ceremonial magic compiled by Francis Barrett and published in 1801. This book facilitated the modern revival of magic by making information from otherwise rare books readily available. It may have influenced novelist Edward Bulwer-Lytton and occultist Eliphas Levi. More controversially, it has been identified as an influence on Joseph Smith, Jr., founder of the Latter Day Saint movement, in Reed C. Durham, Jr.'s speech "Is There No Help for the Widow's Son?"

"This book traces the continued existence of the spiritual alchemy of rebirth in heterodox and specifically Boehmist circles from around 1600 to the early twentieth century. The basic claim of continuity from Boehme to Atwood argued here is

not new. A particularly apt expression may be found in F. Sherwood Taylor's *The Alchemists* of 1949, in which the founding editor of *Ambix* notes 'the existence of a school of mystical alchemists whose purpose was self-regeneration.' With Boehme as an important early exponent, this 'tendency culminated in 1850' with Atwood's *Suggestive Inquiry into the Hermetic Mystery*. Taylor's statement, it turns out, could hardly have been more accurate yet has so far lacked the support of a comprehensive presentation. This led Principe and Newman to describe such claims of continuity regarding spiritual alchemy as mere 'conjecture' without 'clear historical evidence.' This book marshals that hitherto elusive evidence, much of it found in obscure manuscript sources,

Written in the late 1950s at the height of popular fascination with UFO's, *Flying Saucers* is the great psychologist's brilliantly prescient meditation on the phenomenon that gripped the world. A self-confessed sceptic in such matters, Jung was nevertheless intrigued, not so much by their reality or unreality, but by their psychic aspect. He saw flying saucers as a modern myth in the making, to be passed down the generations just as we have received such myths from our ancestors. In this wonderful and enlightening book Jung sees UFO's as 'visionary rumours', the centre of a quasi-religious cult and carriers of our technological and salvationist

actual case histories accompanied by the author's close analysis. Given the limited state of knowledge at the time of publication, the author's conclusions are startling. (Fans of John A. Keel's four-dimensional thesis will find much to chew on in these pages.) According to the author, Paris Flammonde, the Age of UFOs began on June 24, 1947 with Kenneth Arnold's famous sighting. It reached its peak in the late 1950s, when thousands of people came down with sauceritis and began

meeting the space people face-to-face. Why? The author's theory is that it was partly mass psychosis, stemming from the demise of religion and the death of God. People were ripe for new and otherworldly messiahs, leading to the rapturous ""contactee"" reports about higher civilizations benignly watching over us - and guiding us. But that is just part of the puzzle, because the sightings and contacts were often accompanied by documented physical evidence. This comprehensive book is more

than just a list of interesting sightings and encounters; however. It also provides a social history of the flying saucer culture that resulted from those incidents. Topics covered include saucer cults and religions, the evolution of government handling of the matter, conspiracies, and contactees. Flammonde also proposes a framework that sets the stage for the phenomenon to grow and propagate. This classic book is a must-have for all serious ufologists and UFO buffs.
