Then he gets a phone call from a West Virginia farmer named Earl Tennant, who is convinced the creek on his property is being poisoned by runoff from a neighboring DuPont landfill, causing his cattle and the surrounding wildlife to die in hideous ways. Earl hasn't even been able to get a water sample tested by any state or federal regulatory agency or find a local lawyer willing

to take the case. As soon as they hear the name DuPont—the area’s largest employer—they shut him down. Once Rob sees the thick, foamy water that bubbles into the creek, the gruesome effects it seems to have on livestock, and the disturbing frequency of cancer and other health problems in the area, he’s persuaded to fight against the type of corporation his firm routinely represents. After intense legal wrangling, Rob ultimately gains access to hundreds of thousands of pages of DuPont documents, some of them fifty years old, that reveal the company has been holding onto decades of studies proving the harmful effects of a

chemical called PFOA, used in making Teflon. PFOA is often called a "forever chemical," because once in the environment, it does not break down or degrade for millions of years, contaminating the planet forever. The case of one farmer soon spawns a class action suit on behalf of seventy thousand residents—and the shocking realization that virtually every person on the planet has been exposed to PFOA and carries the chemical in his or her blood. What emerges is a riveting legal drama—in the grand tradition of Jonathan Harr's *A Civil Action*—(Booklist, starred review) about malice and manipulation, the failings of environmental regulation;

Hallelujah, it's a book! After proving itself to be the "funniest calendar of the year" (according to Gene Shalit), "irresistible" (USA Weekend), and "habit-forming" (Maxim magazine), the Nuns Having Fun calendar has inspired Nuns Having Fun, a book of endearing nuttiness. Catholic kitsch doesn't get any funnier. Written by Maureen Kelly and Jeffrey Stone, pitch-perfect co-authors of the nuns calendar and the New York Times bestseller

Growing Up Catholic, Nuns Having Fun features hundreds of sisters in full habit, cutting loose and having a hoot. Here are nuns in the surf ("This is even more fun than walking on water"), nuns in bumper cars ("We brake for Jesus"), nuns in a beer hall ("Ale Marys"), and nuns in the museum, huddled in front of a study of nudes ("It's okay to open your eyes. Sister Wendy says it's art"). There are nuns on skates, at bat, at the theater, skeet shooting (nuns with guns!), even hitting the slots (you know it's for a good cause). The 125 images are from the 1950s and '60s, black-and-white and possessing a pure retro charm; the written material is all-new. Drawing on their years as parochial school students, the authors explore the lore and legends surrounding nuns, including Favorite Punishments from Nuns, Nuns Say the Darndest Things, How to Recognize a Nun After Vatican II, a

From the New York Times bestselling author of *The Fall: The Crimson Shadow* comes a compelling and suspenseful tale of politics and power set in the universe of *Star Trek: Deep Space Nine*. Elim Garak has ascended to Castellan of the Cardassian Union...but despite his soaring popularity, the imminent publication of a report exposing his people's war crimes during the occupation on Bajor looks likely to set the military against him. Into this tense situation come Dr. Katherine Pulaski—visiting Cardassia Prime to accept an award on behalf of the team that solved the Andorian genetic crisis—and Dr. Peter Alden, formerly of Starfleet Intelligence. The two soon find themselves at odds with Garak and embroiled in the politics of the prestigious University of the Union, where

a new head is about to be appointed. Among the front-runners is one of Cardassia's most respected public figures: Professor Natima Lang. But the discovery of a hidden archive from the last years before the Dominion War could destroy Lang's reputation. As Pulaski and Alden become drawn into a deadly game to exonerate Lang, their confrontation escalates with Castellan Garak—a conflicted leader treading a fine line between the bright hopes for Cardassia's future and the dark secrets still buried in its past...™, ®, & © 2016 CBS Studios, Inc. "HELP! My Students Can't Write!"  
Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman

## Download Ebook Star Trek 2017 Poster Calendar: 50 Artists 50 Years

Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps:

- Boost reading comprehension
- Improve organizational and study skills
- Enhance speaking abilities
- Develop analytical capabilities

TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to

their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
