Reproduction of the original: Duth Fairy Tales For Young Folks by William Elliot Griffis

Adolescent girls between the ages of fifteen and eighteen shared with Parker and her co-authors life stories that show how they struggle to make sense of their experiences of racism, sexism, classism, and heterosexism in light of their belief in God or their concept of a higher divine power. The groups of adolescent girls interviewed include Korean Americans, African Americans, Native Americans, Latinas, working-class whites, and lesbians. The closing chapter revisits the prominent themes from each chapter, challenging those concerned about fostering a spirituality that is life giving for girls who struggle with racism, classism, sexism, and heterosexism. In addition, it explores the concepts of realization, resistance, resilience, and ritual as four essential components for nurturing a wholesome spirituality in adolescent girls

Frank Li is a high school senior living in Southern California. Frank's parents emigrated from Korea, and have pretty much one big rule for Frank - he must only date Korean girls. But he's got strong feelings for a girl in his class, Brit - and she's not Korean. His friend Joy Song is in the same boat and knows her parents will never accept her Chinese American boyfriend, so they make a pact: they'll pretend to date each other in order to gain their freedom. Frank thinks fake-dating is the perfect plan, but it leaves him wondering if he ever really understood love - or himself - at all. David Yoon's debut novel is a quirky, authentic, heartbreaking romantic comedy and a refreshingly different take on race, immigrant communities, friendship and family.

These letters tell the story of a young American woman of Japanese descent who was stranded in Japan during World War II. They chronicle her turbulent life from her arrival in Japan through her experiences as a civilian employee of U.S. forces in the first years of the American occupation.

Denver's beloved columnist Gene Arrole stunned readers of the Rocky Mountain News in October 2001 when he announced in his column that he was dying. He passed away six months later, just shy of his 79th birthday. This book presents Arrole's powerful, poignant, and first-person account of his last days.

In 1986, Mayumi left Japan with a bicycle to flee from constrains of life as a Japanese girl. Without a plan nor travelling experiences, she kept pedalling around the globe – during the final epoch of the Cold War – for about 35,000 kilometres, facing various kinds of difficulties and taking advantage of people ’ s goodwill. This is the travel story of about the first half of her drifting passage, from Japan up to the last stop in South America – Brazil – in which there are clues to interpret the enigma of Japan and Japanese as well as a cross section of Latin America in the Cold War era.

*Over the last 20 years, ethnic minority groups have been increasingly featured in Japanese Films. However, the way these groups are presented has not been a subject of investigation. This study examines the representation of so-called Others – foreigners, ethnic minorities, and Okinawans – in Japanese cinema. By combining textual and contextual analysis, this book analyses the narrative and visual style of films of contemporary Japanese cinema in relation to their social and historical context of production and reception. Mika Ko considers the ways in which ‘multicultural’ sentiments have emerged in contemporary Japanese cinema. In this respect, Japanese films may be seen not simply to have ‘reflected’ more general trends within Japanese society but to have played an active role in constructing and communicating different versions of multiculturalism. In particular, the book is concerned with how representations of ‘otherness’ in contemporary Japanese cinema may be identified as reinforcing or subverting dominant discourses of ‘Japaneseness’. the author book also illuminates the ways in which Japanese films have engaged in the dramatisation and elaboration of ideas and attitudes surrounding contemporary Japanese nationalism and multiculturalism. By locating contemporary Japanese cinema in a social and political context, Japanese Cinema and Otherness makes an original contribution to scholarship on Japanese film study but also to bridging the gap between Japanese studies and film studies.*

**Grand in its scope, Asian Comics dispels the myth that, outside of Japan, the continent is nearly devoid of comic strips and comic books. Relying on his fifty years of Asian mass communication and comic art research, during which he traveled to Asia at least seventy-eight times and visited many studios and workplaces, John A. Lent shows that nearly every country had a golden age of cartooning and has experienced a recent rejuvenation of the art form. As only Japanese comics output has received close and by now voluminous scrutiny, Asian Comics tells the story of the major comics creators outside of Japan. Lent covers the nations and regions of Bangladesh, Cambodia, China, Hong Kong, India, Indonesia, Korea, Malaysia, Myanmar, Nepal, the Philippines, Singapore, Sri Lanka, Taiwan, Thailand, and Vietnam. Organized by regions of East, Southeast, and South Asia, Asian Comics provides 178 black-and-white illustrations and detailed information on comics of sixteen countries and regions—their histories, key creators, characters, contemporary status, problems, trends, and issues. One chapter harkens back to predecessors of comics in Asia, describing scrolls, paintings, books, and puppetry with humorous tinges, primarily in China, India, Indonesia, and Japan. The first overview of Asian comic books and magazines (both mainstream and alternative), graphic novels, newspaper comic strips and gag panels, plus cartoon/humor magazines, Asian Comics brims with facts, fascinating anecdotes, and interview quotes from many pioneering masters, as well as younger artists.**

**This book studies the three concepts of translation, education and innovation from a Nordic and international perspective on Japanese and Korean societies. It presents findings from pioneering research into cultural translation, Japanese and Korean linguistics, urban development, traditional arts, and related fields. Across recent decades, Northern European scholars have shown increasing interest in East Asia. Even though they are situated on opposite sides of the Eurasia landmass, the Nordic nations have a great deal in common with Japan and Korea, including vibrant cultural traditions, strong educational systems, and productive social democratic economies. Taking a cross-cultural and interdisciplinary approach, and in addition to the examination of the three key concepts, the book explores several additional intersecting themes, including sustainability, nature, humour, aesthetics, cultural survival and social change, discourse and representation. This book offers a collection of original interdisciplinary research from the 25th anniversary conference of the Nordic Association for Japanese and Korean Studies (2013). Its 21 chapters are divided into five parts according to interdisciplinary themes: Translational Issues in Literature, Analyses of Korean and Japanese Languages, Language Education, Innovation and New Perspectives on Culture, and The Arts in Innovative Societies.**

**This volume makes available for the first time in English two of the most important novels of Japanese colonialism: Yuasa Katsuei’s Kannani and Document of Flames. Born in Japan in 1910 and raised in Korea, Yuasa was an eyewitness to the ravages of the Japanese occupation. In both of the novels presented here, he is clearly critical of Japanese imperialism. Kannani (1934) stands alone within Japanese literature in its graphic depictions of the racism and poverty endured by the colonized Koreans. Document of Flames (1935) brings issues of class and gender into sharp focus. It tells the story of Tokiko, a divorced woman displaced from her Japanese home who finds herself forced to work as a prostitute in Korea to support herself and her child. Tokiko eventually becomes a landowner and oppressor of the Koreans she lives amongst, a transformation suggesting that the struggle against oppression often ends up replicating the structure of domination. In his introduction, Mark Driscoll provides a nuanced and engaging discussion of Yuasa’s life and work and of the cultural politics of Japanese colonialism. He describes Yuasa’s sharp turn, in the years following the publication of Kannani and Document of Flames, toward support for Japanese nationalism and the assimilation of Koreans into Japanese culture. This abrupt ideological reversal has made Yuasa’s early writing—initially censored for its anticolonialism—all the more controversial. In a masterful concluding essay, Driscoll connects these novels to larger theoretical issues, demonstrating how a deep understanding of Japanese imperialism challenges prevailing accounts of postcolonialism.**

“Phyllis, this is a spectacular and fascinating memoir. Not only did I learn so much about you, but I learned a tremendous amount about Japanese culture and customs, especially about all the fine details of Japanese domestic life. Your memory, attention to minute yet important and interesting details – especially eating, sleeping, and bathing arrangements – passages about the bombing, and shipboard accounts are riveting. This is a moving, powerful, graceful, and loving tribute to the years you spent in Japan, and more importantly, to your ability to truly make the most of it.” - Linda Charnes, Professor of English, Indiana University

Culturally different from both Korean nationals and Japanese, third-generation Korean migrants have developed a complex ethnic identity through their struggles with Japanese racism.

This new inter-disciplinary book is the first comparative, case-based analysis of media panoply in (and out of) Asia today. Examining what the authors call the "media/tion equation", the contributors demonstrate the multiple links between media, society and culture, and advance the claim that media is the key means through which Asians experience, understand, effect and are affected by the w cultural studies - that context counts - medi@sia highlights how the experiences of those encountering media messages differ depending on social, economic, politial and ideational conditions. Balancing social, cultural and media theory with empirical research, the essays in this collection provide a better understanding of the complex relationship between media and people's practices, values and Japanese popular culture is constantly evolving in the face of internal and external influence. Popular Culture, Globalization and Japan examines this evolution from a new and challenging perspective by focusing on the movements of popular culture into and out of Japan. Taking a multidisciplinary approach, the book argues that a key factor behind the changing nature of Japanese popular culture of leading international scholars illustrate this crucial interaction between the flows of Japanese popular culture and the constant development of globalization. Drawing on rich empirical content, this book looks at Japanese popular culture as it traverses international borders flowing out through such forms as manga consumption in New Zealand and flowing in through such forms as foreigners affected the formation of Japan's gay identity. Presenting current, confronting and sometimes controversial insights into the many forms of Japanese popular culture emerging within this global context, Popular Culture, Globalization and Japan will make essential reading for those working in Japanese studies, cultural studies and international relations.

17-syllabet Japanese poems about human foibles, sans season (i.e., not haiku), were introduced a half-century ago by RH Blyth in two books, "Edo Satirical Verse Anthologies" and "Japanese Life and Character in Senryu." Blyth regretted having to introduce not the best senryu, but only the best that were clean enough to pass the censors. In this anthology, compiled translated and essayed by Robin D. Gill, like Blyth, a renowned translator of thousands of haiku, we find 1,300 of the senryu (and zappai) that would once have been dangerous to publish. The book is not just an anthology of dirty poems such as Legman's classic "Limericks" or Burford's delightful "Bawdy Verse," but probing essays of thirty themes representative of eros - both real and imaginary - of Edo, at the time, the world's largest city. Japanese themselves use senryu for historical documentation of social attitudes and cultural practices; thousands of senryu (and the related zappai), including many poems we might consider obscene, serve as examples in the Japanese equivalent of the OED (nipponkokugodajiten). The specialized argot, obscure allusions and ellipsis that make reading dirty senryu a delightful riddle for one who knows just enough to be challenged yet not defeated, make them impenetrable to outsiders, so this educational yet entertaining resource has not been accessible to most students of Japanese (and the limited translations prove that even professors have difficulty with it). This book tries to accomplish the impossible: it includes all the information - original poems, pronunciation, explanation, glossary - needed to help specialists improve their senryu reading skills, while refraining from full citations to leave plenty of room for the curious monolingual to skip about the eclectic goodies. [Published simultaneously with two titles as an experiment.]

The lack of a clear-cut victory inspired filmmakers to try to make sense of fighting another country’s civil war and risking American lives for an unpopular cause. This book places each film in its historical context, assesses the essential truthfulness of each film and evaluates its entertainment value, and discusses how—and why—Korean War films differ from other Hollywood war genres. **James Church, a former Western intelligence officer, returns to the secret world of North Korean intelligence with another “crackling good” (The Washington Post) story in his critically acclaimed Inspector O series. Under the guise of machinery for making dumplings, a Spanish factory near Barcelona is secretly producing a key component in the production of nuclear weapons. When information finds its way to the inboxes of Western intelligence agencies that this “dumpling maker” is meant for North Korea, orders go out that the shipment must be stopped. Either the machine must be disabled while still in the factory, or the transportation route must be discovered so the equipment can be intercepted before it reaches its destination. An old friend recruits Inspector O to assist in the complex operation designed to disrupt the plans for shipping the machine. Carefully planted bits of information and bizarre events have led both the Spanish factory and those trying to intercept the machine to conclude that Japanese criminal organizations are involved in buying and transporting the “dumpling” machine in order to hide the involvement of North Korea. A flurry of murders puts the focus on the northeast Chinese city of Yanji, near the border with North Korea, where O’s nephew Major Bing is the Chief of State Security. Bing has his own problems dealing with a corrupt local mayor who is out for his head, coping with a new deputy who cannot be trusted, and figuring out why a Chinese gangster he’s worked for years to chase away has suddenly returned. Church— hailed as “the equal of le Carré” by Publishers Weekly — takes O deep into a maze of cracked mirrors that hide the exits from an elaborate, deadly double blind in his most elaborate mystery yet, The Gentleman from Japan.**

A few years ago, Sun-Hae Kim met a female student at a British museum who was studying medieval women’s social activities. She was unable to find information from women at that time because they didn’t leave much in written form. She then looked around for some nurses’ autobiographies and again found very little information available, even by Florence Nightingale. In response to this lack of personal writing from nurses, she presents Among Hibiscus and Roses, an account of her years as a nurse. She tells of the challenges of being an army nurse and of the fun times with her fellow nurses. She approached each new challenge with expectation and the hope that she would be helping more people. When she immigrated to the United States, she faced new cultures, languages, and social life; she met many new and interesting people. Throughout her transition, she was filled with wonder and excitement for her new life. Most importantly, she recounts the challenges and rewards of being a nurse for over thirty-seven years, in both South Korea and the United States. She lived proudly a life that was not old fashioned and yet still proved she could be happy and healthy without indulging in drugs, alcohol, sex, and gambling. Sharing the too-often-unheard story of a nurse, Among Hibiscus and Roses describes a unique and out-of-the-ordinary life journey.

For more than three decades, the multifaceted alliance between the United States and Japan has contributed significantly to the security of Japan and the maintenance of peace and security in the Far East. With the end of the Cold War, new issues have arisen that challenge the roles each nation will play in the region and how they will allocate responsibilities.

Showa, Japanese for ‘radiant peace’, was the name given to Emperor Hirohito’s reign at his accession in 1926. This was the beginning of a significant period of growth of militarism, the Pacific war and the phenomenal post-war economic expansion of Japan. The first book to present modern Japanese history through the eyes of individuals, Showa presents the experiences of three individuals born at the beginning of this age, giving a unique inside view of Japan’s recent history. Their experiences include training as a suicide pilot, being a draft evader during the Pacific War, a leader in the Communist Party, and a colonist in Korea, turned overnight in August 1945 from a member of the ruling elite into a refugee. First published in 1984, this title is part of the Bloomsbury Academic Collections series.
