

## The Art Of Miyazaki's Spirited Away (Studio Ghibli Library)

Spirited Away, directed by the veteran anime film-maker Hayao Miyazaki, is Japan's most successful film, and one of the top-grossing 'foreign language' films ever released. Set in modern Japan, the film is a wildly imaginative fantasy, at once personal and universal. It tells the story of a listless little girl, Chihiro, who stumbles into a magical world where gods relax in a palatial bathhouse, where there are giant babies and hard-working soot sprites, and where a train runs across the sea. Andrew Osmond's insightful study describes how Miyazaki directed Spirited Away with a degree of creative control undreamt of in most popular cinema, using the film's delightful, freewheeling visual ideas to explore issues ranging from personal agency and responsibility to what Miyazaki sees as the lamentable state of modern Japan. Osmond unpacks the film's visual language, which many Western (and some Japanese) audiences find both beautiful and bewildering. He traces connections between Spirited Away and Miyazaki's prior body of work, arguing that Spirited Away uses the cartoon medium to create a compellingly immersive drawn world. This edition includes a new foreword by the author in which he considers the world of animated cinema post-Spirited Away, considering its influence on films ranging from del Toro's Pan's Labyrinth to Pixar's Inside Out.

All of Miyazaki's major themes—the power of flight, the bravery of young women, and a world wrecked by change—are captured with beautiful animation and joyous storytelling.

The latest in the perennially popular line of Studio Ghibli artbooks, which includes interviews, concept sketches, and finished animation cels from classics such as Spirited Away and My Neighbor Totoro. The Wind Rises is Miyazaki's love letter to the power of flight and the imagination, an examination of the rise of Japan's military might in the years leading up to the Second World War, and a call for worldwide peace and harmony in the face of destruction. This book captures the art of the film, from conception to production, and features in-depth interviews with the filmmakers.

In the first two decades of his career, filmmaker Hayao Miyazaki laid the groundwork for his legendary movies. Starting Point is a collection of essays, interviews, and memoirs that go back to the roots of Miyazaki's childhood, the formulation of his theories of animation, and the founding of Studio Ghibli. Before directing such acclaimed films as Spirited Away, Miyazaki was just another salaried animator, but with a vision of his own.

Follow him as he takes his first steps on the road to success, experience his frustrations with the manga and animation industries that often suffocate creativity, and realize the importance of bringing the childhood dreams of the world to life. Starting Point: 1979-1996 is not just a chronicle of the life of a man whose own dreams have come true, it is a tribute to the power of the moving image. -- VIZ Media

Leni Riefenstahl's Olympia (1938) is one of the most controversial films ever made. Capitalising on the success of Triumph of the Will (1935), her propaganda film for the Nazi Party, Riefenstahl secured Hitler's approval for her grandiose plans to film the 1936 Berlin Olympics. The result was a work as notorious for its politics as celebrated for its aesthetic power. This revised edition includes new material on Riefenstahl's film-making career before Olympia and her close relationship with Hitler. Taylor Downing also discusses newly-available evidence on the background to the film's production that conclusively proves that the film was directly commissioned by Hitler and funded through Goebbels's Ministry of Propaganda and not, as Riefenstahl later claimed, commissioned independently from the Nazi state by the Olympic authorities. In writing this edition, Taylor Downing has been given access to a magnificent new restoration of the original version of the film by the International Olympic Committee.

Formed by a small group of university students in the early 1980s, Studio Gainax is now one of the most adventurous and widely esteemed anime companies on the scene. And it is fascinating for its unique approach to animation. Formal experimentation, genre-straddling, self-reflexivity, unpredictable plot twists, a gourmet palate for stylishness, proverbially controversial endings, and a singularly iconoclastic worldview are some of the hallmarks. This documentation of the studio's achievements provides a critical overview of both the company and its films: in-depth examinations of particular titles that best represent the company's overall work, including television series such as Nadia: The Secret of Blue Water and Neon Genesis Evangelion, and feature films such as Royal Space Force: The Wings of Honneamise and Gunbuster vs. Diebuster. Each chapter highlights the contribution made by a specific production to the company's progress.

The thought-provoking, aesthetically pleasing animated films of Hayao Miyazaki attract audiences well beyond the director's native Japan. Princess Mononoke and Spirited Away were critically acclaimed upon U.S. release, and the earlier My Neighbor Totoro and Kiki's Delivery Service have found popularity with Americans on DVD. This critical study of Miyazaki's work begins with an analysis of the visual conventions of manga, Japanese comic books, and anime; a overview of Japanese animated films; and a consideration of the techniques deployed by both traditional cel and computer animation. This section also details Miyazaki's early forays into comic books and animation, and his output prior to his founding of Studio Ghibli. Part Two concentrates on the Studio Ghibli era, outlining the company's development and analyzing the director's productions between 1984 and 2004, including Castle in the Sky, My Neighbor Totoro and his newest film, Howl's Moving Castle. The second section also discusses other productions involving Studio Ghibli, including Grave of the Fireflies and The Cat Returns. Appendices supply additional information about Studio Ghibli's merchandise production, Miyazaki's global fan base, and the output of other Ghibli directors.
