effectiveness. The book discusses the basics of governance - what it is and why it matters; essential duties and liabilities of the board and its members; and the essentials of an effective board/management partnership. It provides detailed guidance on the seven primary areas of board responsibility: i) mission and planning; ii) financial stewardship; iii) human resources stewardship; iv) performance monitoring and accountability; v) community representation and advocacy; vi) risk management; and, vii) managing 'critical events' and 'transitional phases'. It discusses the legal structure of nonprofits, who owns them and how to organize for accountable governance. Governing for Results will assist boards in dealing with recurring issues around board and committee structures; their terms of reference and effective use; and job descriptions for key officers. The discussion of board development, board management, decision-making and organizational culture will prove invaluable in helping many boards deal with these

complex issues. A discussion of the essential principles of governing for results includes a logical framework for planning and evaluation. The book provides tools that can help boards decide which governance practices will best fit their particular organization and strengthen their performance as a governing body. It outlines the factors that may interfere with a board's ability to adopt appropriate governance practices and presents twelve keys to successful governance that were identified through research. It offers a sample letter of agreement for new board members, and samples of an agenda for board meetings, an oath of confidentiality, a values statement, conflict of interest and donor confidentiality policies, a template for financial monitoring, self-assessment tools for the board and individual directors and a basic guide to 'Rules of Order' for conduct of meetings. It also provides outlines for comprehensive by laws and governance policies, and references to additional resources. Although this book is intended to fill a gap in the resources

available to volunteer members of nonprofit boards of directors, much of its guidance will also be useful for directors of public and private sector corporations. The strong research base underpinning this work also makes it of interest to researchers, academics, and consultants. It adds perspective to the debate about governance models and offers guidance to board members with respect to board structure, responsibilities, governance practices, and problems that commonly afflict boards. It is designed as a user-friendly guide for busy directors and executives who want concise, compact and well-researched answers to perennially troubling questions about governance, the role of boards and their relationship to staff.

Covering the full spectrum of long-term care, Pratt's *Long-Term Care: Managing Across the Continuum, Fifth Edition* is an ideal introduction to management in this dynamic industry. Concise, yet complete, it begins with a look at recent changes in long-term care and health care reform, before examining the various long-term care providers and their interaction with competition, payment systems, quality, and ethical issues. It moves on to explore managing in the long-term care system looking at administration, leadership, culture change, technology and community relations, and concludes with a look at future trends and managing continuing change. The Fifth Edition is a comprehensive revision reflecting new Federal Requirements of Participation from CMS for skilled nursing facilities and changes the Medicare-fee-for-service payment system (PDPM). It also addresses the Affordable Care Act and its impact on long-term care, as well as the growth of technology in care, and more.

practising good governance, the board is the vital driver of organizational success, while fostering positive social impact and economic value creation. At all levels, executives around the world are faced with complexities rising from disruptive business models, new technologies, socio-economic changes, shifting political circumstances, and an array of other sources. High Performance Boards is the comprehensive manual for attaining best-in-class governance, offering pragmatic guidance on improving board quality, accountability, and performance. This authoritative volume identifies the four dimensions, or pillars, which are crucial for establishing and maintaining best-practice boards: the people involved, the information architecture, the structures and processes, and the group dynamics and culture of governance. This methodology can be applied to any board in the world, corporate or non-profit organization, regardless of size, sector, industry, or context. Readers are introduced to a fictitious senior board member - an amalgamation of board members from well-known organisations - and follow her as she successfully handles real-life challenges with effective governance.

addresses the board's engagement in financial, programmatic, and personnel matters; roles of officers and committees; reporting and evaluation; agendas; and other aspects of the board job. For boards pursuing, or wanting to pursue, the Policy Governance model, *Adjacent Leadership Roles: CGO and CEO* examines the leadership roles needed in the boardroom and the executive suite. This guide reveals the two important and separate functions that are key to enabling both governance and management to have the benefit of optimal leadership. The Policy Governance model is based on the functions rather than the structure of a governing board. It outlines commonsense principles about governing that fit together into an entire system. The practices of the Policy Governance board, which are consistent with the principles, allow it to control without meddling, focus on long-term organizational outputs, powerfully delegate to a CEO and staff, and discharge its fiduciary responsibility in a visionary, strategic manner. Because the model is a total system, the Carver Policy Governance Guide series offers boards a complete set of principles for fulfilling their various obligations. ### **High Performance Boards**

**Boards of directors are coming under increasing scrutiny in terms of their contribution in monitoring and controlling management, particularly in the wake of high-profile corporate frauds and failures, and also their potential to add value to organizational performance through involvement in the strategy process and through building relationships with key investors. Despite the importance of these issues, not only to organizations but also arguably to national competitiveness, the nature of board activity remains largely a black box, clouded by prescriptions, prejudices, and half-truths. This book responds to calls for greater scrutiny of boards of directors with an in-depth examination of directors of UK organizations, drawing on the accounts of directors themselves as to their roles, influence, and the potential and limits to their power. Much work on boards of directors has labelled the board as a rubber stamp for dominant management, and non-executive directors in particular have been variously described as poodles, pet rocks, or parsley on the fish. Such accounts are rooted in assumptions of board activity that are essentially adversarial in nature, and that the solution to the 'problem' of reconciling the interests of managers with those of shareholders is to increase the checks and balances available to the board of directors. The findings of this study show that boards, in many**

**cases, are far more than passive rubber stamps for management and that non-executives are encouraged to act as trusted advisers to the executives and the chief executive, rather than solely monitors of executive activity. Boards are important mechanisms in maintaining the strategic framework of the organization through setting the boundaries of organizational activity. The potential of the board members, in particular the non-executives, to fulfil such a mandate depends on a number of factors, including ability, willingness to engage with the organizational issues, and the degree of knowledge they have relevant to the host firm. Above all, the degree of trust built between members of the board, and between the board and key external constituencies, is at the heart of effective board behaviour.**

**Finally someone inside public education is willing and able to share what makes public education one of the most wasteful and harmful and yet one of the most noble efforts in the history of mankind. This book pulls the curtain back for an unedited and uncensored view of public education, including components of public education heretofore unheard of by the general public. The author shares a personal and professional journey into corners of public education that will both disturb and delight readers. The author takes the reader into the world of felonious students and staff members, and how their presence in school poses real dangers for all students. He chronicles how some public school teachers and administrators save souls and how others are allowed to be cruel to children. Along with these honest descriptions of public education, the author also shares his personal journey through public education with a humorous view alternating with heart rendering descriptions of students trying to retain their dignity while struggling to survive in public schools. A new framework for helping nonprofit organizations maximize the effectiveness of their boards. Written by noted consultants and researchers attuned to the needs of practitioners, *Governance as Leadership* redefines nonprofit governance. It provides a powerful framework for a new covenant between trustees and executives: more macrogovernance in exchange for less micromanagement. Informed by theories that have transformed the practice of organizational leadership, this book sheds new light on the traditional fiduciary and strategic work of the board and introduces a critical third dimension of effective trusteeship: generative governance. It serves boards as both a resource of fresh approaches to familiar territory and a lucid guide to important new territory, and provides a road map that leads nonprofit trustees and executives to governance as leadership. *Governance as Leadership* was developed in collaboration with BoardSource, the premier resource for practical information, tools and best practices, training, and leadership development for board members of nonprofit organizations. Through its highly acclaimed programs and services, BoardSource enables organizations to fulfill their missions by helping build effective nonprofit boards and offering credible support in solving tough problems. This text is about governing schools - about how a body made up of "ordinary" people with no professional educational experience can make a positive contribution to the management of schools. The core of the book lays out a strategic model of school governance and considers the three key roles of planning, monitoring and evaluating. Practical examples and sample procedures which governing bodies can adapt are provided. The book also looks at: the accountability of governors; their formal duties; how they should behave in schools; the crucial relationship between governors, staff, headteachers, communities and local authority; and the issue of inspection.

A distinctive feature of urbanization in the last 50 years is the expansion of urban populations and built development well beyond what was earlier conceived as the city limit, resulting in metropolitan areas. This is challenging the relevance of traditional municipal boundaries, and by extension, traditional governing structures and institutions.

applications in a wide variety of contexts. Those reflections are structured into three sections. Section 1 discusses the conceptual underpinnings of metropolitan governance, analyzing why political, technical, and administrative arrangements at this level of government are needed. Section 2 deepens the discussion by addressing specific sectoral themes of mobility, land use planning, environmental management, and economic production, as well as crosscutting topics of metropolitan governance finance, and monitoring and evaluation. Section 3 tests the concepts and their sectoral adaptations against the practice, with cases from Africa, America, Asia, and Europe.
