

NEBOSH National General Certificate In Occupational Health And Safety, NGC1, GC2, GC3 Revision Guides (Pack Of 2)

This companion to the bestselling Introduction to Health and Safety at Work will help you prepare for the written assessments on the NEBOSH National General Certificate in Occupational Health and Safety (October 2009 specification). It provides complete coverage of the syllabus in bite-sized chunks and will help you learn and memorise the most important areas, with links provided back to the main Introduction to Health and Safety at Work text to help you consolidate your learning. • Small and portable making it ideal for use anywhere: at home, in the classroom or on the move • Includes specimen questions and answers from recent examination papers • Everything you need for productive revision in one handy reference source This revision guide is written by an experienced lecturer who has spent many years helping students become accredited by NEBOSH. Ed Ferrett is former Vice Chairman of NEBOSH (1999-2008) and a lecturer on NEBOSH courses with both public and private course providers. He is a Chartered Engineer and Health and Safety Consultant.

Voluntary guidelines on occupational health and safety management systems.

Introduction to Health and Safety at Work covers the fundamentals of occupational safety and closely follows the NEBOSH National General Certificate syllabus which was updated in 2019 and came into use in 2020. Highly illustrated and over 600 pages in length, it covers all of the essential elements of health and safety management, the legal framework, risk assessment and control standards and also includes checklists, report forms and record sheets to supplement learning. It also has an extensive summary of current health and safety legislation. • Aligned to the NEBOSH National General Certificate in Occupational Health and Safety • Practice questions and answers to test knowledge and increase understanding in addition to helping students study for the NGC, it is used for reference and revision on other Health and Safety qualifications at level 3 and above, including the Nebosh Diploma. It is also a source of reference and guidance for health and safety practitioners in the workplace.

Introduction to International Health and Safety at Work

Nebosh National General Certificate S/Bk

Five Steps to Risk Assessment

for the NEBOSH National Fire Certificate

The Study Book for the NEBOSH National General Certificate

This edition has been produced in order to update the health and safety legislation, with particular regard to changes relating to fire, construction (CDM), asbestos, vibration, noise, hazardous waste and the environment.

Introduces a revised approach to the management and control of noise in the workplace. This book presents assessment and management of noise risks, practical advice on noise control, buying and hiring of quieter tools and machinery, selection and use of hearing protection and the development of health surveillance procedures.

In The A Level Mindset, Steve Oakes and Martin Griffin share the secrets of coaching students to develop the characteristics, habits and mindsets which will help them realise their potential. Those students who make real and sustained progress at A level aren't necessarily the ones with superb GCSEs. Some students leap from average results aged 16 to outstanding results aged 18. Others seem to hit a ceiling. But why? It was in trying to answer this question that the VESPA system emerged. Steve and Martin have cut through the noise surrounding character development and identified five key characteristics that all students need to be successful: vision, effort, systems, practice and attitude. These characteristics beat cognition hands down. Successful students approach their studies with the right behaviours, skills and attitudes: they understand how to learn and revise effectively, they're determined and organised, they give more discretionary effort and they get top results. Success at A level is a result of character, not intelligence. Much has been written about growth mindsets and character development in recent years, but teachers are still left wondering how to apply these ideas in their contexts: how can these theories help learners in practice? Taking cues from the work of Peter Clough, Carol Dweck and Angela Lee Duckworth, and informed by their collective 30 plus years of teaching and coaching, Steve and Martin have spent years researching how character and behaviours affect student outcomes in their sixth form. After identifying the core traits that contributed to student success, they developed practical activities to help every student develop the A Level Mindset. Discover 40 concrete, practical and applicable tools and strategies that will supercharge learners' ambition, organisation, productivity, persistence and determination. Suitable for teachers, tutors, heads of sixth form or anyone else who wants to help A level students achieve their potential, The A Level Mindset offers 40 easy-to-use activities to develop students' resilience, commitment, buoyancy, motivation and determination. It could be your key to transforming student outcomes.

NEBOSH National General Certificate

Introduction to Fire Safety Management

Following a thorough review to include relevant legislation, this exceptionally successful publication is now produced in full colour throughout, highlighting the 300+ photographs and sketches (many hand drawn to show the standard required at NEBOSH examination). Written to fulfil the requirements of the NEBOSH Certificate syllabus (which reflects the management model in the HSE's 'Successful Health & safety Management?' - HSG65), this excellent and popular reference book also includes: text is directed to exam needs; practical explanations; plus useful charts and tables. Sample NEBOSH exam questions and answers are also included, along with a practical assessment example. Collectively these form a 'must-have?' reference guide for managers, as well as essential support for NEBOSH courses and Distance Learning programmes. It also meets the Employment National Training Organisation (ENTO) standards for health and safety at NVQ Level 3 and the Qualifications and Curriculum Authority (QCA) standards for Level 3.

Andrew Furness and Martin Muckett give an introduction to all areas of fire safety management, including the legal framework, causes and prevention of fire and explosions, fire protection measures, fire risk assessment, and fire investigation. Fire safety is not treated as an isolated area but linked into an effective health and safety management system.

Introduction to Fire Safety Management has been developed for the NEBOSH Certificate in Fire Safety and Risk Management and is also suitable for other NVQ level 3 and 4 fire safety courses. The text is highly illustrated in full colour, easy to read and supported by checklists, report forms and record sheets. This practical approach makes the book a valuable reference for health and safety professionals, fire officers, facility managers, safety reps, managers, supervisors and HR personnel in companies, as well as fire safety engineers, architects, construction managers and emergency fire services personnel. Andrew Furness CFIOSH, GFireE, Dip2OSH, MIRS, MRSH, is Managing Director of Salvus Consulting Limited who specialise in Fire Safety. He was the chairman of the NEBOSH / IOSH working party that developed the NEBOSH Fire Safety and Risk Management certificate. Martin Muckett MA, MBA, CMIOSH, MIFireE, Dip2OSH, former Principal Health and Safety Advisor to The Fire Service Inspectorate and Principal Fire Safety Officer, Martin is currently Salvus Consulting Limited's Senior Fire Safety Trainer / Consultant. * Fully covers the syllabus for the NEBOSH Certificate in Fire Safety and Risk Management * Student-friendly presentation in full colour packed with illustrations and photographs * Includes a summary of legislation relevant to fire safety, ideal as a reference for students as well as practitioners

If you're preparing to take any exam from the National Examination Board in Occupational Safety and Health (NEBOSH), then you need to know what to expect. NEBOSH courses, which are offered by an awarding body based in the United Kingdom, offer individuals a comprehensive range of globally recognized qualifications designed to meet the health, safety, and environmental management needs of industries as well as national and local governmental organizations. This guide to passing the exams will help you: develop a study plan that is effective and efficient; use and apply command words in constructing answers, which could mean the difference between passing or failing; think about what you're being asked before writing down answers; and identify and avoid the pitfalls that lead to exam failure. NEBOSH qualifications attract approximately 50,000 candidates per year who take exams in more than 120 countries, but many of them fail. Improve your chances of lasting professional success with Secrets of Passing the NEBOSH Exams.

Introduction to Health and Safety at Work

STUDY BOOK FOR THE NEBOSH NATIONAL GENERAL CERTIFICATE

The Fire Safety and Risk Management Revision Guide: for the NEBOSH Fire Certificate is the perfect revision aid for students preparing to take their NEBOSH National Certificate in Fire Safety and Risk Management. As well as being a handy companion volume to the Fire Protection Association textbook Fire Safety and Risk Management: for the NEBOSH National Certificate in Fire Safety and Risk Management, it will also serve as a useful aide-memoire for those in fire safety roles. The book provides practical revision guidance and strategies for students; highlights the key information for each learning outcome of the current NEBOSH syllabus; gives students opportunities to test their knowledge based on NEBOSH-style questions and additional exercises; provides details of publically available guidance documents that students will be able to refer to. The revision guide is fully aligned to the current NEBOSH syllabus, providing complete coverage in bite-sized chunks, helping students to learn and memorise the most important topics. Throughout the book, the guide refers back to the Fire Safety and Risk Management textbook, helping students to consolidate their learning.

This book "takes a close look at misused and misapplied basic analysis methods and shows how some of the most popular "risk management" methods are no better than astrology! Using examples from the 2008 credit crisis, natural disasters, outsourcing to China, engineering disasters, and more, Hubbard reveals critical flaws in risk management methods-and shows how all of these problems can be fixed. The solutions involve combinations of scientifically proven and frequently used methods from nuclear power, exploratory oil, and other areas of business and government. Finally, Hubbard explains how new forms of collaboration across all industries and government can improve risk management in every field." - product description.

Construction (Design and Management) Regulations 2015. Guidance on Regulations

A reference book to support a course of study for the 'NEBOSH (National Examination Board in Occupational Safety and Health) National General Certificate' qualification - a nationally recognised qualification in health and safety.

Do you need to get to grips with health and safety principles but don't have time to wade through reams of legislation and guidance? Do you need practical step-by-step guidance on health and safety issues for your small business? Then this is the book for you. Building on the success of the first edition, this fully revised Easy Guide to Health and Safety 2nd edition introduces the health and safety issues which the self-employed and managers, directors and staff with health and safety responsibilities in small businesses face every day. Written in plain English, this new edition will take you through the principles of health and safety in a clear, jargon-free manner. Fully revised and packed with practical guidance, the Easy Guide to Health and Safety will ensure that you are well equipped to keep yourself and others safe in the workplace. Provides small businesses with the necessary information to understand obligations and gain control of health and safety in the workplace Packed with practical guidance and handy checklists and forms. Also suitable for students studying towards IOSH Working Safely and NVQ level 1 and 2 courses from City and Guilds and other NVQ awarding bodies.

"This guide has been designed to be used together with the NEBOSH National General Certificate syllabus and the textbook Introduction to Health and Safety in Construction by Hughes and Ferrett. The guide gives only a basic summary of the NEBOSH National Certificate in Construction Health and Safety course and a full explanation of all the topics is given in the text book. The Revision Guide has the following features; It follows the latest NEBOSH National Certificate in Construction Health and Safety syllabus; Revision notes for each of the elements of the two units NGC1 Management of health and safety and NCC1 Managing and controlling hazards in construction activities; A summary of the learning outcomes and key points is given for each element. There is a final section to advise on the preparation for the examinations and some specimen answers to both long and short answer questions taken from recent NEBOSH examination papers. The Revision Guide will also be useful to those who have specific health and safety responsibilities in their jobs, such as Construction Site Managers and those who are studying on other courses related building and construction that include important health and safety elements, for example HNC, HND and degree courses in Building, Architecture, Construction, Building Services and Energy. The compact size of the Revision Guide ensures that they can be easily carried and used for revision at any time or place. They should be used throughout the NEBOSH course alongside the textbook and course hand-outs"--Provided by publisher.
