comprehensive school. However, with his penchant for taking even the most innocent command literally, no reputable school will accept the boy who, when told that he must turn over a new leaf, begins fondling the foliage. His parents, with high hopes and a considerable amount of bribery money, search for anywhere that will take their 'late developer.' In a school that time forgot, Peregrine's 'talents' for taking orders and having no discernible individual thought seem perfect for a promising career in the upper ranks of the British Army. It is at Groxbourne that Peregrine meets Mr Gladstone, a man whose teaching style extends as far as using lashings to teach arithmetic. After Gladstone whisks the unquestioning boy off on a hysterical mystery, Peregrine ends up storming a French castle, where he unwaveringly commits mischief, mayhem and even murder!

buzz like all his other machines and it doesn't have an ON/OFF button. Then, quite by accident, Elliott makes the machine work. The machine makes letters! Elliott thinks it must be a story machine but, sadly, Elliott isn't very good at letters and words. How can he make magical stories without them? But, wait, some of the letters look like pictures. Elliott is good at pictures and, as he discovers, pictures make stories. An inspiring, uplifting picture book about the simple joys of a typewriter in a world of hi-tech machines. Sexual health and sexuality can be difficult subjects for parents and caregivers to broach with autistic children, made more challenging when children are at the severe end of the autism spectrum. Some parents may even question the validity of teaching sexuality to those who are severely autistic. This practical handbook guides you through the process of teaching about sex and sexuality, answering all of the most crucial questions, including: Why is it necessary to teach this subject to my severely autistic child? When is the right time to start talking about these issues? How detailed and explicit should I be? What methods are most appropriate? It addresses male and female issues separately and covers public and private sexual behaviours, sexual abuse, cross-gender teaching and liaising with school, in addition to the more obvious areas such as physical changes and menstruation. This will be the ideal guide to teaching about sexual issues for any parent, caregiver or health educator caring for a person on the severe end of the autism spectrum. SHORTLISTED FOR THE JHALAK PRIZE 2019 Told with heart and humour, The Boy at the Back of the Class is a child's perspective on the refugee crisis, highlighting the importance of friendship and kindness in a world that doesn't always make sense. There used to be an empty chair at the back of my class, but now a new boy called Ahmet is sitting in it. He's nine years old (just like me), but he's very strange. He never talks and never smiles and doesn't like sweets - not even lemon sherbets, which are my favourite! But then I learned the truth: Ahmet really isn't very strange at all. He's a refugee who's run away from a War. A real one. With bombs and fires and bullies that hurt people. And the more I find out about him, the more I want to help. That's where my best friends Josie, Michael and Tom come in. Because you see, together we've come up with a plan. . . With beautiful illustrations by Pippa Curnick

Everyone knows his or her favourite colour, the foods we most enjoy, and which season of The Sopranos deserves the most stars on Netflix. But what does it really mean when we like something? How do we decide what's good? Is it something biological? What is the role of our personal experiences in shaping our tastes? And how do businesses make use of this information? Comprehensively researched and singularly insightful, You May Also Like delves deep into psychology, marketing and neuroscience to answer these complex and fascinating questions. From the tangled underpinnings of our food choices, to the discrete dynamics of the pop charts and our playlists, to our non-stop procession of 'thumbs' and 'likes' and 'stars,' to our insecurity before unfamiliar works of art, the book explores how we form our preferences - and how they

It explains how difficult it is, even for experts, to pinpoint exactly what makes something good or enjoyable, and how the success of companies like Netflix, Spotify and Yelp! depends on the complicated task of predicting what we will enjoy. Like Traffic, this book takes us on a fascinating and consistently surprising intellectual journey that helps us better understand how we perceive and appreciate the world around us.

Many people with autism and SEND have or will have intimate relationships. Often sex is alluded to, rather than being carefully explored. OF HUMAN HISTORY In the seventy thousand years that modern human beings have walked this earth, we've come a long way. Art, science, culture, trade - on the evolutionary food chain, we're real winners. But, frankly, it's not exactly been plain sailing, and sometimes - just occasionally - we've managed to really, truly, quite unbelievably f*ck things up. From Chairman Mao's Four Pests Campaign, to the American Dustbowl; from the Austrian army attacking itself one drunken night, to the world's leading superpower electing a reality TV mogul as President... it's pretty safe to say that, as a species, we haven't exactly grown wiser with age. So, next time you think you've really f*cked up, this book will remind you: it could be so much worse... FURTHER PRAISE FOR HUMANS: 'Very funny' Mark Watson 'A light-touch history of moments when humans have got it spectacularly wrong... Both readable and entertaining' The Telegraph 'Chronicles humanity's myriad follies down the ages with malicious glee and much wit ... a rib-tickling page-turner' Business Standard 'A timely, irreverent gallop through thousands of years of human stupidity' Nicholas Griffin, Ping-Pong Diplomacy: The Secret History Behind the Game That Changed the World The Growing Up Book for Boys explains the facts behind the growth spurts, body changes and mood swings of adolescence for boys aged 9-14 on the autism spectrum. The pre-teen and teenage years are a confusing time when bodies start acting with a will of their own, friendships change and crushes start to develop. Using direct literal language and cool colour illustrations, this book tells boys all they need to know about growing hair in new places, shaving, wet dreams and unexpected erections. It's full of great advice on what makes a real friend, how to keep spots away, and how to stay safe online. Most importantly, it explains that every body is amazing and unique and encourages young boys with autism to celebrate difference!
