*Is your child safe online? Do you know what information they access on a daily basis? The chances are that you are like most parents and the answer is 'no' or, at best, 'I'm not sure'. These days, our kids are more internet-savvy than we are – they know how to unblock privacy settings or get around simple parental controls. Yet more and more frequently there are stories in the news about children being victims of internet crime; whether through Facebook party invites, cyber-bullying or, worse, child grooming. But what can we do about it? As parents, we have a duty to understand the different media our children use and put in place boundaries and guidelines to protect them. Is Your Child Safe Online? has the practical advice you need to minimise the risk and ensure your child is protected today..whilst still letting them do their homework. Covering all forms of new media – iPhones, apps, iPads, twitter, gaming online – as well as social networking sites – Is Your Child Safe Online? keeps you informed of the dangers and reassures with simple, straightforward advice. It arms you with practical methods to make sure your child is safe. All your questions answered...
\* Do children get any guidelines at school on internet use?
\* How do children use social networks, chatrooms, instant messaging and blogs?
\* How do I control what my children look at online, or what information they give out?
\* What are the effects of time spent online on mental health and social life?
How do I educate my children on how they can protect themselves against cyber-bullying and grooming?
Give yourself peace of mind with Is Your Child Safe Online? – the book that every careful parent should own. The facts speak for themselves: In the last three years, the number of children belonging to a 'virtual world' has increased from 8 million to 20 million. One in five children aged five to seven are accessing the internet without parental supervision. Make sure YOUR child is safe online.*

The youth of the world today have grown up using technology and the Internet. Kids as young as 4 and 5 years old are learning how to get online and search for information or videos. The ability to go online and connect with people and information from all across the globe is an awesome power to have. Unfortunately, that power is not always used for good. There are countless people out there with the intent of using the Internet to cause harm or steal your personal information. You probably heard of computer viruses and some other basic threats, but there are other threats to your safety and well-being that are a little less obvious, especially to today's youth who are so engrossed in the Internet that they are sometimes naive to the dangers lurking in the shadows of cyberspace. Internet Safety for Kids and Young Adults delves into a number of important safety issues that face kids and teens while working and playing on the Internet. Topics include Cyber-bullying, Texting and Sexting, Internet Addictions, Sexual and Online Predators, Identity Theft, Online Scams, Viruses and Spyware, Mobile Device Security, Online Reputation and even Copyright and Plagiarism. These topics are very important to anyone who uses the Internet, however this book is written to speak directly to the kids themselves. There are tons of books out there to teach parents how to talk to their kids about the importance of staying safe online, but very few that are geared towards the kids themselves. This book changes that. It is written in straight-forward language and gets right to the point without sugar coating the details.
