The Entrepreneur's Journey: A few years ago you started your business, either on your own or with a business partner(s). There's a high chance that you come from a technical background and are good at what you do. You started your own business with great plans and, for a number of years, it has grown well, based on your sheer determination, hard work and passion. In time you

have managed to get it over the £1m turnover 'mountain' and you've taken on employees. So what's next? And this is where you've got stuck. The growth of your business has now slowed down, has plateaued or dropped back. Since you started the business has changed considerably, and you've changed with it. When you started out you had a dream about how your life was going to pan out, all the things you were going to do. But the greatest challenge to you now is TIME. Where does it go to? You start every week with great gusto, determined you're going to smash that to-do list; Before you know it, BAM! It's Friday again. As the months roll by you are more worn down and frustrated. Yes, there are some highs but it's not what you really want, and you know you can achieve so much more. You start to look overly forward to weekends and holidays and, before long, you've become an employee. You have lost sight of the reason you started the business, and in the words of Bob Geldof, you "Don't like Mondays". Life is starting to feel a bit like Groundhog Day: every week is filled with unwanted noise and, before you know it, it's the weekend again. You have started to become bored, easily distracted, disinterested and have lost your mojo. If you haven't already, or you have, but not quite realised that you have, you will start to fall out of love with your business. You have started to fall out of love with your business. How do you know? You've lost the passion and drive you once felt. You're bored and easily distracted. You blame the industry, the economy, your competitors or anyone else. You're frustrated and stressed. But there's something else lurking deep inside...The Fear of Failure. Without knowing it you've also developed a fear of failure. You're worried that you have built your business this far and, if you try to change it, it could all come tumbling down and you will lose everything. So, the best thing to do is to bury your head in the sand and 'pretend/hope/kid yourself' something magical will happen, and it will change. How can I fall back in love with my business? You are not alone. All your feelings, challenges and fears are a normal part of the Entrepreneur's Journey and shared across most £1m-plus growing businesses. Your strength now is to recognise the traits and signs mentioned above and do something about it. By reading and implementing the principles that I'm going to share with you in this book, your business will be easier and more enjoyable to manage. Through focus, better utilisation of your team, and by doing the things you enjoy, you'll achieve the aspirational results you desire and fall back in love with your business. Real results drive wealth and, in turn, you will start to live the dream that your hard work deserves. It's time to stop procrastinating. "Only sh#t happens, everything else you have to make happen." How To Fall Back In Love With Your Business

Book Praise & Reviews ""As a how-to guide, this book contains everything you may need to know to turn your passions into profits."" Bill Bartmann (Billionaire entrepreneur, author, speaker, educator) Read & Give Program A portion of the sale of this book is donated to charity. Book Description Are you unhappy in your job? Are you tired of living paycheck to paycheck and feel like you just don't have enough money, skills, or education to turn your life around? Even if you're not sure you know what it is you like to do, you can change your life and get rich doing it, says entrepreneur Duane Harden in his wise and entertaining new book, 5 Easy Steps to Financial Freedom: Do What You Love & Get Rich Doing It. Turning your passion into a profitable business is easy, fast, and fun, says Harden, and you can become rich in just five easy steps. First, start by saying yes to financial freedom. Attitude is everything and as the Law of Attraction states, what you put out into the universe is often what you attract. If you imagine yourself financially secure and happy, you will be. Imagining a new life for yourself is the inspiration you need to go out and do the concrete things to turn your dreams into a reality. Conversationally written and filled with humorous drawings, helpful worksheets, and key tips, 5 Easy Steps to Financial Freedom also offers a 90-day action plan that includes blueprints for success that Harden himself used to build his wealth. His own journey included the purchase of numerous real-estate properties, opening a restaurant, starting a music company, and much more. Harden gives you "Life Assignments" that get you thinking and acting differently. Beware of what he calls the "crabs in a pot" mentality, where everyone is trying to pull everyone else down in order to struggle to the top. Instead, he advises, think positively. Stay away from the naysayers and feed your dream. Soon you will realize that your inner life is reflected in your outer life. Harden helps you to discover the real you, what you want, and how much money you want to be there for you now and in the future. He explains how the real difference between rich people and poor people is fear and an unwillingness to keep an open mind to new opportunities. Rich people are not afraid to take risks, and well-planned risks almost always pay off. Success, he reminds you, is your birthright and it's your job to claim it. Review your credit and your financial house. Clean up the clutter in your life, whether it is the wrong way of thinking or a messy desk. Discover what really makes you tick because when you love what you do it's never really work, and when passion is present the money will miraculously follow. Keep daily positive reminders taped where you can see them, or even have a vision board filled with photographs of where you want to be in life. Write your resignation letter to your boss, but don't send it yet. Just the act of writing it puts you in the right frame of mind for moving on to something much better. "You are what

you think and will become what you dream," says Harden. You'll learn to be a PIG (passive income generator) Farmer, which requires little work but makes you tons of money. 5 Easy Steps to Financial Freedom shows you how go from rags to riches and is understandable and easy to read. This invaluable guide will change your life!

Outlines cash flow and cash management for the small business owner, accountant, or entrepreneur. Real estate has probably made more millionaires than any other financial vehicle. Flipping Properties highlights one method of investing in real estate, "flipping," which is a great way to begin building wealth with real estate. Flipping is growing so popular, in fact, that in Broomfield, CO (a suburb of Denver), 40 percent of newly built homes were sold to investors who intended to "flip" the properties. This practice is continuing to grow in cities across the country. Flipping Properties teaches beginners how to reap the financial and personal rewards of a full or part-time venture in real estate investing, including cash flow, security, and long-term wealth.

While there are numerous Lean Certification programs, most companies have their own certification paths whereby they bestow expert status upon employees after they have participated in or led a certain number of kaizen events. Arguing that the number of kaizen events should not determine a person's expert status, The Lean Practitioner's Field Book: Proven, Practical, Profitable and Powerful Techniques for Making Lean Really Work outlines a true learning path for anyone seeking to understand essential Lean principles. The book includes a plethora of examples drawn from the personal experiences of its many well-respected and award-winning contributors. These experts break down Lean concepts to their simplest terms to make everything as clear as possible for Lean practitioners. A refresher for some at times, the text provides thought-provoking questions with examples that will stimulate learning opportunities. Introducing the Lean Practitioner concept, the book details the five distinct Lean Practitioner levels and includes quizzes and criteria for each level. It highlights the differences between the kaizen event approach and the Lean system level approach as well as the difference between station balancing and baton zone. This book takes readers on a journey that begins with an overview of Lean principles and culminates with readers developing professionally through the practice of self-reliance. Providing you with the tools to implement Lean tools in your organization, the book includes discussions and examples that demonstrate how to transition from traditional accounting methods to a Lean accounting system. The book outlines an integrated, structured approach identified by the acronym BASICS (baseline, analyze, suggest solutions, implement, check, and sustain), which is combined with a proven business strategy to help ensure a successful and sustainable transformation of your organization.

Brian Tracy, one of the top professional speakers and sales trainers in the world today, found that his most important breakthrough in selling was the discovery that it is the "Psychology of Selling" that is more important than the techniques and methods of selling. Tracy's classic audio program, The Psychology of Selling, is the best-selling sales training program in history and is now available in expanded and updated book format for the first time. Salespeople will learn: "the inner game of selling" how to eliminate the fear of rejection how to build unshakeable self-

confidence Salespeople, says Tracy, must learn to control their thoughts, feelings, and actions to make themselves more effective. Author of cult classics *The Pumpkin Plan* and *The Toilet Paper Entrepreneur* offers a simple, counterintuitive cash management solution that will help small businesses break out of the doom spiral and achieve instant profitability. Conventional accounting uses the logical (albeit, flawed) formula: Sales - Expenses = Profit. The problem is, businesses are run by humans, and humans aren't always logical. Serial entrepreneur Mike Michalowicz has developed a behavioral approach to accounting to flip the formula: Sales - Profit = Expenses. Just as the most effective weight loss strategy is to limit portions by using smaller plates, Michalowicz shows that by taking profit first and apportioning only what remains for expenses, entrepreneurs will transform their businesses from cash-eating monsters to profitable cash cows. Using Michalowicz's Profit First system, readers will learn that:

- Following 4 simple principles can simplify accounting and make it easier to manage a profitable business by looking at bank account balances.
- A small, profitable business can be worth much more than a large business surviving on its top line.
- Businesses that attain early and sustained profitability have a better shot at achieving long-term growth.

With dozens of case studies, practical, step-by-step advice, and his signature sense of humor, Michalowicz has the game-changing roadmap for any entrepreneur to make money they always dreamed of.

This book encourages the reader to become instant publishers of: selected easy recipes with food for the soul; how to start instant wealth producing home-based businesses and money making reports; \$1,000 million dollar order producing sales letters; and, tested turnkey cash producing businesses. This book can give you the knowledge which will be the catalyst for change in your life. Everyone dreams of doing something that they love for the rest of their life. No college student looks towards the next thirty years and thinks "I don't care if I have to sit in an office for forty hours a week and work with a job I didn't go to school for." Although with the current state of the economy, many people have chosen money over passion with regards to their career, everyone would choose a job that they love over settling for something they never wanted if money is taken out of the equation. Have you reached that point in your job where you're thinking 'enough is enough'?

In this book, Christian Rodwell, the Founder of Escape The Rat Race, shows that there is a proven process anyone who is currently employed but looking to start their own business can follow: 'The choices for someone wishing to exit a corporate 9-5 job and start a new business are numerous and this can easily lead to overwhelm, confusion....and over-analysing the options for so long that you end up taking no action at all. Not everyone who wishes to quit the rat race and start a business knows exactly what business would be best suited to them initially. This book will help you to get to know yourself better, identifying your motives for wanting to sack your boss and answering the question, 'what would I would love to do each day if money were no object?'. Christian Rodwell has been through all of these challenges himself, and has worked with over 1000 other '#escapees' who are on the same journey. Christian illustrates within this book his process for helping such individuals map out their very own '9-5 escape plan' - 'The Five Step Freedom Formula™'. I'll guide you through the steps you need to take before you identify
