generation. Highlighting many of the different sectors within the motorbike space, *The Big Book of Motorbikes* takes the reader on a two-wheeled journey they will want to read again and again. This is a fun and educational volume for children illustrated and brightly colored by the book's designer, Asim Hussain. From industry to competition, records and just riding for fun, *The Big Book of Motorbikes* has it all just waiting for you to explore!

Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.

a personal and philosophical odyssey into fundamental questions of how to live. Resonant with the confusions of existence, Zen and the Art of Motorcycle Maintenance is a touching and transcendent book of life. Tea-drinking is a ritual that binds people together. Alan Whelan was on a unique quest: to find the people at the hidden heart of Africa... and sit down for a nice cup of tea with them. On the 14,000-mile solo journey through Morocco, Mauritania, Mali and all the way to Cape Town across deserts and the toughest roads imaginable, he met sporting legends and ministers, peacekeepers and outlaws, and countless people who shared their last morsel of food with him. Armed with little more than blind optimism, he experienced a jaw-dropping ride. Uplifting, insightful and funny, this is the story of one man's determination through the most physically and emotionally challenging five months of his life.
