A restaurant guide to more than six hundred restaurants in eighty national and cultural groupings is comprised mostly of affordable locations and includes profiles of both famous and hole-in-the-corner eateries. Original. The Spanish Camino de Santiago, a pilgrimage rooted in the Medieval period and increasingly active today, has attracted a growing amount of both scholarly and popular attention. With its multiple points of departure in Spain and other European countries, its simultaneously secular and religious nature, and its international and transhistorical population of pilgrims, this particular pilgrimage naturally invites a wide range of intellectual inquiry and scholarly perspectives. This volume fills a gap in current pilgrimage studies, focusing on contemporary representations of the Camino de Santiago. Complementing existing studies of the Camino's medieval origins, it situates the Camino as a modern experience and engages interdisciplinary perspectives to present a theoretical framework for exploring the most central issues that concern scholars of pilgrimage studies today. Contributors explore the contemporary meaning of the Camino through an interdisciplinary lens that reflects the increasing permeability between academic disciplines and fields, bringing together a wide range of theoretical and critical perspectives (cultural studies, literary studies, globalization studies, memory studies, ethnic studies, postcolonial studies, cultural geographies, photography, and material culture). Chapters touch on a variety of genres (blogs, film, graphic novels, historical novels, objects, and travel guides), and transnational perspectives (Australia, the Arab world, England, Spain, and the United States).

Homemade ice cream, pick-your-own fruit, New England clam chowder, and Wooster Street pizza all make Connecticut a great place to eat, and Food Lovers' Guide to Connecticut will help you find the best of the best! Information about seasonal food festivals, farmers' markets, and notable eateries highlight the specialties of the state, and this new edition is thoroughly updated to include fabulous new finds.

A thousand-year-old pilgrimage route and food traditions stretching back de toda la vida - since forever. These are what Dee Nolan set out to experience on her pilgrimage to Santiago de Compostela - through the rich farming lands of southern France and northern Spain.

The Routledge Handbook of Tourism and the Environment explores and critically evaluates the debates and controversies inherent to tourism's relationship with nature, especially pertinent at a time of major re-evaluation of our relationship with the environment as a consequence of the environmental problems we now face. It brings together leading specialists from range of disciplinary backgrounds and geographical regions, to provide state-of-the-art theoretical reflection and empirical research on this complex relationship and future direction. The book is divided in to five interrelated sections. Section one evaluates the philosophical basis, rationale and complexity of what is meant by the term 'environment' considering the major influences in the construction of how we understand our surroundings and the types of values we place upon them. Section two evaluates the types of eco-systems that are used as natural resources for tourism and the negative and positive impacts upon them. Section three evaluates relevant environmental policy and management mechanisms for the impacts of tourism on the natural environment. Section four focuses on the changing tourism-environment relationship, and the types of tourism that have become established in the tourism industry, market and policy. Section five, analyzes contemporary and future issues of the tourism-environment relationship, based upon themes of environmental and social welfare. This timely book will provide an invaluable resource for all those with an interest in tourism's relationship with the natural environment, encouraging dialogue across disciplinary boundaries and areas of study. The book is international in its focus, emphasizing that issues of tourism and the natural environment are not only localized but transcend national boundaries that sometimes require both international and global responses. This is essential reading for student, researchers and academics of Tourism as well as those of Geography, Environmental Studies and Development Studies.

What's Covered? Get to Know Western Ireland and Dublin: The multiple delights of Cork

City make it an excellent base to explore the treasures of County Cork--from Blarney Castle to the breathtaking views over Bantry Bay. Kerry and Limerick Counties are nestled in the southwest of Ireland, with sights that top every tourist's must-see list. The most brazenly scenic coastal drive in the land, the Ring of Kerry will use up your entire flash card in a jiffy! The Gap of Dunloe lets you walk through the heart of Killarney's purple mountains and cross the glittering blue lake of Killarney. And don't forget to have your camera handy for Ireland's prettiest village, Adare. To the north lies County Clare. Set with postcard-perfect villages like Doolin, the lunar landscape of the Burren, and the towering Cliffs of Moher, County Clare is pure tourist gold. Nearby, Galway City offers a compact historic center with a lively music and pub scene. For a look at traditional Irish culture, take a trip to one of the Aran Islands in Galway Bay. With the most westerly seaboard in Europe, Connemara and County Mayo remain the most Irish part of Ireland. Connemara is an almost uninhabited landscape of misty bogland, studded with deep blue lakes under huge Atlantic skies, and distant purple hills. Outside the main towns--Castlebar and Westport--the rest of County Mayo has long empty roads leading to isolated shorelines and stunning vistas. Most travelers to Ireland will not be able to resist a stop over to Dublin, Ireland's capital, and one of Europe's most popular city-break destinations. With magnificent museums including Hugh Lane and the National Museum, Georgian architecture, and of course, hundreds of pubs, the city's pleasures are uncontainable. Note: This ebook edition includes photographs and maps that will appear on black-and-white devices but are optimized for devices that support full-color images.

We are apt to forget how much people traveled in the Middle Ages. Not only merchants, friars, soldiers and official messengers, but crowds of pilgrims were a familiar sight on the roads of Western Europe. In this engaging work of history, Jonathan Sumption brings alive the traditions of pilgrimage prevalent in Europe from the beginning of Christianity to the end of the fifteenth century. Vividly describing such major destinations as Jerusalem, Rome, Santiago de Compostela and Canterbury, he examines both major figures -- popes, kings, queens, scholars, villains -- and the common people of their day.

This is the sixth volume of a detailed play-by-play catalog of drama written by English, Welsh, Irish, and Scottish authors during the 110 years between the English Reformation to the English Revolution, covering every known play, extant and lost, including some which have never before been identified. It is based on a complete, systematic survey of the whole of this body of work, presented in chronological order. Each entry contains comprehensive information about a single play: its various titles, authorship, and date; a summary of its plot, list of its roles, and details of the human and geographical world in which the fictional action takes place; a list of its sources, narrative and verbal, and a summary of its formal characteristics; details of its staging requirements; and an account of its early stage and textual history. From the author of the award-winning *A Food Lover's Pilgrimage to Santiago de Compostela* Most of the early pilgrims were French and now Dee retraces their steps, seeking out the ancient paths through France. Dee's French pilgrimage winds through magnificent and changing landscapes: from Burgundy's vine-covered slopes to the gastronomic capital of Lyon; up onto the vast windswept meadows of the Aubrac plateau; along the dramatic Lot river; through the gentle hills of Gascony and, finally, to the trout-filled rivers of the Pyrenees. She meets the monks whose medieval predecessors planted the vineyards we see today, visits local markets with some of France's greatest chefs, cooks traditional recipes in home kitchens, and walks with farmers taking cattle to the high pasture.

The Pilgrim's Tale

Food Lovers' Guide to® Virginia

This extensive work explores the changing world of religions, faiths and practices. It discusses a broad range of issues and phenomena that are related to religion, including nature, ethics, secularization, gender and identity. Broadening the context, it studies the interrelation between religion and other fields, including education, business, economics and law. The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions. Beginning with an introduction of the concept of the "changing world religion map", the book first focuses on nature, ethics and the environment. It examines humankind's eternal search for the sacred, and discusses the emergence of "green" religion as a theme that cuts across many faiths. Next, the book turns to the theme of the pilgrimage, illustrated by many examples from all parts of the world. In its discussion of the interrelation between religion and education, it looks at the role of missionary movements. It explains the relationship between religion, business, economics and law by means of a discussion of legal and moral frameworks, and the financial and business issues of religious organizations. The next part of the book explores the many "new faces" that are part of the religious landscape and culture of the Global North (Europe, Russia, Australia and New Zealand, the U.S. and Canada) and the Global South (Latin America, Africa and Asia). It does so by looking at specific population movements, diasporas, and the impact of globalization. The volume next turns to secularization as both a phenomenon occurring in the Global religious North, and as an emerging and distinguishing feature in the metropolitan, cosmopolitan and gateway cities and regions in the Global South. The final part of the book explores the changing world of religion in regards to gender and identity issues, the political/religious nexus, and the new worlds associated with the virtual technologies and visual media.

"Set aside your *Bella Tuscanys* and *Year in Provinces* for a different kind of travel book. *Pilgrimage to Vallombrosa* puts a walking stick in your hand and *Marsh's Man and Nature* in your knapsack, exploring how Italians have managed their natural and cultural heritage in ways that sustain both. John Elder's poetic meditations on land and life demonstrate that only by searching beyond our familiar boundaries can we discover better ways of living back at home."--Marcus Hall, author of *Earth Repair: A Transatlantic History of Environmental Restoration* "This collaboration--between George Perkins Marsh and John Elder, between Vermont and Italy, between maple and olive--is one of the smartest, soundest, deepest books about the relationship between people and nature that I've ever read. It will be a classic."--Bill McKibben, author of *The End of Nature* "Elder's impassioned pilgrimage shows us how to delight in messy wilderness, to secure a curative habitation of the world, and, with Marsh, to lend ecological nous to our gravest task: knowing ourselves and respecting one another. Let the maple seeds and olive stones of Elder's visionary harvest restore to us a reflective and redemptory future."--from the foreword by David Lowenthal The pivotal figure in *Pilgrimage to Vallombrosa* is the nineteenth-century diplomat and writer George Perkins Marsh, generally regarded as America's first environmentalist. Like Elder, Marsh was a Vermonter, and his diplomatic career took him for some years to Italy, where, witnessing the ecological devastation wrought upon the landscape by runaway deforestation and the plundering of other natural resources, he was moved to produce his famous manifesto, *Man and Nature*. Marsh drew parallels between the despoiled Italian environment and his home landscape of Vermont, warning that the latter was vulnerable to ecological woes of a similar magnitude if not carefully maintained and protected. In short, his was a prescient voice for stewardship. Elder follows in Marsh's footsteps along a trajectory running from Vermont to Italy, and at length fetches up at the managed forest of Vallombrosa. Punctuated throughout with learned and genial considerations of the poetry of Wordsworth, Basho, Dante, and Frost, Elder's narrative takes up issues of sustainability as practiced locally, reports on family doings, and returns finally--as did Marsh's--to Vermont, where he measures traditional stewardship values against more aggressive conservation-oriented measures such as the expansion of wilderness areas. John Elder, Professor of English and Environmental Studies at Middlebury College, is the author of *Reading the Mountains of Home* and *The Frog Run*. *Under the Sign of Nature: Explorations in Ecocriticism*
