The Frontiers Saga

The galaxy just called for help. Unfortunately, the wrong man answered. When small-time conman, Cal Carver, is thrown in jail and forced to share a cell with a semi-naked cannibalistic serial killer, he's pretty sure his day can't get any worse. Boy, is he wrong. It isn't until two-thirds of the human race is wiped out and Cal is mistakenly abducted by aliens that things really start to go downhill. Whisked across the galaxy, Cal is forced into a team of some of the sector's most notorious villains and scumbags and tasked with delivering a package to a warlord-run solar system where the authorities daren't venture. The mission should be simple enough, but as one screw-up leads to another the ragtag group of unwitting heroes find themselves in a frantic battle to save an entire alien civilization - and its god - from total annihilation. Featuring epic space battles, hilariously snarky characters, and a shapeshifting blob with the face of Tobey Maguire, Space Team is the first book in the internationally bestselling series by award-winning author, Barry J. Hutchison. Perfect for fans of The Hitchhiker's Guide to the Galaxy, Galaxy Quest, Guardians of the Galaxy, and pretty much anything else with the word 'Galaxy' in the title.* *Except Samsung's Galaxy S series, which is a range of mobile devices, and so not really similar. You don't really want to stick around on Earth, do you? Have you seen the state of the place? Buried in the bowels of one of the several intelligence agencies in the US government is an office of clandestine medical personnel. Their mission is to analyze the health and mental state of international persons of interest and report their findings to America's policymakers. The team is on call 24/7 to comment on and analyze any written observations, pictures or videos of such persons of interest that may come into the hands of the U.S. government. The goal is to provide timely information to policymakers and negotiators so that the United States of America may achieve maximum success in dealing with the people concerned. Usually this is done in the safe confines of the Agency walls, but sometimes the analysts are forced to place themselves in harms way. Through it all and despite the circumstances, their Code of Honor is to Do No Harm.

Yet as bizarre incidents escalate, even being crazy can't explain it all away... until one day dream guy does find her. Tarek lost Lena seventeen years ago after she was accused of treason and marked Tainted. He finally discovers her reborn on Earth into a life of suffering as punishment for her crime. However, someone else has already found her... and wants her dead. Lt. Commander Heskan and Komandor Lombardi have only one thing in common - the will to survive. Bitter rivals for over a century, the Brevic Republic and the Hollaran Commonwealth are at war. Cultures that shared a common Terran ancestry have been isolated for decades. Now, Heskan's escort ships must protect Lombardi's heavy cruisers as they are forced to run together into unexplored space from a devastating threat. Each commander faces dissension in the ranks, even as they try to unite their fleets and find some way to escape the fate of so many of their fallen comrades. For the duration of the tenuous truce, there is a singular objective... make it home. Yet there can be only one destination at the end of their journey, and only half of the fleet will be safe, if they reach the Republic or Commonwealth at all. If the warring governments cannot be trusted to secure safe passage of the allied crews, how can the two commanders trust each other? This is Book 3 in the This Corner of the Universe series, continuing the story of the original crew of BRS Anelace and her captain.

Somehow, though, their employer forgot to mention the box's military escort, and the Morlock mercenaries who would kill to get their hands on it. Accidental space adventurer Cal Carver has had a rough few months. He's fought spider-dragons, battled space clowns, and been repeatedly tortured by the galaxy's oldest assassin. And don't even get him started on the squirrel-tits. Now all that's behind him, Cal just wants to kick back and relax. The universe, however, has other ideas. He and his crew find themselves in possession of the Symmorium Sentience, a once god-like entity now stripped of its power. The Sentience needs help to return home and restore the Symmorium species, which recently found itself the subject of an unfortunate genocide. But with dark forces seeking to turn the Sentience's power into a planet-pulverizing weapon, the team's trek across the galaxy becomes a desperate race against time, with the fate of the very cosmos at stake. Featuring awkward space-dates, gene-splicing villains, and a packet of coconut fingers as old as time itself, Space Team: Sentiented to Death is the eleventh book in the bestselling Space Team series by multi-award-winning author Barry J. Hutchison, and perfect for fans of funny stuff happening in space.

Cal Carver's time is about to run out. He and his Space Team are broke. Forced to take low-paying gun-for-hire jobs just to keep the food replicator working, their prospects are not looking good. When they pick up a distress signal from a luxury space cruiser, they think their luck might be about to change. And it does. Sadly, not in the way they'd hoped. Someone has detonated a Time Bomb aboard the cruiser - an experimental device designed to shatter time itself. As the team passes through the fragments, their personal timelines begin moving at very different speeds, and an ageing Cal is forced to live out decades aboard the ship surrounded by his now statue-like crew mates and the mutated, inbred descendants of the cruiser's former inhabitants. As if that isn't bad enough, the Time Bomb was just a test for the real weapon - a weapon that could spell a fate worse than death for Space Team, and the enslavement of the entire galaxy. Featuring giant space babies, reverse mermaids and the most dangerous man in existence, Space Team: The Time Titan of Tomorrow is the eighth fast and frantic adventure in the Space Team comedic scifi series.

There has been quite a bit of scholarship on the history of the space race, but collaboration in space has received little attention and has usually been dismissed as a propaganda side show. This book thus fills a critical gap by showing the importance of collaboration in space as an antidote to Cold War hostilities and as an important yet underappreciated episode in the development of science and technology in the twentieth century. I was thirteen years old when I originally thought of the story, and have written and rewritten it more times than I can count. But six years ago, I

met my wife a Filipina from Manila, and there I discovered the wonderful and gracious people of the Philippines. After realizing I would have children of mixed racial birth. I decided I wanted to give them a hero to look up to from their own culture. I then re-did all nine books; this time the racial, religious and cultural differences gave the book a more defined nature, one of which I was proud. I had given up long ago on trying to get an agent or a publisher to take interest in my book, but that was never my goal. My goal was to give my children a hero of their own heritage, and to inspire them. Win or lose, they win. The Year is 2079 and the earth has recently been discovered by a ruthless alien race known as the T-Challa. Their plan is to enslave the population and to strip the earth of all its resources to maintain and expand their vast empire. However the earth is not without hope, another alien race called the X'ena's have sent a symbiotic probe to earth to help defend her from the T-Challa. The Probe which takes the name Paladin merges with a human named Caleb Ocode as well as an ancient battleship from a century ago and transforms both into a force to protect the earth. Caleb then man's his ship with the best the earth has to offer as they go out and defend the earth successfully defeating the small fleet sent by the T-Challa. Unfortunately the ship suffers damage and it affects Caleb wounding him, it is quickly discovered that Caleb is dying and with him the mighty ship named Paladin, the only defense of earth. After searching all possible answers to save himself and protect the earth, Caleb decides to find the X'ena to see if they can cure him before his death, but time is short and the single ship must travel through the heart of the T-Challa Empire to find the X'ena and save Caleb. Will they succeed?
