influential atheist, and you can check the podcast concerning the debate that Dr. Craig had with Dr. Krauss. [1]

*A Universe From Nothing | Reasonable Faith
The nothing that Lawrence Krauss describes in this book is not nothing. He is not describing the beginning of the universe from nothing, but the beginning of the universe from a quantum vacuum, which is described by physical laws and takes place in space-time. I don't think the content of the book lives up to the title.*
