In addition to abridging the contents of the two best-selling World Religions volumes (Eastern Traditions and Western Traditions), contributors to this concise-volume text have reworked the original material to focus on six specific areas of analysis: the major origins of the movement; the crystallization of its teachings; the major divisions within the tradition; how adherents practice their faith; cultural expressions; and how the tradition has responded to the various changes - intellectual, social, technological - of modern times. This more structural approach will make it easier for students to compare and contrast traditions, resulting in a solid, well-rounded introduction to the study of world religions. Drama and Reading for Meaning Ages 4-11 contains over 40 creative drama ideas to help develop reading for meaning in the primary school. The wide range of clearly explained, structured and engaging drama activities will appeal to all primary practitioners who wish to develop more creative approaches to the teaching of reading. The activities

show how drama can develop some of the skills associated with reading for meaning such as empathising with characters' feelings, exploring settings and themes and making inferences based on evidence. The step-by-step activities range from familiar classroom drama strategies such as freeze-frames and hot-seating to less well-known approaches involving whole class drama experiences. The book also serves as an introduction to using drama as a learning medium, with advice on how to set the ground rules and clear explanations of the drama strategies. Each chapter has a detailed explanation of what to do, followed by a number of examples linked to quality texts, including poetry and non-fiction. From bringing books to life in reception and Years 1 and 2, to peeling back the layers of meanings in Years 3 to 6, all the drama activities in this book are designed to improve reading for meaning and help motivate children to read for pleasure, making this an essential resource for all primary settings.

***Theatre and Religion on Krishna's Stage examines the history and form of India's rās lila folk theatre, and discusses how this theatre functions as a mechanism of worship and spirituality among Krishna devotees in India. From analyses of performances and conversations with performers, audience, and local scholars, Mason argues that rās lila actors and audience alike actively assume roles that locate them together in the spiritual reality that the play represents. Correlating Krishna devotion and theories of religious experience, this book suggests that the emotional experience of theatrical fiction may arise from the propensity of audiences to play out roles of their own through which they share a performance's reality.***

**Traditionally, university students have gained access to world religions by reading primary texts. Discovering World Religions at 24 Frames Per Second takes students beyond the written page, offering an exploration of the same religious traditions through the study of feature films. The many definitions of religion are examined along with its various components, including doctrine, myth, ethics, ritual, and symbol. Specific religious traditions, including Hinduism, Sikhism, Zoroastrianism, Buddhism, Confucianism, Daoism, popular religion, and Shinto are examined. Biographical sketches of directors whose films tend to focus on a particular religious tradition are also included, such as Zhang Yimou, Hayao Miyazaki, Deepa Mehta, and Akira Kurosawa. Discovering World Religions at 24 Frames Per Second is unique in the area of religion and film studies in that it isn't**

**just a collection of essays. Instead it provides the introductory student with the necessary background information on the various religions before looking at how their ideas can be understood not through texts but through the cinematic medium. To keep the conversation fresh, most of the films used in the book were made within the last decade. Furthermore, examples range from popular, mainstream fare, such as Star Wars and the Lord of the Rings trilogy to lesser-known foreign films, such as The Wooden Man's Bride and The Great Yokai War. Several films with a 'cult-like' following are also discussed, including Fight Club, Princess Mononoke, Spirited Away, and Jacob's Ladder. This book is also unique in that instead of drawing upon the Judeo-Christian tradition, it draws from Eastern traditions.**

**Religions Today provides a sympathetic account of what living religions really are. Fisher traces the historical development and practices of major religious movements and explores how these evolve into contemporary belief and teaching. Case studies and interviews with living people ensure that this concise guide is both readable and stimulating.**

Religious nationalism is a subject of critical importance in much of the world today. Peter van der Veer's timely study on the relationship between religion and politics in India goes well beyond other books on this subject. He brings together several

disciplines—anthropology, history, social theory, literary studies—to show how Indian religious identities have been shaped by pilgrimage, migration, language development, and more recently, print and visual media. Van der Veer's central focus is the lengthy dispute over the Babari mosque in Ayodhya, site of a bloody confrontation between Hindus and Muslims in December 1992. A thought-provoking range of other examples describes the historical construction of religious identities: cow protection societies and Sufi tombs, purdah and the political appropriation of images of the female body, Salman Rushdie and the role of the novel in nationalism, Mahatma Gandhi and Swami Vivekananda, the Khalsa movement among Sikhs, and nationalist archaeology and the televised Ramayana. Van der Veer offers a new perspective on the importance of religious organization and the role of ritual in the formation of nationalism. His work advances our understanding of contemporary India while also offering significant theoretical insights into one of the most troubling issues of
