Jump Up! Caribbean Carnival Music in New York City is the first comprehensive history of Trinidadian calypso and steelband music in the diaspora. Carnival, transplanted from Trinidad to Harlem in the 1930s and to Brooklyn in the late 1960s, provides the cultural context for the study. Blending oral history, archival research, and ethnography, Jump Up! examines how members of New York's diverse Anglophile-Caribbean communities forged transnational identities through the self-conscious embrace and transformation of select Carnival music styles and performances. The work fills a significant void in our understanding of how Caribbean Carnival music—specifically calypso, soca (soulcalypso), and steelband—evolved in the second half of the twentieth century as it flowed between its Island homeland and its burgeoning New York migrant community. Jump Up! addresses the issues of music, migration, and identity head on, exploring the complex cycling of musical practices and the back-and-forth movement of singers, musicians, arrangers, producers, and cultural entrepreneurs between New York's diasporic communities and the Caribbean.

In higher music education, learning in social settings (orchestras, choirs, bands, chamber music, and so on) is prevalent, yet understanding of such learning rests heavily on the transmission of knowledge and skill from master to apprentice. This narrow view of learning trajectories pervades in both one-to-one and one-to-many contexts. This is surprising given the growing body of knowledge about the power of collaborative learning in general, underpinned by theoretical developments in educational psychology: the social dimensions of learning, situational learning and concepts of communities of learners. Collaborative Learning in Higher Music Education seeks to respond to the challenge of becoming more conscious of the creative and multiple dimensions of social interaction in learning music, in contexts ranging from interdisciplinary projects to one-to-one tuition, and not least in the contemporary context of rapid change in the cultural industries and higher education as a whole. It brings together theoretical papers and case studies of practice. Themes covered include collaborative creativity, communities of practice, peer-learning, co-teaching as co-learning, assessment and curriculum structures. Chapters illuminate reasons for enabling collaborative learning, and provide exemplars of innovative practice and designs for collaborative learning environments in higher music education. A central purpose of the book is to scaffold change, to help in meeting the rapid changes in society and to find constructive stepping stones or signposts for teachers and students.

Examines musical life in the seventeenth century, a period of profound change in the history of music.

Juan Bautista Plaza (1888-1965) was one of the most important musicians in the history of Venezuela. In addition to composing in a variety of genres and styles, he was the leading figure in Venezuelan music education and musicology at a time when his compatriots were seeking to solidify their cultural identity. Plaza's compositions in the emerging nationalist style and his efforts to improve musical institutions in his home country parallel the work of contemporaneous Latin American musicians including Carlos Chávez of Mexico, Amadeo Roldán of Cuba, and Camargo Guarnieri of Brazil. Plaza's life and music are little studied, and Laboville's ambitious book is the first in English to be based on his extensive writings and compositions. As these and other documents show, Plaza filled numerous roles in Venezuela's musical infrastructure including researcher, performer, teacher, composer, promoter, critic, chapel master, and director of national culture. Laboville examines Plaza's many roles in an attempt to assess how the nationalist spirit affected art music culture in Venezuela, and what changes it brought to Venezuela's musical landscape.

There has been an exponential explosion in the production and consumption of video online and yet there is a scarcity of knowledge and cases about video and the digital archive. This book seeks to address that through the lens of the project Circus Oz Living Archive. This project provides the case study foundation for the articulation of the issues, challenges and possibilities that the design and development of digital archives afford. Drawn from eight different disciplines and professions, the authors explore what it means to embrace the possibilities of digital technologies to transform contemporary cultural institutions and their archives into new methods of performance, representation and history.

A pioneering survey of leading and emerging global artists, curators and art practitioners on the question: can art aid in conflict resolution and therefore reduce global tensions and human suffering? The aim of this project is to explore how art can assist in creating dialogue and bridges across cultures and opposing groups. Over 100 leading and emerging architects, artists, curators, choreographers, composers, and directors of art institutions around the globe explore the potentially constructive role of the arts in conflict resolution. This is the autobiography of a master musician, the King of British blues saxophone. In the 60s and 70s Dick was the cornerstone of such seminal R&B bands as Alexis Korner's Blues Incorporated, the Graham Bond Organisation, John Mayall's Bluesbreakers and Colosseum, paving the way for R&B-influenced rock groups like Fleetwood Mac, the Yardbirds, the Animals and the Rolling Stones. With his pithy humor, Dick describes the revolutionary founding years of British R&B - his anecdotes about Ginger Baker, Alexis Korner, Charlie Watts and the unforgettable Graham Bond alone are worth the price. An extraordinarily entertaining book, Dick's unrelentingly honest account of his musical career also reflects on what it takes to be a full time musician, and grapples with the racism and drug abuse endemic in the music industry. In the back of the book is a CD featuring 25 minutes of previously unreleased tracks by Dick Heckstall-Smith, illustrating the sheer musical diversity of his work.

This much anticipated book is the first solid appraisal of the legendary career of Fritz Reiner (1888-1963), the eminent Hungarian-born conductor. Personally enigmatic and often described as difficult to work with, he was nevertheless renowned for the dynamic galvanization of the orchestras he led, a nearly unrivaled technical ability, and high professional standards.

Kenneth Morgan has consulted printed and archival resources and undertaken new interviews with Reiner's associates, critics, and family. Fritz Reiner, Maestro and Martinet also offers the first close and systematic look at Reiner's recordings, interpretations, and musicality, vividly characterizing Reiner's distinctive qualities as a conductor. A Reiner on CD discography lists recordings by orchestras or other groups that Reiner conducted.

Proudly learned, alive to the massive social changes of her time, defiant of many Victorian orthodoxies, George Eliot has always challenged her readers. She is at once chronicler and analyst, novelist of nostalgia and monumental thinker. In her great novel Middlemarch she writes of 'that tempting range of relevancies called the universe'. This volume identifies a range of 'relevancies' that inform both her fictional and her non-fictional writings. The range and scale of her achievement are brought into focus by cogent essays on the many contexts - historical, intellectual, political, social, cultural - to her work. In addition there are discussions of her critical history and legacy, as well as of the material conditions of production and distribution of her novels and her journalism. The volume enables fuller understanding and appreciation, from a twenty-first-century standpoint, of the life and work of one of the nineteenth century's major writers.

Maurice Peress leads an unusual American musical life. Born to a Baghdadian father and Polish mother, his first music was Arabic and Yiddish songs. He grew up in New York's Washington Heights, became a busy dance band and symphonic trumpeter, and was drafted towards the end of the Korean conflict, landing him in a newly integrated Negro Regimental Band. In this memoir, he shares what he learned from an enormous range of American works and musicians. In his first book, Peress explored America's music and its African American roots. A musical mission emerges, a lifelong commitment to 'give concerts that reconstruct delicious mixed marriages of music, black and white, jazz and classical, folk and concert, Native American and European; works that bring people together, that urge us to love one another."

A conductor reveals powerful leadership lessons by explaining the inner workings of a symphony orchestra Roger Nierenberg, a veteran conductor, is the creator of The Music Paradigm, a unique program that invites people to sit INSIDE a professional symphony orchestra as the musicians and conductor solve problems together. He captures that experience in Maestro: A Surprising Story about Leading by Listening, a parable about a rising executive tough challenges. The narrator befriends an orchestra conductor and is inspired to think about leadership and communication in an entirely new way. For instance: • A maestro doesn't micromanage, but encourages others to develop their own solutions. There's a big difference between conducting and trying to play all the instruments. • A maestro helps people feel ownership of the whole piece, not just their individual parts. • A maestro leads by listening. When people sense genuine open-mindedness, they offer more of their talent. If not, they get defensive and hold back their best ideas. • Truly great leaders, whether conductors striving for perfect harmony or CEOs reaching for excellence, act with a vision of their organization at its best. (Amadeus). Lauded by Verdi, Debussy, and other music masters, the celebrated conductor Arturo Toscanini raised the standards of orchestral and operatic performance over an astonishing 69 years on the podium. But as he did so, he acquired a reputation as something of a tyrant, who unleashed an explosive temper at musicians if rehearsals did not meet his expectations. In The Real Toscanini , Cesare Civetta presents an intriguing collection of vivid, one-of-a-kind interviews with artists who performed with Toscanini. A portrait of the inner workings of the maestro emerges through these extensive conversations, conducted by the author over a period of 20 years, together with other firsthand recollections. These accounts clarify Toscanini's philosophy, musical style, and techniques. They depict a man tormented by inner demons of anger and depression, which were easily triggered by his frustration at being unable to produce the musical ideal in his mind's ear. Toscanini is also revealed as a vehement anti-Fascist and an unequivocal opponent of totalitarianism and racism he defied Mussolini and publicly opposed Hitler. The book includes a comprehensive account of his 1936 inauguration of what is now known as the Israel Philharmonic, in solidarity with Jewish refugee musicians. Toscanini comes through in this book as a

Shortly after Puerto Ricans were granted U.S. citizenship in 1917, they began moving into an uptown Manhattan neighborhood that would become known as "Spanish Harlem." By 1930, Afro-Cuban music had gained a firm foothold in the city, setting the stage for the mambo, boogaloo, salsa and Latin-jazz scenes that followed. In this collection of profiles and essays, Max Salazar, perhaps the most eminent Latin-music historian in the United States, tells the story of the music and the musicians who made it happen, including Tito Puente, Machito, Tito Rodriguez, Charlie and Eddie Palmieri, Hector Lavoe and many others.

Musical robotics is a multi- and trans-disciplinary research area involving a wide range of different domains that contribute to its development, including: computer science, multimodal interfaces and processing, artificial intelligence, electronics, robotics, mechatronics and more. A musical robot requires many different complex systems to work together; integrating musical representation, techniques, expressions, detailed analysis and controls, for both playing and listening. The development of interactive multimodal systems provides advancements which enable enhanced human-machine interaction and novel possibilities for embodied robotic platforms. This volume is focused on this highly exciting interdisciplinary field. This book consists of 14 chapters highlighting different aspects of musical activities and interactions, discussing cutting edge reseach related to interactive multimodal systems and their integration with robots to further enhance musical understanding, interpretation, performance, education and enjoyment. It is dichotomized into two sections: Section I focuses on understanding elements of musical performance and expression while Section II concentrates on musical robots and automated instruments. Musical Robots and Interactive Multimodal Systems provides an introduction and foundation for researchers, students and practitioners to key achievements and current research trends on interactive multimodal systems and musical robotics.

Much has been written about Luigi Pirandello, the great artist and grandiose personality. His beloved actress, Marta Abba 's side of the story, on the other hand, has never been adequately told.It 's a tale that includes intriguing behind-the-scenes vignettes of the early history of filmmaking, including Pirandello 's suspicions of Walt Disney; Marta 's meeting with Mussolini – a fan of hers – and her candid impressions of him; Marta 's marriage of convenience into the prominent Milikin family of Ohio; glimpses of an Italian media dynasty and its heavy-handed influence on the arts in general, and on Pirandello 's legacy and Marta 's career in particular.This book sketches out the story of a modern romance between an author and an actress, between an artist and his collaborating muse, between an older man and younger women. It also attempts to tackle the subject of Marta 's sexuality – an aspect of her life that has been little known until now.

This book demonstrates that one is capable of achieving any goals, that one sets for him/herself. I hope it will be an inspiration to others, as they journey along the pathways of life. This book summarizes the achievements, the difficulties and sometimes struggles that were encountered along the way. It speaks of anxiety, fear, anticipation, but never apathy. There were times of restlessness, working and studying until the wee hours of the morning, just to meet the class assignments. Those were used as motivation to succeed. The vagaries of the weather in the UK and its unpredictability, played a part in my planning every move and decision. That too helped me to realize the nature of things and how essential it is to prepare, if possible, for the future. It is indeed a wonderful feeling, when one is able to look back over many years on a long journey and a productive life, and feel satisfied that something of note has been left behind. I trust this book will give food for thought and be of help to others

A member of the orchestra later described the event: "It was an unpleasant, bitterly cold forenoon. . . . The musicians were not in very good spirits. . . . Then Svendsen jumped up on the cloth-bedecked conductor's platform and said in an authoritative voice: 'Gentlemen, when the royal entourage comes into this room, there is just one king, and that is – me.'" Against the backdrop of Darwin, that small, tropical hothouse of a port, half-outback, half-oriental, lying at the tip of northern Australia, a young and newly arrived southerner encounters the 'maestro', a Viennese refugee with a shadowed past. The occasion is a piano lesson, the first of many. 'I enjoyed Maestro enormously. Besides its thoughtfulness and bright sensuality, it has a playful quality, a love of jest, which appealed to me very much.' Helen Garner, *SYDNEY REVIEW* On release, *MAESTRO* was hailed 'a splendid achievement, a wise, deeply felt novel that continues to haunt well after one has finished it. It is distinguished by subtlety, by economy and by a quality often lacking in even the best of recent novels – an unerring quality of tone' by Andrew Riemer in the *SYDNEY MORNING HERALD*. 'the necessary elusiveness of perfection, the unplumbed ocean beneath articulateness, the ambivalence of beauty – these are the revolving concerns of Peter Goldsworthy, and handled not just with irony, but with an effervescent, compassionate wit. The rise and spectacular fall of the friendship between the two great philosophers of the eighteenth century, barely six months after they first met, reverberated on both sides of the Channel. As the relationship between Jean-Jacques Rousseau and David Hume unraveled, a volley of rancorous letters was fired off, then quickly published and devoured by aristocrats, intellectuals, and common readers alike. Everyone took sides in this momentous dispute between the greatest of Enlightenment thinkers. In this lively and revealing book, Robert Szaretsky and John T. Scott explore the unfolding rift between Rousseau and Hume. The authors are particularly fascinated by the connection between the thinkers lives and thought, especially the way that the failure of each to understand the otherand himselfilluminates the limits of human understanding. In addition, they situate the philosophers quarrel in the social, political, and intellectual milieu that informed their actions, as well as the actions of the other participants in the dispute, such as James Boswell, Adam Smith, and Voltaire. By examining the conflict through the prism of each philosopher's contribution to

Western thought, Szaretsky and Scott reveal the implications for the two men as individuals and philosophers as well as for the contemporary world.
