War veterans, women, evangelicals, and other politically marginalized groups to enter the public square as both conveyors of these material relics of the Revolution and living relics themselves. George Washington's Hair introduces us to a taxidermist who sought to stuff Benjamin Franklin's body, an African American storyteller brandishing a lock of Washington's hair, an evangelical preacher burned in effigy, and a schoolmistress who politicized patriotic memory by privileging women as its primary bearers. As Beutler recounts in vivid prose, these and other ordinary Americans successfully enlisted memory practices rooted in the physical to demand a place in the body politic, powerfully contributing to antebellum political democratization.**

**The 22nd book in the New York Times bestselling series of biographies about heroes tells the story of Anne Frank, the young Jewish girl who documented her life while hiding from the Nazis during World War II. This engaging biography series focuses on the traits that made our heroes great--the traits that kids can aspire to in order to live heroically themselves. Each book tells the story of an icon in a lively, conversational way that works well for the youngest nonfiction readers. At the back are an excellent timeline and photos. This volume features Anne Frank, whose courage and hope during a time of terror are still an inspiration for people around the world today. While Anne and her family hid in an attic during the Holocaust, she kept a journal about all her hopes and fears and observations. That journal and the story of her life are still read and told today to remember the life of a young girl and warn against the consequences of bigotry.**
