~~Increasing Small Arms Lethality In Afghanistan: Taking ...~~

Operations in Afghanistan frequently require United States ground forces to engage and destroy the enemy at ranges beyond 300 meters. These operations occur in rugged terrain and in situations where traditional supporting fires are limited due to range or risk of collateral damage. With these limitations, the infantry in Afghanistan require a precise, lethal fire capability that exists only in ...

Has anyone taken a look at the paper "Increasing Small Arms Lethality in Afghanistan: Taking Back the Infantry Half-Kilometer" by MAJ Thomas P. Ehrhart? From what I have heard it has caused something of a stir within the US Army. The debate over replacing US infantry weapons and marksmanship training has gone on for a little, but here someone has finally put it into a serious thesis.
