Burton traces the evolution of Edgefield County from the antebellum period through Reconstruction and beyond. From amassed information on every household in this large rural community, he tests the many generalizations about southern black and white families of this period and finds that they were strikingly similar. Wealth, rather than race or class, was the main factor that influenced family structure, and the matriarchal family was but a myth.

The Mouse Mansion

Beginning with new evidence that cites the presence of books in Roman villas and concluding with present day vicissitudes of collecting, this generously illustrated book presents a complete survey of British and Irish country house libraries. Replete with engaging anecdotes about owners and librarians, the book features fascinating information on acquisition bordering on obsession, the process of designing library architecture, and the care (and neglect) of collections. The author also disputes the notion that these libraries were merely for show, arguing that many of them were profoundly scholarly, assembled with meticulous care, and frequently used for intellectual pursuits. For those who love books and the libraries in which they are collected and stored, The Country House Library is an essential volume to own.

A country house is unhappy when the city, with all its buildings and traffic, grows up around her. A Caldecott Medal Book.

In this Very Short Introduction, Michael Freedon explores the concept of liberalism, one of the longest-standing and central political theories and ideologies. Combining a variety of approaches, he distinguishes between liberalism as a political movement, as a system of ideas, and as a series of ethical and philosophical principles.

Poetry. African American Studies. Women's Studies. "In my father's house are many mansions," Jesus promised. In her deftly-aimed, disarmingly poised debut, Nikki Wallschlaeger leads us phrase by phrase through the many dim and brightly lit houses of our American psyche in this pitiless new century: "Hospitals. Lighted for end times. They run on glossy generators & backup generators, lights of all dreams." Her long lines push the phrases into tight proximities which are sometimes painful, sometimes grate up a little spark: "Neighbor, our hearts pumped blood in the same room, looking onto lakes that teenagers drown in." I admire the grave persistence of her vision, the precision of her eye and ear. Houses unflinchingly reports the extremity of contemporary existence and presents the "end times" as durational, as just something else to endure. "The bill, they say, is going through the house. Eventually we'll have to get real."—Joyelle McSweeney

The Many Mansions in the House of the Father, Scripturally Discussed, and Practically Considered ... With a Prefatory Memoir of the Author, by F. A. Faber ... Second Edition

Are there really mansions in heaven? What specifically what was Jesus referring to when He said, "In my Father's house are many mansions: if it were not so, I would have told you. I go to prepare a place for you. And if I go and prepare a place for you, I will come again, and receive you unto myself: that where I am, there ye may be also?" In order to determine the context of this passage, we first have to establish what is meant by the term, "The Father's house." Furthermore, we also have to identify the circumstances surrounding this announcement. Based on a precise understanding of these principles, I am certain that the findings of this book will provide enlightenment regarding this subject. What has been traditionally believed and accepted will be replaced with a truth that is founded in God's original purpose for humanity.

Essays & Sermons by Robert Paul Starbuck, Mdiv, PhD.As an ordained United Methodist Church minister for over fifty-five years, and practicing psychotherapist for over forty years, Robert P. Starbuck never read the Bible in a literal way. As a clergy, he saw the beloved Bible stories, readings, and lessons, as a way of wisdom. And as a way of being and becoming; a way of renewal, redemption, reconciliation, forgiveness, and spiritual enlightenment. He saw them as something to be taught and celebrated as sacred literature and scripture pointing humankind towards a much higher truth and experience of the divine. A way that points us towards an intimate and eternal relationship with the divine that is ours to claim, a new being and a new creation. As a clergy he believed in and administered the sacraments of the church. He believed in the Ultimate Divine Mystery and Love of God actively at work within the world. He was able to live in this mystery, to accept it fully and completely, and came to realize early in his adult life what Jesus was ultimately teaching humankind was to love God, yourself, and others as yourself. We find this in the two greatest commandments of Christ.

'This lavishly illustrated compendium suggests that the age of elegance endures' Mail on Sunday The great houses of London represent one of the marvels of English architecture and yet they are almost entirely unknown. They are for the most part disguised behind sober facades but their riches within are astonishing. There are many architectural wonders, among them Robert Adam's 20 St James's Square and William Burges's Tower House. Several - including Bridgewater House with its Raphaels and Titans - have held great art collections. These are houses that hold extraordinary stories: half the Cabinet resigned after breakfast at Stratford House; and on 4 August 1914, at 9 Carlton House Terrace, then the German Embassy, young duty clerk Harold Nicholson deftly substituted one declaration of war for another. Great Houses of London opens the door to some of the greatest and grandest houses in the world to tell the stories of their owners and occupants, artists and architects, their restoration, adaptation and change.

The PM's Beirut Mansion

Observatory Mansions was once the Orme family's ancestral home. Now it is a crumbling apartment block, stranded on a traffic island and peopled with eccentrics. Alice Orme never stirs from her bed, her husband lives in his old armchair, and Francis, their son, practises his own art of stillness as a human statue in the centre of the decaying city. He lives by his Law of White Gloves, never touching anything without their protection, and collects items for his secret exhibition - items stolen, not because of any monetary worth, but because they are treasured by the owners. This careful routine is shaken by the arrival of a new resident, Anna Tap, half blind and vulnerable, but with a strange gift for inspiring trust. As the other residents gradually open their hearts to her, Francis realises he must act before she forces him to confront his own past, and before she finds out about the mysterious final object in his exhibition. But as the currents of memory and desire swirl within Observatory Mansions' crumbling walls, it seems the sinister Porter has plans of his own... Edward Carey's debut is a novel of immense originality - a strangely haunting landscape occupied by compelling and unforgettable characters.

Are there really mansions in heaven? In John 14:2-3 Jesus said, "In my Father's house are many mansions: if it were not so, I would have told you. I go to prepare a place for you. And if I go and prepare a place for you, I will come again, and receive you unto myself; that where I am, there ye may be also"? What specifically was Jesus referring to in this passage? In answering these questions, this book not only offers the proper context of John Chapter 14, but it does so based on the context of the entire gospel of John. Undoubtedly, the concept of mansions in heaven is one of the long-held beliefs of the church. Promoted by teachings and songs, it has become the eternal hope of many believers. However, I am certain that through reading this book, what has been traditionally believed and accepted will be replaced with a message that is far more substantial. One that is established on the Father's original purpose for humanity.
