## Tovi The Penguin: Goes On A Treasure Hunt In Paris: Volume 7

This is a STEM book and more! An inspiring, inclusive, whimsical way to learn about computers and technology from real-life trailblazers. Ara is a young girl who loves BIG numbers. She wants to count all the stars in the sky... but how? This is an upbeat adventure of Ara and her sidekick droid, DeeDee ("Beep!"). They use smarts and grit to solve a BIG problem and discover an amazing algorithm! A quest that takes them through a whirlwind of intriguing locations at Innovation Plex -- Data Centre, Ideas Lab, Coding Pods, and X-Space. Along the way, they encounter real-life women tech trailblazers of diverse backgrounds, including a Tenacious Troubleshooter, an Intrepid Innovator, a Code Commander, and a Prolific Problem Solver. They linker-and-failor, build-and-failor, launch-and-iterate, and in the end discover an amazing algorithm of success -- coding, courage, creativity, and collaboration ("Beeper!"). Read the book, conduct hands-on activities, follow further learning resources. Experience the story in immersive ways never done before... coming soon! Ara is making a splash with industry CEOs and best-selling kids authors. "If she can see it, she can be it." With this story, girls can see leaders and be inspired to become one. A book for all ages and genders! - Geena Davis, Founder and Chair, Geena Davis Institute on Gender in Media

"Utterly, agonisingly compulsive... a masterpiece" Liz Jensen, Guardian
The first volume in The Copenhagen Trilogy, the searing portrait of a woman's journey through love, friendship, ambition and addiction, from one of Denmark's most celebrated twentieth-century writers Tove knows she is a misfit, whose childhood is made for a completely different girl. In her working-class neighbourhood in Copenhagen, she is enthralled by her wild, red-headed friend Ruth, who initiates her into adult secrets. But Tove cannot reveal her true self to her or to anyone else. For 'long, mysterious weeks begin to crawl across my soul', and she comes to realize that she has a vocation, something unknowable within her - and that she must one day, painfully but inevitably, leave the narrow street of her childhood behind. Childhood, the first volume in The Copenhagen Trilogy, is a visceral portrait of girlhood and female friendship, told with lyricism and vivid intensity.

A newly married woman longs, irrationally, for a silk umbrella; a husband chases away his wife's beloved cat; a betrayed mother impulsively sacks her housekeeper. Underneath the surface of these precisely observed tales of love, marriage and family life in mid-century Copenhagen pulse currents of desire, violence and despair, as women and men dream of escaping their conventional roles and finding freedom and happiness - without ever truly understanding what that might mean.

**In this book, the author develops a relational concept of space that encompasses social structure, the material world of objects and bodies, and the symbolic dimension of the social world. Löw's guiding principle is the assumption that space emerges in the interplay between objects, structures and actions. Based on a critical discussion of classic theories of space, Löw develops a new dynamic theory of space that accounts for the relational context in which space is constituted. This innovative view on the interdependency of material, social, and symbolic dimensions of space also permits a new perspective on architecture and urban development.**

Tom Jones' Over the Top and Back is at this special price NOW . . . 'For a lot of years, I've answered a lot of questions, but have never told my story before.' Across six decades, Sir Tom Jones has maintained a vital career in a risky, unstable business notorious for the short lives of its artists. With a drive that comes from nothing but the love for what he does, he breaks through and then wrestles with the vagaries of the music industry, the nature of success and its inevitable consequences. Having recorded an expansive body of work and performed with fellow artists from across the spectrum and across every popular music genre, from rock, pop and dance to country, blues and soul, the one constant throughout has been his unique musical gifts and unmistakable voice. But how did a boy from a Welsh coal-mining family attain success across the globe? And how has he survived the twists and turns of fame and fortune to not only stay exciting, but actually become more credible and interesting with age? In this, his first ever autobiography, Tom revisits his past and tells the tale of his journey from wartime Pontypridd to LA and beyond. He reveals the stories behind the ups and downs of his fascinating and remarkable life, from the early heydays to the subsequent fallow years to his later period of artistic renaissance. It's the story nobody else knows or understands, told by the man who lived it, and written the only way he knows how: simply and from the heart. Raw, honest, funny and powerful, this is a memoir like no other from one of the world's greatest ever singing talents. This is Tom Jones and Over the Top and Back is his story.

*Since its inception in 2001, the International Criminal Court (ICC) has been met with resistance by various African states and their leaders, who see the court as a new iteration of colonial violence and control. In Affective Justice Kamari Maxine Clarke explores the African Union's pushback against the ICC in order to theorize affect's role in shaping forms of justice in the contemporary period. Drawing on fieldwork in The Hague, the African Union in Addis Ababa, sites of postelection violence in Kenya, and Boko Haram's circuits in Northern Nigeria, Clarke formulates the concept of affective justice—an emotional response to competing interpretations of justice—to trace how affect becomes manifest in judicial practices. By detailing the effects of the ICC's all-African indictments, she outlines how affective responses to these call into question the “objectivity” of the ICC’s mission to protect those victimized by violence and prosecute perpetrators of those crimes. In analyzing the effects of such cases, Clarke provides a fuller theorization of how people articulate what justice is and the mechanisms through which it do so.*

Ignorance is bliss, or so hopes Antoine, the lead character in Martin Page's stinging satire, How I Became Stupid—a modern day Candide with a Darwin Award like sensibility. A twenty-five-year-old Aramaic scholar, Antoine has had it with being brilliant and deeply self-aware in today's culture. So tortured is he by the depth of his perception and understanding of himself and the world around him that he vows to denounce his intelligence by any means necessary in order to become "stupid" enough to be a happy, functioning member of society. What follows is a dark and hilarious odyssey as Antoine tries everything from alcoholism to stock-trading in order to lighten the burden of his brain on his soul.

1, 2, 3, Who's Cleaning the Sea? A Counting Picture Book About Protecting Our Planet Seven and eight, is it too late? Not quite yet, but let's not wait! 8 fishing nets on the ocean floor, dragged by an octopus up to the shore. The sea creatures are working hard to clean their living environment of ocean pollution. Inspired by powerful visuals of ocean pollution, this book will teach your child not only numbers and how to count but also the importance of taking care of our environment.

Children will love learning how little changes they make can protect our planet. 1,2,3, Who's Cleaning the Sea is the second book from award-winning and Amazon best-selling author Janina Rossiter in her "concept picture book" series. Janina Rossiter has again combined two subjects with imaginative drawings, resulting in a beautiful book that children and adults will enjoy reading. This picture book will teach your child to associate numbers with their quantities while also learning about the importance of keeping plastics and other pollutants out of our oceans. Younger children will be able to count along and slightly older children (ages 4-6) will learn to make logical connections between numbers and facts. Readers of all ages will enjoy the pictures, the story, and the message. The original hand-drawn illustrations in black ink marker on a background of acrylic art are exquisite and will entice young readers to turn the pages as they discover the fascinating world captured by the illustrator's imagination. Filled with glorious paintings, this highly imaginative picture book will not only aid children with learning to count, they will also learn about protecting the environment as they take a journey under the sea. Truly delightful. Samantha Vérant, author of HOW TO MAKE A FRENCH FAMILY Stunning images of sea creatures cleaning the ocean form the backdrop of this fun and educational counting book that young children (and adults too!) are sure to enjoy.

Arlene is a little girl who loves to make things. She begins by making presents for her doll, Maggie. As she grows up, she moves on to creating gifts for her own children and grandchildren. This is a lovely story that is designed to help children see a different side of the elders in their lives and understand that they were once children, too. Here's what people are saying about Great-Grandma's Gifts: I loved it! A sweet book about a mother/grandmother/great-grandmother's love for her family and how she uses her talents to create loving memories to give to each generation. The illustrations are especially enjoyable. Susan M. Toy, Reading Recommendations Great-Grandma's Gifts is exactly the kind of book that little girls will remember reading with their moms when they are older. It's cute and it's soft...but it's not 'just' cute and soft; there are deeper currents here involving family and love and generations and life itself. Get it, read it and then put it high enough on the shelf so you can't kick it off. You're going to want to hold onto this one for them. Paul Boehmeier, author of Barley the Elephant. It's a personal story that really connects with people. Jones has a way of making her own experiences relate across the boards. Grandmothers everywhere should pick this up to read to their grandchildren. And keep on-hand as yet another gift to pass down. Scott E. Chasty A beautiful tribute to a creative mom with creative daughters...the aspect on aging is quite well done. Passed it on... Gayle Willoughby, This is a very sweet story about a girl who loved to sew that grew up to be a great-grandmother. The illustrations are gorgeous. I really like how some of the words reflect what is being said (red is red, striped is striped, etc...). I really liked this because a lot of times kids don't think of adults as being children at one time! I teach early elementary and this will be a great addition to my classroom library. Jayna This is a sweet, lovely little book. The writing flows off the tongue and I can see how easy it would be to read aloud to a child. Very nice. By timber9762 "timber9762" (Amazon reviewer.) Sweet generational story of grandma showing and passing on her love of pieces of fabric and sewing not just pieced quilts, but also clothing and soft cuddly remembered toys. Simple drawings and colors for a toddler to point and name and recognize. Albuquerque (Amazon reviewer.) My daughter and I read this book together. My daughter will be going into grade two this fall and found it a great read for her. She read most of it on her own with some help from myself so it helped challenge her but also help with words she already knows. My daughter loved the pictures and she thought it was really neat that Grandma was busy making clothes, toys and beautiful quilts for her children and grand children. We both enjoyed the font that were coloured different sizes. Some were also striped or polka dots. A great book to read with kids. I love that after all the years of making wonderful gifts that Grandma decided to take a rest at the lake! My daughter and I give this book 5 stars! Jennifer Levac, book blogger www.genuinejenn.com

Kindergarten teachers know that a child's first taste of school should be engaging, active, social, and fun! Yet teachers are presented with a challenge. How do they nurture the holistic, exploratory nature of early childhood while teaching with the intentionality and rigor required to meet learning goals? Let this resource pave the way. English Language Arts the Kindergarten Year contains methods for teaching foundational reading skills, building vocabulary, inspiring and developing writing, and helping children respond to literature and informational text--while inherently fulfilling the needs of the whole child. An entire year of activities is included. And all activities are classroom-tested and naturally infuse visual art, music, drama, poetry, movement and puppetry--so that kindergartners meet learning goals their way.

"We think we know what's coming. But is it already too late? "How the West Was Lost" is a wake-up call for all of us. Dambisa Moyo argues that during the last fifty years the most advanced countries on earth have squandered their advantage through fatally flawed policies: obsessing over property, ravenously consuming and building up debt instead of investing. Here Moyo outlines solutions that could help stem the tide. By rethinking many of the things we take for granted, she shows, it may yet be possible for the West to get back into the race." -- Back cover.

Called "a masterpiece" by The New York Times, the acclaimed trilogy from Tove Dittvens, a pioneer in the field of genre-bending confessional writing. Tove Dittvens is today celebrated as one of the most important and unique voices in twentieth-century Danish literature, and The Copenhagen Trilogy (1969-71) is her acknowledged masterpiece. Childhood tells the story of a misfit child's single-minded determination to become a poet; Youth describes her early experiences of sex, work, and independence. Dependency picks up the

*story as the narrator embarks on the first of her four marriages and goes on to describe her horrible descent into drug addiction, enabled by her sinister, gaslighting doctor-husband. Throughout, the narrator grapples with the tension between her vocation as a writer and her competing roles as daughter, wife, mother, and drug addict, and she writes about female experience and identity in a way that feels very fresh and pertinent to today's discussions around feminism. Ditlevsen's trilogy is remarkable for its intensity and its immersive depiction of a world of complex female friendships, family, and growing up—in this sense, it's Copenhagen's answer to Elena Ferrante's Neapolitan novels. She can also be seen as a spiritual forerunner of confessional writers like Karl Ove Knausgaard, Annie Ernaux, Rachel Cusk, and Deborah Levy. Her trilogy is drawn from her own experiences, but reads like the most compelling kind of fiction. Born in a working-class neighborhood in Copenhagen in 1917, Ditlevsen became famous for her poetry while still a teenager, and went on to write novels, stories, and memoirs before committing suicide in 1976. Having been dismissed by the critical establishment in her lifetime as a working-class female writer, she is now being rediscovered and championed as one of Denmark's most important modern authors, with "Tove fever" gripping readers.*

The role of the Third Sector within European society is an extremely topical subject, as both governments and the EU continue to consider the role these organizations can play in providing essential public services. This book presents contemporary research into this emerging area, exploring the contribution of this important sector to European society as well as the key challenges that the sector and its components organizations face in making this contribution. This volume brings together for the first time a range of challenging perspectives upon the role and import of the Third Sector for European society from a variety of disciplines - including economics, sociology, political science, management and public policy. Areas covered include the Third Sector civil society and democracy, relationships with government, its impact on social and public policy, the growth of social enterprise and of hybrid organizations as key elements of the sector and the future challenges for the sector in Europe.
