Compendio di luce. Raccolta di scritti che illuminano: Le parole come scrigni custodiscono emozioni, sensazioni e sentimenti. Pausa, dolore, speranza e sogni a volte sembrano traboccare dalle lettere come da un vaso di Pandora e una volta aperto il coperchio le emozioni si diffondono tutto attorno, anche se spesso ci ritroviamo a pensare che alcune emozioni non è facile comunicarle e trasmetterle con le parole. Questa raccolta di aforismi e brani a cura di Nadia Casini ci guiderà alla scoperta di un mondo interiore che è l'essenza della vita di ciascuno di noi. Da Osho a Gandhi, da Madre Teresa di Calcutta a san Francesco, ci ritroveremo a riflettere sull'importanza e unicità di ogni uomo, sul valore dell'amore e dell'amicizia, sulla bellezza della natura e della vita.

The Portrait of the Lover

**Vita Merlini, or The Life of Merlin**, is a work by the Norman-Welsh author **Geoffrey of Monmouth**, composed in Latin around **AD 1150**. It retells incidents from the life of the Brythonic seer Merlin, and is based on traditional material about him. Merlin is described as a prophet in the text. There are a number of episodes in which he loses his mind and lives in the wilderness like a wild animal, like Nebuchadnezzar in the Book of Daniel. It is also the first work to describe the Arthurian sorceress Morgan le Fay, as Morgen. Geoffrey had written of Merlin in his two previous works, the Prophetiae Merlini, purported to be a series of prophecies from the sage, and the Historia Regum Britanniae, which is the first work presenting a link between Merlin and King Arthur. The Vita Merlini presents an account of Merlin much more faithful to the Welsh traditions about Myrddin Wyllt, the archetype behind Geoffrey's composite figure of Merlin. Whereas the Historia had Merlin associating with Arthur, his father Uther Pendragon, and his uncle Ambrosius in the 5th century, the Vita's timeframe is during the late 6th century, and includes references to various figures from that period, including Gwenddoleu and Taliesin. Geoffrey attempts to synchronize the Vita with his earlier work by having Merlin mention he had been with Arthur long before.

In a rich and engaging book that illuminates the lives and attitudes of peasants in preindustrial Europe, Piero Camporesi makes the unexpected and fascinating claim that these people lived in a state of almost permanent hallucination, drugged by their very hunger or by bread adulterated with hallucinogenic herbs. The use of opiate products, administered even to infants and children, was widespread and was linked to a popular mythology in which herbalists and exorcists were important cultural figures. Through a careful reconstruction of the everyday lives of peasants, beggars, and the poor, Camporesi presents a vivid and disconcerting image of early modern Europe as a vast laboratory of dreams. "Camporesi is as much a poet as a historian. . . . His appeal is to the senses as well as to the mind. . . . Fascinating in its details and compelling in its overall message."—Vivian Nutton, Times Literary Supplement "It is not often that an academic monograph in history is also a book to fascinate the discriminating general reader. Bread of Dreams is just that."—Kenneth McNaught, Toronto Star "Not religion but bread was the opiate of the poor, Mr. Camporesi argues. . . . Food has always been a social and mythological construct that conditions what we vainly imagine to be matters of personal taste. Our hunger for such works should tell us that food is not only good but essential to think and to read as if our lives depended on it, which they do."—Betty Fussell, New York Times Book Review

The age of the myth lives on in Ireland - in folk tales and literature, in place-names and language, in ceremonies and monuments. This work explores Ireland's four provinces to discover the places at the root of Irish myth and legend. Focal mythic sites such as St Patrick's Purgatory in Ulster, Loster Gur in Munster and Dublin in Leinster, are surveyed from a fifth province Mide where the entire island is seen to be held in a web of pre-historic sites aligned with solar-lunar events. Ireland's sacred locations take on contemporary relevance as the book shows that the underlying concerns of myth - conservation and recurrence - are increasingly present concerns.

The new year had begun and January was already nearing its end, but it was still very cold. The sparrows found it strange, that the men had declared that it was the new year, as everyone knows that the year only begins with the coming of spring. However, spring was late and a few intrepid sparrows decided to go looking for it. Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include "The Emperor's New Clothes", "The Little Mermaid", "The Nightingale", "The Steadfast Tin Soldier", "The Snow Queen", "The Ugly Duckling" and "The Little Match Girl". His books have been translated into every living language, and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably by Disney with the animated films "The Little Mermaid" in 1989 and "Frozen", which is loosely based on "The Snow Queen", in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.
