***When used in NLP and hypnotherapy, metaphors have long given insights into the difficulties of people and have shown the ways in which we can escape or improve. If the stories strike a chord with you, then they also show a way out. These short stories, metaphors and interactive scripts will help you to eliminate negative thoughts and achieve your dreams by allowing you to relax while reading stories that can bring about positive change. ***Hypnotherapy and hypnosis have been major users of metaphors to show different approaches to problems and their resolution. Milton Erickson, the grandfather of modern hypnotherapy used metaphors to great effect in resolving problems with his patients. Self hypnosis allows you to enter the areas of your mind where you can become imaginative and optimistic. You can create your dreams and the ways in which you will achieve them. Based on a***

This book reveals what people have wanted to know about the human condition from the very beginning of time: What are feelings for? Within its pages, you will discover the secret language of feelings. That language is a voice within us. Sometimes it is as soft as a whisper; sometimes it is as loud as a roar. It is an important voice, which, when fully understood, gives you a kind of guidance that no other voice can. The information in *The Secret Language of Feelings* was revealed during thousands of hours of working with hypnotherapy clients at the Banyan Hypnosis Center for Training & Services. It came from clients who spoke to us both in the normal waking

little man just happens to be the devil. The devil promises to help the soldier resolve his problem for good. But to achieve a lasting result, the soldier must agree to The Contract. (The devil always requires a Contract.) The soldier must agree to follow instructions and do the work necessary to achieve the desired result. If he doesn't, he will continue to suffer. Worse, he could even lose his life! What's this got to do with hypnosis? Every client who comes to you has a problem he can't fix. But hypnosis is "unfamiliar territory" for most people. As a result, they don't seek out

HYPNOSIS but didn't know who to ask. About this book: If you only buy one book on hypnosis, you need to ... make it this one... 'Just make the purchase'! You won't need another. It is a complete, step by step, guide on how to master the art of instant, hypnotic inductions (in as little as one second), rapid inductions, conversational hypnosis and stage hypnosis, in one book. In this, the author has created an informative, inspirational and enjoyable read for those who wish to learn hypnosis. Within its pages you will find everything you need to know (and more) to begin practising hypnosis for fun or profit. Its coverage of conversational hypnosis

provides the necessary theory to make every conversation you have with others hypnotic in its effect, sending subliminal messages that take the form of silent command that must be obeyed. This book is also an invaluable tool for the hypnotherapist wishing to up-grade their skills by learning instant or rapid inductions to get their clients in a state of deep trance in a fraction of the time taken by more progressive inductions, thereby increasing income or leaving more time for therapy in each session. This book describes tried and tested hypnotic methods that work, explaining the theory so you quickly learn how to hypnotise safely, with

confidence and professionalism.

Descriptions of hypnotic techniques are clear and easy to understand. It completely lifts the lid on the mystery of hypnosis, kept secret by a privileged few for centuries. It is a must have, no nonsense book for the serious and intelligent reader, forming a valuable reference for both student and professional alike. It does what it says on the cover, nothing is left out. Its concise and informative style explains even the most difficult concepts easily, packing the amount of information normally found in four or five books into one clear text without the padding, saving hundreds of pounds otherwise spent purchasing light-

weight resources. The book's direct approach gets you quickly to the core of the subject matter, which is laid out in chapter form, allowing the reader to dip into areas of interest without having to repeatedly read the whole. As a resource, it is as brilliant and useful as it is detailed and informative, making it essential reading for the would-be hypnotist as well as teachers, sales-men and other professionals. If you decide to buy this book you will need no other. 'Just make the purchase'!

Unleash the power of your mind and discover your potential. Do you wish you had the power to become all that you can be? All good-intentioned programming works best when you reach a deeper state of mind. The secret is in accessing those states through easy life-changing techniques. A thin window of consciousness differentiates two states of the mind - self-hypnosis and meditation - and this book will show their similarities, and define each condition and accessibility. If you're curious enough to at least peruse this book, then the ability to learn these

techniques is already a part of your consciousness, and will soon to be recognized. Lucky you! Your subconscious is prompting you to investigate. It is saying that you are capable of deeper states of mind. Many have tried to focus to learn either self-hypnosis or meditation and failed. Applied concentration and knowing what to expect once entranced may be what was missing. The instructions in this book are meant for those wishing to learn and use the techniques of self-hypnosis and/or meditation for self-improvement. changes. You can change your life today.

*Dr. William Wesley Cook's Practical Lessons in Hypnotism* was originally published in 1901, but this scholarly study is as relevant as it ever was. In spite of the skeptics, hypnotism has long been a psychological science that has earned the respect of many in the medical profession (notably, Sigmund Freud) and hypnotherapy is widely used in many treatment programs. Here, Cook approaches the subject in a constructive way, covering the history and philosophy of the science, as well as practical

techniques and considerations. Most compelling are the studies of hypnotism's many applications, such as in self-healing, anesthesia, behavioral therapy, and even persuasion in the field of business. Cook's work also includes intellectual discussions on tangential- and fascinating-subjects such as telepathy, clairvoyance, and magnetic healing. Comprehensive and erudite, it promises satisfaction for the curious as well as the studious. Don't Look In His Eyes - how to be a confident original hypnotist is the simple way to learn hypnosis.
