When you open Adobe Photoshop for the first time, it's easy to click around in confusion for a minute and then reach for your freelancer's phone number instead. Trust us, you're not alone in this. It's an incredibly powerful design software with a lot going on, including a wealth of tools that can seem overwhelming at times. But Photoshop isn't just for the professionals. While there are many programs and tools available for artists to use, one of the most popular digital painting tools is Adobe Photoshop.

This book breaks new ground by doing something for digital photographers that's never been done before—it cuts through the bull and shows you exactly “how to do it.” It's not a bunch of theory; it doesn't challenge you to come up with your own settings or figure things out on your own. Instead, it does something that virtually no other Elements book has ever done—it tells you flat-out which settings to use, when to use them, and why. If you're looking for one of those “tell-me-everything-about-the-Unsharp-Mask-filter” books, this isn't it. You can

popular image editing software in the world, have always been intimidating for beginners. Through the years I have found many beginners give up on Photoshop, and hear them stating the software to be "too complicated". The real reason being - tool names and definitions are only pretty in books, in reality you have to precisely know Where the tools are located in Photoshop Practical applicability of these tools Purpose and full potential of these tools How to use these powerful tools in Combo (which really speeds-up the editing process, reduces the time taken and improves the final output.) Easy ways to access them (Shortcuts) Multiple ways of doing things in Photoshop (and choosing the best one

suitable for you.) And to also do some tweaking and tuning to the software according to your needs. (Some default behaviors in the software can really limit the editing experience inside, especially if you are a beginner.) We will be learning all these and much more Step-by-Step with LIVE screen-shots. NOW THINGS CAN'T GET ANY PRECISE AND SIMPLER THAN THIS.....!!!
