

## ***Year One (Chronicles Of The One)***

A debut entry in a new trilogy by the author of the Jenna Fox Chronicles introduces Princess Lia, who flees an unwanted marriage and expectations about her supernatural legacy only to be pursued by her jilted fiancé and a ruthless assassin.

I was thirteen years old when I originally thought of the story, and have written and rewritten it more times than I can count. But six years ago, I met my wife a Filipina from Manila, and there I discovered the wonderful and gracious people of the Philippines. After realizing I would have children of mixed racial birth. I decided I wanted to give them a hero to look up to from their own culture. I then re-did all nine books; this time the racial and religious and cultural differences gave the book a more defined nature, one of which I'm proud. I had given up long ago on trying to get an agent or a publisher to take interest in my book, but that was never my goal. My goal was to give my children a hero of their heritage, and to inspire them. Win or lose, they win. The Year is 2079 and the earth has recently been discovered by a ruthless alien race known as the T-Challa. Their plan is to enslave the population and to strip the earth of all its resources to maintain and expand their vast empire. However the earth is not without hope, another alien race called the X'ena's have sent a symbiotic probe to earth to help defend her from the T-Challa. The Probe which takes the name Paladin merges with a human named Caleb Ocode as well as an ancient battleship from a century ago and transforms both into a force to protect the earth. Caleb then mans his ship with the best the earth has to offer as they go out to defend the earth successfully defeating the small fleet sent by the T-Challa. Unfortunately the ship suffers damage and it affects Caleb wounding him, it is quickly discovered that Caleb is dying and with him the mighty ship named Paladin, the only defense of earth. After searching all possible answers to save himself and protect the earth, Caleb decides to find the X'ena to see if they can cure him before his death, but time is short and the ship must travel through the heart of the T-Challa Empire to find the X'ena and save Caleb. Will they succeed?

Sydney West enjoys sampling summer boys, but this year, one refuses to be a one-night stand... Twenty-one-year-old Sydney doesn't believe in relationships. Her parents' toxic divorce has taught her love is nothing but a sinister fairytale. So every summer she picks up, abandons her lover before dawn, and repeats. That is until she meets gorgeous local surfer Jason King at the beach... When Jason fails to flirt-or even give her a second glance-she decides something must be wrong with him, and it's safer to stay away. But when Sydney and Jason's best friends hook up and become Malibu's hottest couple, they are forced to spend more time together than either of them cares for. Armed with a sharp tongue, Sydney works to keep Jason at bay... In a moment of weakness, Sydney lets her guard down and confides in Jason, realizing he's more than just a hot guy-he's also a friend. And when Sydney's need for a summer boy results in her falling into bed with Jason, despite her better judgment, she runs away from him by morning. The problem is he won't accept being another one-night stand, and will do anything to prove... Love really does exist.

A fiercely authentic, critically acclaimed and award-winning modern classic. 'Speak up for yourself - we want to know what you have to say.' From my first day at Merryweather High, I know this is a lie. Nobody will even talk to me, let alone listen - all because I called the cops on an end-of-summer party. But if I could only tell everyone why I called the

police that night... If I could explain what happened to me... If I could speak... Then everything might change. 'With the rise of women finding their voices and speaking out about sexual assault in the media, this should be on everyone's radar... Powerful, necessary, and essential.' - Kirkus

In the hopes of entrusting Dionia's brave history and perilous future to a generation that has never known war, the kings decide to raise up their young sons as an elite group of warriors, known only as the Dibor. Gorn, legendary hero of the First Battle, is commissioned to teach the Dibor the art of war, leading them on a four-year adventure on the Isle of Kirstell. It is Luik, son of Lair, who soon emerges as the warband's spirited front man. But he is not the only one of his peers to grow in power; his dear friend Fane discovers hidden abilities among the Mosfar under the mentorship of Li-Saide of Ot, while Princess Anorra finds that her lifelong tutor knows as much about combat as he does about etiquette. There is little time for the Dibor to enjoy the satisfaction of graduation, however, as a sinister plot is discovered to dethrone Dionia's kings and flatten the capital city of Adriel. The Dibor are summoned to war, along with the rest of Dionia's fighting men. It is before the gates of Adriel Palace that Luik and his army face Morgui's prince, Valdenil, as well as the unending ranks of the Dairne-Reih.*

The Murderbot Diaries makes first contact in this new, futuristic, standalone novel exploring sentience and artificial intelligence through the lenses of conflicted robot hero Unit Four, from Marina Lostetter, critically acclaimed author of Noumenon, Noumenon Infinity, and Noumenon Ultra. When Unit Four—a biological soft robot built and stored high above the Jovian atmosphere—is activated for the first time, it's in crisis mode. Aliens are attacking the Helium-3 mine it was created to oversee, and now its sole purpose is to defend Earth's largest energy resource from the invaders in ship-to-ship combat. But something's wrong. Unit Four doesn't feel quite right. There are files in its databanks it can't account for, unusual chemical combinations roaring through its pipes, and the primers it possesses on the aliens are suspiciously sparse. The robot is under orders to seek and destroy. That's all it knows. According to its handler, that's all it needs to know. Determined to fulfill its directives, Unit Four launches its ship and goes on the attack, but it has no idea it's about to get caught in a downward spiral of misinformation, reprogramming, and interstellar conflict. Most robots are

simple tools. Unit Four is well on its way to becoming something more....
